FINED \$30 FOR STEALING NINE EGGS

"Shell" Coffman seems to have more than his share of trouble in the courts. His latest appearance was this forenoon, when he was taken before Judge Bryson, of the Justice court, on the charge of larceny, he having stolen nine eggs from the Vincent restaurant the other night, when he and Bill Pritchett were arrested for being drunk and disorderly. He pleaded guilty and was fined \$30, which he paid.
Coffman started to work on the streets this afternoon with the ball and chain fastened to one of his legs, in pursuance to the order of Police Judge Dorris the other day. This is an old sentence of twenty days, and when it is completed he will probably be given twenty days more for the escapade with Pritchett the other night.

EXERCISES AT HIGH SCHOOL THIS AFTERNOON

The first of a proposed series of assemblies was held at the high school this afternoon in honor of the birth of Washington.
J. F. Gates told the school of the new office formed in the G. A. R., namely, the patriotic instructor, the duty of this officer being to promote patriotic enthusiasm and to create a greater veneration for the great men of the country on such days as Memorial Day.
Professor F. S. Dunn spoke and told of a visit to Mt. Vernon, telling how it is being preserved and honored by the people.
The High School Glee Club made its initial appearance in public with a selection and encore.
Rev. H. N. Mount gave the address of the occasion. He brought out the life of Washington, showing the little things in his character which have made the nation what it is today, and how the student of today could profit by his example.

HIGH SCHOOL TEAMS PLAY AT ROSEBURG

Two championship basketball games, being the last games of the season in Roseburg, will be played at Stocum's hall next Friday night, February 22, between the boys' and girls' teams of Roseburg and Eugene high schools. The local high school teams have not been defeated by any other high school teams in Southern Oregon this season, and if they are victorious over Eugene they will contest with Salem or Portland for state supremacy. Both of next Friday night's games may be seen for one admission price, 35 cents.—Roseburg Review.

FACTS ABOUT SKATES

While skates have nothing to do with this article we feel it is the only means at hand to catch the eye of the Eugene public at this time.
The Eugene theatre orchestra has given a series of dances during the past winter months. Possibly this fact has not been generally known, in any case the orchestra knows these dances have taken place, as they were were always present to play for those few kind, sympathetic friends who did attend. To such friends they are truly thankful.
That these dances have been poorly attended the orchestra is fully aware. And why this poor attendance?
Is it because of so many of their friends being unintentionally overlooked in not getting an invitation to their first dance? If this be true they are truly sorry and their hats are off to any and all of their friends who were thus overlooked.
As a dance orchestra this organization has few, if any, equals in the state, and it is with regret to say that they are about to step down and out and bow low to the "whir" of skates and the "smack" of basketball. But in the face of all counter attractions they have been induced to remain in tact long enough to give a good old-time poverty ball, to take place in the near future. And it is to be hoped that all of Eugene will take advantage of this opportunity, as they intend to make it the most enjoyable dance of the season. Watch for the date.

LIVING, YET SATISFIED

Right here in Oregon people whom you know, or can know, have been insured in the Mutual Life Insurance Company of New York, the company that today is paying the largest dividends of any standard company in this country. Hear the evidence:
William Waddams, \$1000 policy, over 100 per cent dividend; what company can beat it?
Mrs. A. E. Latourette, endowment policy, protection for 20 years and remove that 6 per cent interest.
B. Neustadter, increased face of policy by dividend more than forty per cent.
C. R. Donohue, \$4000 endowment, dividend \$2232.56. Good, isn't it?
George W. Wright, 20 year endowment, dividend more than forty per cent. Don't forget the protection, for he speaks highly of it.
John S. Bradley, \$2187.05, 20 year dividend on life policy of \$5000. This is the first 20-year dividend. Have you beat it on your farm or in your store? Think before you speak.
Frank Gilliam, \$1000 policy, \$818.10 dividend. Come in and see what he says about it—it costs too much to print it.
Paying dividends now, 1907, about twenty per cent more than in 1906. No other company can show results like this. Tried as it by fire and found to be pure gold. The true records show. Your life should be insured—you cannot afford to put it off longer. Write or call and see J. W. Zimmerman, the agent, room 2, Loan and Savings Bank building, Eugene, Oregon. m21.
