Dunn's Sanitary Home Made Bread the Best--Why?

Because it is made from a combination of the best flour obtainable blended in our own bakery; made scientifically on the home made plan. After it is panned it is proved with steam, baked in an oven with steam injected thus doing away with the old time custom of washing the bread with grease. We strictly adhere to the pure food law. Sanitary methods are used in every thing. We would be glad to take orders for anything in the bakery line. Delivered free everywhere in the city any day in the week.

LETTER FROM SAM T. THURSTON IN ARIZONA

Former University Football Star, Who is Now at Alhambra, Arizona, For His Health, Writes of the Country There.

Sam T. Thurston, a former U. O. football star and a son-in-law of Dr. Taylor of this city, who is now in Arizona, where he has been for some time past on account of his lung trouble, writes to a friend as follows: "I am now at Alhambra, Arizona, and am feeling much better. I have to keep very quiet, however, and as long as I do that I feel good as I ever did. I am in bed about all of the time, but in the last week I have got up and dressed myself and have eaten one meal at the table. I have lost little or no flesh, and hope by the time summer is over to be able to show my old self again. I have great confidence in this climate, and am sure that if I can get health anywhere I can get it here.

"Speaking of climate, one can get it here if it is to be had. We have had considerable rain and many cloudy days, but you would not notice it in Oregon. Here in the valley, rains never last more than a day, but it is long enough to make the people forget all of their religion. The temperature ranges from 70 to 80 degrees in the day time, and between 40 and 50 degrees at night. For a few days it was above 90 degrees and the humidity down to ten per cent.

"Alhambra is a little burg on the Santa Fe railroad about five miles from Phoenix. We have a saloon, store and postoffice, all in one; no church, but a good dance hall. There is to be a dance tonight. Old Glory climbs up and proclaims it to the countryside.

"There are many sights here that would claim your highest appreciation. For instance, 200 or 500 fat cattle in one field, with the alfalfa up to their backs. It is claimed that stockmen here can raise a four-year old steer and fit him for the market for \$7.

"Another grand sight is the shearing camps. Sheepmen gradually work their flocks down the valley, or desert, and all shear at one centre. There is one camp close to this place where over 15,000 sheep are ready to be shorn. The shearing is done by machinery at the rate of 3,000 sheep per day. Buyers come here from the East and the wool is all bought up early in the season.

"The ostrich farm is also very interesting. It is all fenced off in half-acre lots and each pair is kept by itself. There are about 1,500 or 2,000 birds in the vicinity of Phoenix, claimed to be the largest number in captivity at any one place in the world.

"Indian blankets and relics and the mounds of the old mound-builders and many other things are dear to the tourist, but the most impressive feature to the Oregonian is the excellent system of country roads. To-day I watched a team hauling a wagon with over 100 bales of hay on it. They use what we call bundle-racks, and it beats all how they load them.

"Arizona is certainly a grand place to spend the winter, but is rather warm in the summer. I must close for this time. Please remember me to all of my old friends and tell them I would like to be with them again."

HEADACHE

"My father had been a sufferer from sick headache for the last twenty-five years and never found any relief until he began taking Cascarets. Since he has begun taking Cascarets he has never had the headache. They have entirely cured him. Cascarets do what you recommend them to do. I will give you the privilege of using his name."

LINN COUNTY KICKERS MUST DO WORK AGAIN

U. of O. Referendum Petitions Gotten Up Wrongly - Important Amendment to Old Law is Overlooked. Must Prepare New Petition and Begin Over

Albany, Or., April 11.—Members of the state grange who have been circulating petitions asking for the referendum vote on the University of Oregon appropriation bill have worked in vain. It has been discovered that an error was made in the form for the petitions which renders them useless. Several hundred names have been signed to these petitions and the work of several days has come to naught.

The petitions were drawn up in accordance with the old law, which provides that the petitions after being circulated shall be given to the county clerk of the county in which they were signed and by him certified to as regards the registration of the signers and the genuineness of the signatures. An amendment to the referendum law enacted at the recent session of the legislature provides that the petitions shall be certified by the persons circulating them, who shall certify that the names were signed personally by the voter and that he believes the signers to be bona fide voters.

It is estimated that in Linn county alone 500 names have been signed to these petitions. The movement originated here but petitions have been sent to almost every county in the state and in Marion, Clackamas and Yamhill counties many signatures have been secured. Now the work must begin all over again.

Just what effect this will have on the movement to invoke the referendum against the university appropriation is not clear. Local leaders in the grange say this will not mean the defeat of the movement. The question of additional expense, which is by no means unimportant, is one that is being reckoned with, however.

The mistake in drawing the petitions arose from the fact that a Salem attorney, who drew up the petitions, as well as all others interested in the movement, had not heard of the amendment passed by the last legislature. The new law, which was house bill No. 123, was given very little publicity, hence the error in the form of the petitions was not discovered until yesterday. The bill carried an emergency clause or the petitions could have been circulated under the old law.

TWO FOOTBALL GAMES WITH MULTNOMAH

The Multnomah Amateur Athletic Club and the University of Oregon have entered into an agreement to play their annual football game on Thanksgiving day of this year, and also next year. The contract was signed by the club manager and C. N. McArthur, the Portland representative of Oregon, yesterday, and the document calls for a game in 1907, and also one in 1908.

The same conditions will govern both contests. The conditions of the agreement are not quite so favorable as formerly, though each party gets fifty per cent of the net receipts, as before. The rent for the club field has been placed considerably higher, which, of course, cuts into the gross receipts. However, the new arrangement is very agreeable to the Oregon manager, Grover Kestley, for the club management had tried to arrange the division on a sixty and forty per cent basis, Oregon getting the short end. Multnomah will also get the grandstand charges, and in order to increase the amount expects to build a new one to hold between 4,000 and 5,000 people. The present one has a capacity of 1,500.

BACHELOR PROBLEM ON U. OF W. STAFF

Student Weekly Objects to Professors' Privileges With Varsity Girls.

Seattle, April 11.—Unmarried men should be kept off the faculty of the University of Washington is the opinion of Registrar Herbert T. Condon, of the University of Washington. He declares married men can avoid trouble.

The faculty was assailed in an editorial in the Pacific Wave, the college weekly publication, for not practicing what they preached. The faculty club, composed entirely of bachelors, was reproved by the editor for giving dances on Monday, Tuesday, Wednesday and Thursday, study nights, and taking 'varsity coeds' to them when there is a faculty ruling against giving formal dances on these nights.

The faculty members declare that none of these dances were formal affairs, and that they are doing what the students can do five times a week if they keep up their studies. Investigation shows that not more than three or four of the 'varsity girls' have ever attended any of these functions.
