**Rich Men**  
Nearly all started in life poor. The stories of their beginnings read much the same.  
They laid the foundations of their fortunes by systematic saving in a modest way, gradually building a bank account by a dogged determination to get ahead, until it reached such proportions that they could invest it to advantage when the opportunity arrived.  
We cannot all be rich but there is a reasonable chance for everyone to enjoy a moderate degree of financial success if the saving habit is cultivated. The secret is in spending less than you earn and in placing the surplus where it will draw interest.

## FAIRMOUNT RAILROAD CROSSING

The city has commenced filling in dirt at the new street crossing of the railroad in Fairmount two blocks west of the one by the knife factory. It will require quite a fill, as the railroad track there is about six feet above the level of the street. This will be a great convenience, as for a good quarter of a mile east of the university there has been no crossing, and that with a pretty well built up town on the south side of the railroad. It will connect Eleventh and Thirteenth streets, but they will only be a block apart there, as Eleventh street bears southerly and next the railroad, eliminating Twelfth street several blocks in Fairmount.

**Portland Market Review**  
Portland, Or., Feb. 21—This is the season when Portland depends largely upon California for what we designate "spring" vegetables. In the cities east of the Rockies the vegetables now offered here are regarded as almost unseasonable, and besides, the severe weather at this time of year in that section precludes the handling of anything except the few things that the rich can afford to buy.  
It happens, therefore, that tomatoes, asparagus, peas and similar products coming up from the southland are practically luxuries "back East," and figure in but a small way in their markets.  
For instance, two carloads of mixed early vegetables arrived here this morning and were simply snapped up by retailers, who are able to put them on sale in open front stores without fear of weather conditions.  
New asparagus in supply equal to local and shipping wants was included in the lot, and is selling at 25 c. Beets, carrots, radishes, artichokes, cucumbers, tomatoes, cabbage, cauliflower and peas were in the lots coming in this morning. Prices were well maintained.  
A car of celery was also distributed this morning and was in good shape.  
Citrus Fruits Go Well  
Three cars of oranges and a lot of fancy tangerines came in yesterday evening and were meeting with good sale today at the prevailing quotations.  
There is quite an improvement reported in fruit shipments from this distributing point in both citrus fruits and apples.  
Country Produce.  
Egg receipts were again quite heavy, but from what could be learned from dealers they were not quite heavy enough to break the market.

**Portland Quotations.**

**\$100 REWARD—\$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive catarrh cure known to the medical fraternity. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitutional strength and assisting in the elimination of the morbid nature in its work. The proprietors have so much faith in its curative powers that they offer \$100 for any case that it fails to cure. Send for list of testimonials.

## SAYS THIS RELIEVES BACKACHE

A well-known authority says that backache is often Nature's danger signal that notifies the sufferer that the kidneys are sick.  
The following simple home-made mixture is said to relieve backache and cleanse and build up the kidneys, if taken before the stage of Bright's disease: Fluid extract Dandelion, one-half ounce; compound Kargon, one ounce; compound syrup sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.  
A well-known local druggist is authority that these ingredients are mainly of vegetable extraction and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.  
to any appreciable extent. The demand from local retailers and outside sources is not quite keeping pace with receipts, but at the same time no great accumulation is apparent.  
Poultry shows an improved tone, and good fat hens and young chickens bring 13 1/2 @ 14 c. A lot of Eastern dressed chickens coming in a day or so tends to keep live chickens from going up to midwinter prices, and the trade seems to be well satisfied with the present conditions, saying that a higher market fails to move stocks when arrivals are heavy, for low cost of fresh meats and competition of frozen goods make high maintain.  
Fresh Meats Steady.  
There were rather full receipts of dressed veals and hogs today, but in spite of short arrivals at the stockyards there was no urgent demand except for fancy veals and good fat block porkers. Prices remain steady at quotations, though poor quality was shaded today in several instances.  
Hops Make No Advance.  
Reports from the East and abroad are not at present very encouraging to holders for an advance. Orders are at even lower than last week, but growers generally are tenacious, and will not sell at the low figures offered—under 10 cents.  
The situation is variously stated to be controlled by speculators and the big brewers, and just how long this control can be held is, of course, not a matter given out for publication.  
The English market has remained stationary for two or three months for Pacific coast goods.

Bill also is minus one leg and one arm and is covered with wounds and scars. The leg which assists in Bill's support shows seventeen bullet wounds.  
After his discharge from the regular army Bill enlisted in the rough riders and saw service in Cuba under President Roosevelt. The trimming up of his physical being was then completed.  
As the result of participating in the peaceful pastime of falling on the sidewalk Bill is now nursing a broken arm. He says he is glad he has yet to realize the sensations of a broken neck.

**Boy of Three Sent to Jail.**  
Great excitement was caused all over Switzerland when the news got abroad that the criminal judge at Weinfelden in the canton of Thurgau, had sentenced a child of three years to three and a half months' imprisonment. The child while passing a toy shop was attracted by some toys dangled in front of the entrance and took two of them home, he said in the court, for his little sister, who had no toys. The child is so small that he had to be carried into the courtroom, and after he was sentenced a bulky policeman took him screaming to the jail.

## TIED BOY TO TREE AND LET HIM FREEZE

An Inhuman Stepmother's Alleged Cruelty Costs a Child Both of His Legs  
The authorities of Jefferson county in northern New York, who just had their eyes opened to a case of inhuman cruelty that happened nearly a year ago and which, through some mysterious means, has been kept under cover ever since.  
A small boy named Leon Tift has suffered the amputation of both legs as a result of being tied to a tree and

"MY MOTHER TIED ME TO A TREE," left to freeze by his stepmother. At least that is the explanation given by the boy, and the authorities believe him.  
The amputation took place some time ago, and the boy has been out of the hospital and back to the county orphanage for several months. Just how a case of this nature could escape attention so long no one seems able to explain, but District Attorney Pitcher has taken the matter up with a determination to probe the case to the bottom, and before he gets through some persons well thought of in northern New York may find themselves charged with conspiracy.  
If it hadn't been for the annual visit of the county supervisors to the orphan asylum the case wouldn't have come out even at this late day. They saw the legless boy sitting in a chair, unable to move, and asked him out of sympathy how he happened to lose his limbs.  
"My mother tied me to a tree and left me there," said the boy.  
The supervisors were up in arms in a minute. They had assembled from all parts of the county, and they knew that no such case had ever received the attention of the authorities. The boy went on to say that he lived at Ellipsisburg with his father and stepmother and that he had had to take the brunt of the woman's spite ever since children of her own came into the world.  
"It was last February and a cold day, too, when she tied me outdoors to a tree," said the lad. "I hadn't done nothing to get such punishment for."  
After the boy had remained in the cold for several hours the woman released him. When it was found his feet and legs were frozen his father and stepmother took him to a Water-town hospital and left him there. Then they disappeared. He has never heard from them since.

**ENJOY EATING.**  
Good Digestion Can Be Readily Gained With Mi-na Stomach Tablets

It is torment to look upon a tempting dinner and realize that to eat freely means distress and suffering. Let us tell you how you can enjoy eating, so that the heartiest meals will set well and cause no pain, distress or uncomfortable feeling of fullness.  
If you cannot eat and enjoy three without any feeling of discomfort, your stomach is weak and needs the strength which Mi-na stomach tablets will give it. You cannot afford to delay treatment, for the longer you allow the digestive organs to be weak the harder it will be to get help.  
The remarkable curative and strengthening powers of Mi-na are attested by the guarantee which Mr. Hull gives with every 50 cent box. "I will return the money if Mi-na fails to cure."  
If you find that eating well-cooked and properly chewed food is followed by heaviness and a load on the stomach, by bloating, by gulping of acids and wind, by distress, nervousness, headache, trouble to sleep, or by any other symptoms of disordered or weak stomach, you should begin the use of Mi-na at once. It is guaranteed by one of the best-known druggists in Eugene to cure all disorders of the stomach, or cost nothing. A guarantee like this means a good deal. 111-21 m4
