We have secured another Tracy story for our readers

The King of Diamonds

BY LOUIS TRACY

Author of "The Wings of the Morning," "The Pillar of Light," etc.

ILLUSTRATED BY BERGER

This, like many of the best stories you have ever read, begins with a boy. Philip Anson's mother, to whom he is devoted, dies in poverty leaving her boy of fifteen alone in the world.

Just when he has determined to commit suicide he comes into the possession of diamonds of fabulous value in such a strange manner that they seem to be sent from heaven the gift of his mother.

To secure his vast wealth in spite of enemies and the persecution of the law is a problem that would tax older and wiser heads.

But the stars in their courses fought for Philip. His adventures in his new position make a story of extreme fascination—even if a high born little lady had not appeared to him in his poverty to fill his soul with a vision which he carried until it became a reality.

We will not ask you to read this story. We are going to publish the first chapter in a few days. If you can refrain from reading it or stop when you have begun you will be a greater wonder than Philip's fortune

FISHER LAUNDRY BUILDING BURNS

Old Wooden Structure Almost Completely Destroyed This Morning

Fire Caught From Furnace of Engine. Engine and Boiler and Washing Machinery Destroyed - No Insurance on Either Building or Machinery

This forenoon fire partially destroyed the Fisher laundry building on East Eighth street and ruined half of the machinery.

The blaze was caused by sparks or coals from the engine furnace in the rear part of the building. E. L. Fisher, proprietor of the laundry, who was running the engine, was called to the office in front to attend to a little business about 9:15 o'clock, and was gone but two or three minutes. When he returned the pile of shavings and sawdust, which were used for fuel for the engine, was all ablaze and the fire was rapidly spreading to the building. In less time than it takes to write it the rear portion of the building was afire, and burning fiercely. An alarm was telephoned from the office of the laundry, and the chemical engine and hose wagon was on the scene in a few minutes, although there was a slight delay, caused by the tongue chains on the engine becoming un-snapped. Driver Croner had to stop the team and snap the chain again, stopping a few seconds in front of the Baptist church to do so.

A stream from the hydrant at the corner of East Eighth and High streets was soon obtained, and the chemical hose put in action, but by that time the whole half of the building was in flames. The building was nothing but a shell, dry as tinder, and burned very rapidly. The firemen did good work, however, and the fire was eliminated for as much of the building as they did. The Cyclone hose cart arrived at the fire a few minutes after the engine got there and another stream was obtained from the hydrant at the corner of East Eighth and Ferry streets. Within twenty or twenty-five minutes after the alarm was sounded the blaze was completely under control, but not before the rear half of the building was entirely destroyed, the whole roof burned off, and the washing machinery and engine and boiler badly burned. The ironing machinery, in the front part of the building, was practically unharmed, although soaked with water. The office fixtures were removed without damage, and, Mr. Fisher says, all the articles of clothing and other pieces to be laundered were saved, so his customers will not be loser.

The blaze attracted a large crowd of people and many were in the way of the firemen at times, but as there are never any ropes stretched or anything whatever to keep the crowds away, they are not to blame. At every fire there should be a limit placed and officers should be stationed to see that the crowds keep on the outside at a distance so that the firemen can work properly.

At one time the big barn in the rear of the laundry building was afire, but the incipient blaze was quickly extinguished by the stream from the Cyclone Company's hose, which had just been placed in commission at that time. Had the cart been delayed in arriving a few minutes later the barn would have burned, as the other stream was devoted exclusively to the burning laundry, and it is probable that several other buildings in that vicinity would have gone up in smoke, as there are several in close proximity to the barn.

F. L. Chambers' boatshouse, on the banks of the millpond, and within fifteen feet of the laundry building, were on fire several times, but a corps of boys, headed by F. E. Chambers, armed with buckets, kept the blaze from spreading. The boats, fifteen or twenty in number, were all taken out of the houses and pond was quite a navy of them on the pond for a few minutes. They are owned by different people, who have the houses rented. None of the boats were damaged in the least.

The wind was from the south at the time of the fire, and sparks and cinders were blown several blocks. Streams of water were played on the roofs of the woolen mill, the flour mill, the excelsior mill, the cannery and other buildings in the manufacturing district as a precaution. The residence next door to the laundry caught fire several times, but was saved from burning by a couple of streams from garden hose. Sparks alighting on the roofs of other buildings were put out before they did any damage.

No Insurance. The laundry building, which was a two-story frame structure, was owned by F. L. Chambers. It was a tumble-down old shack, and Mr. Chambers says it was not worth more than \$200 and was not insured. The laundry machinery and fixtures were not insured for the reason that none of the companies will take the risk. Mr. Fisher estimates his loss at \$200 or \$300.

The building formerly stood on West Seventh street where the Griffin Hardware Company's warehouse now stands.

Will Erect New Building. Mr. Chambers shortly after the fire informed the Guard reporter that he will tear the shell of the old building down and erect in its place a corrugated iron building which will be occupied by the laundry just as soon as it is completed. "The work will at once commence and will be carried on in such a way as not to interfere with the operation of the laundry."

Working Right Along. Mr. Fisher informs the Guard that there will be no interruption in the work of the laundry. Arrangements have been made with the Hodes laundry to assist him for a few days until the new washing machinery is installed. The ironing machinery will run right along and delivery will be made as quickly as possible, not a single garment in the damaged laundry having been lost.

CHURCH SERVICES.

Central Presbyterian church, H. N. Mount, pastor.—Sunday school, 10 a. m.; C. E., 7 p. m.; preaching at 11 a. m. and 8 p. m. All the services will be held in the Cumberland Presbyterian church, corner Sixth and Pearl streets.

Humphrey Memorial M. E. church, D. H. Trimble, pastor.—9:45 a. m., class meeting; 10:30 a. m., morning service, subject of pastor's sermon, "The Relation of the Home to the Child's Religion." Marching Song—Primary class.
Exercise—Primary class.
Recitation—Gladys Archer.
Recitation—Ruth Mills.
Song—Willie Hullin.
Recitation—Adelaide Lake.
Song by school.
Recitation—Miss Lilwall.
Duet—Professor and Mrs. F. S. Dunn.
Recitation—Ruth Bartle.
Cornet solo—S. E. Stevens.
Recitation—Zella Seymour.
Solo—Una Neal.
Song by school.

FOR OUR READERS

To Prove That Hyomel Will Cure Catarrh Every Reader of the Guard for Eugene People to Neglect.

If there is any doubt in your mind as to the power of Hy-o-mel, the medicated air treatment, to cure all catarrhal troubles, the remarkable offer made by Mr. Hull should dispel that doubt. He gives his personal guarantee with every dollar outfit of Hyomel he sells to refund the money unless it gives satisfaction. He takes all the risk of cure, and no reader of the Guard can afford to longer suffer with catarrh when an offer like this is made.

With every Hyomel outfit is a neat pocket inhaler, and Hyomel breathed through this inhaler reaches the most remote air cells of the nose, throat and lungs, destroying all catarrhal germs, and soothing and healing the irritated mucous membrane.

Hyomel really gives you a health-giving climate in your own home, so that when you breathe its medicated air your nose, throat and lungs will be filled with air like that on the mountains high above the sea level, where grow balsam trees and plants which purify the air with their volatile anti-septic fragrance so healing to the respiratory organs.

You will notice relief and benefit from the first use of Hyomel, and it will not take many days' treatment to convince you that in this remedy you have found a complete and lasting cure for all catarrhal troubles.

We guarantee our work in every particular. Eugene Steam Dye Works.

BODY CLEANING EVERY SPRING MORE URGENT THAN HOUSE CLEANING.

Many Women Have Discovered That a Course of Treatment With Pe-ru-na Cleanses the System of the Accumulations of Winter.

MRS. ALICE BRADLEY.

Mrs. Alice Bradley, Thorold, Ont., Can., writes:

"Two years ago I became weak and rundown and as time passed I gradually failed until a year ago, when I experienced a stroke of paralysis, which affected one side and I was helpless."

"I called in professional medical treatment, but steadily grew worse."

"I had decided I never would rise again from my bed, but, when Peruna was brought to me and after having taken four bottles of it, I was able to be out and a wonder to myself and friends."

"I consider Peruna a great blessing to the afflicted. I may add that my daughter has also used Peruna and has been blessed with renewed health. I believe Peruna saved our lives."

Clean Up Once a Year.

CLEANING up the body in the spring is a duty everyone owes to himself. Face powders may hide a rough skin, but Peruna helps to produce a skin that need not be hidden.

The source of good blood is good digestion. Peruna aids digestion.

Those people who have regular bodily functions have a clear and delicate skin. Peruna helps to restore these functions. Most skin deformities depend upon systemic derangements, which cannot be corrected by local treatments.

Peruna is a systemic remedy, reorganizing and regulating the whole body.

Health and Complexion, Strength and Beauty Depend Upon Clean Blood and Good Digestion.

Mrs. Daniel Passmore, Welland, Ontario, Can., writes: "For three years I was severely afflicted with stomach trouble, and for days at a time I could not eat anything. I grew thin in flesh, had headaches and was the picture of despair."

"I was attended by three doctors, but got no good results."

"Finally I began the use of Peruna. I soon noticed an improvement and after using three bottles, I was able to relish a meal, in fact, could eat anything."

"To-day I feel well and strong. I consider that Peruna has saved my life and I shall always praise it."

MRS. DANIEL PASSMORE.

Mrs. N. P. Lawler, 423 1/2 N. Broadway, Pittsburg, Kan., writes:

"Last spring I caught a severe cold which developed into a serious case of catarrh. I felt weak and sick and could neither eat nor sleep well."

"A member of our club, who had been cured of catarrh through the use of Peruna, advised me to try it and I did so at once."

"I expected help, but nothing like the wonderful change for the better I observed almost as soon as I started taking it."

"In three days I felt much better, and within a week I was well."

"I continued taking the entire bottle and within two weeks I was in fine health."

"Peruna is a wonderful medicine."

Mr. Lee King, R. F. D. No. 4, Fairbairn, Minn., writes: "My health has been better generally this spring and summer than it has been for four years and I have worked nearly every day."

"I suffered with dysentery and bowel trouble."

"Your remedy also cured my wife of constipation."

"I wish you continued success with your great medicine, Peruna."

FAIRMOUNT DEPARTMENT

Marcola is the Mecca to which all eyes are now turned. Mention has been made at times of those who have gone there for pleasure or profit, and still they go.

Charles Crowley is building a two-story house for himself at Marcola.

W. B. Mummy and partner have taken the contract for building the new hotel at Marcola. J. McClinton has gone there to help them.

The Sheridan boys and Marshall Pettit went to Marcola the other day seeking work. We presume they found it, for they have not returned.

If the street grading, paving, electric car line work cannot be hurried along, there will be a scarcity of help. All will be at Marcola.

There are still some scoffers here who look upon the building of a street railway as pure bluff. One man was heard to say that for years there has been the same old story—work was about to begin. He thought by this time it must be nearly through—fallen through.

The ladies of the U. B. church gave a lawn supper last Saturday night in Fairmount park. It was well attended and a pleasant time was had by all. Lanterns were suspended from the trees and gave a pleasing effect.

Geo. Melvin Miller will entertain all of his friends at Florence this summer. He bars no one. He only stipulates that they shall transport themselves there and also their grub. He will furnish the necessities—light, air, water and exercise.

Fairmount needs a meat market. Good chance for the right man.

A good cobbler could find plenty of work out here.

While walking down town yesterday Mrs. T. H. Garrett was run against by a bicycle rider and injured, though not seriously. It is apparent to all that some action must be taken by our authorities to check this reckless riding. Provide a good cycle path and make riders keep off the walks.

Residents of Fairmount should turn out in force on June 13 to help clean up Hendricks' park. There should be no holding back on that occasion or pleading previous engagements. Now is the time to show your spirit. People in this section will be expected to take more interest in this, if anything, than residents of other sections. Turn out and do the good work along. You will be better for doing so. Every dollar expended on the

park adds to the value of city property. Don't forget the day. Those who don't help usually hinder. You may not care much about the park yourself, but children will.

Ed Juddkins makes a good suggestion which is here given to the park commission. Let some man have the privilege of pasturing a herd of goats there for one season. It will effectually clear the park of much underbrush that could not be so well done otherwise.

Mr. Floener, the "cowboy preacher," has been preaching here for several nights. He now uses the public hall. He keeps things and people stirred up pretty well.

Last Sunday evening the local W. C. T. U. held services in the church. It was a volunteer service. There were several good speakers and plenty of good music.

The last regular meeting of the East Eugene Improvement club was held last Monday evening. The attendance was not quite as large as usual. Prof. Young of the University, addressed the members along the line of usefulness of such organizations. His remarks were complimentary to the club.

Walter Eaton and Belton Hamble started on Wednesday for the Yellowstone park. They will spend their entire summer vacation there.

J. O. Bristol and wife left yesterday for a week's trip up into Washington, stopping at Portland a day or two.

The social at the Oaks, given by the young people's societies of the city, last evening, was a delightful affair and was well attended by Fairmount people. Japanned lanterns and bonfires illuminated the grounds beautifully.

STONE JARS

We have the most complete line of stone fruit jars from half gallon to 12-gallon ever carried in Eugene. Eugene Grocery, 45 East Ninth st.

STRAWBERRIES

Buy your strawberries of the grower and get them fresh. Phone Farmers 159.

Withstands rain and shine. It's pure paint, every atom of it. The New Era quality, sold only at the Berger-Benn Hardware Co.

It starts at early morn. To face the wide, blue world. He gets his strength and health. By using Rogers' Mountain Tea. Linn Drug Co.

SPRINGFIELD ITEMS OF LOCAL INTEREST

McClain & McArthur, who have the Springfield sewer contract, commenced work Wednesday. They have nearly a mile and a half of pipe to lay, which ranges in size from 12 to 22 inches. Most of the material has arrived and it is hoped that there will be no further delay. The entire system will be completed by October 1st.

Mr. and Mrs. F. O. Russell announce the arrival of a fine 15-pound boy at their home at Collins, Washington, Wednesday, May 21. "Uncle" Stacey is feeling rather proud of his first nephew and says it is the first time he ever knew how good it seemed to be called uncle.

Born—To Mr. and Mrs. W. H. Shelby, at Pleasant Hill, Monday, June 2, a son.—News.

Land cruisers' estimate books for sale at the Guard office.

In the natural food of our domestic animals nature provides certain peculiar medicinal herbs, leaves, barks and roots which seem necessary for their health.

Pacific Stock Food

contains in condensed form the essential virtues of those health giving herbs and is prepared expressly for those animals deprived by man of their natural food. It stimulates the appetite, improves the digestion and assimilation of food, purifies the blood and insures a good, healthy condition.
