WEDNESDAY, JULY 3.

NO PAPER TOMORROW.

In order to give all our employees an opportunity to celebrate the Fourth of July, there will be no Daily Guard tomorrow. For the same reason the Weekly Guard was issued today—one day in advance of the regular publication date.

LUMBERING INDUSTRY.

A bulletin just issued by the department of commerce and labor (census bureau) contains a statistical report on lumber and timber products by Jasper P. Wheelch, expert chief of the division of manufactures, and an article on the timber regions of the United States by Henry Gannett, geographer of the United States Geological Survey. The bulletin was prepared under the supervision of William M. Stewart, chief statistician for manufactures. Among other information the following is given:

At the census of 1905 the number of sawmills reported was 18,277, and their combined capital was \$381,621,184. They furnished employment in the average to 223,674 wage-earners, paid \$100,310,891 in wages, consumed materials costing \$263,885,101, and manufactured products to the value of \$491,524,662.

In this industry Wisconsin ranked first according to the value of products, Washington second, Michigan third, Louisiana fourth, and Pennsylvania fifth. In 1900 Wisconsin was second, Washington sixth, Michigan first, Louisiana eleventh, and Pennsylvania thirteenth.

A classification of the mills according to the quantity of lumber cut indicates that between 1900 and 1905 the capacity of the average mill materially increased. Mills cutting 1,000,000 feet or more annually formed 33.3 per cent of the total number in 1905, as contrasted with 30.6 per cent in 1900.

The principal products of the sawmills, with their values, were as follows: Rough lumber \$435,708,084; shingles, \$24,009,610; hoops, \$3,159,973; staves \$19,082,641; head-logs, \$7,436,259; and laths \$5,435,968.

The increase in the average value of all lumber was from \$11.14 per thousand feet in 1900 to \$12.76 at the census of 1905, or 14.5 per cent. The advance extended to all species of both conifers and hard woods, and in the case of several of them was large. Among the conifers, yellow pine advanced from \$8.59 per thousand feet to \$10.10; white pine, from \$12.72 to \$14.92; hemlock, from \$9.97 to \$11.91; Douglas fir, from \$8.67 to \$9.51; spruce, from \$11.29 to \$14.03; and cypress, from \$13.34 to \$17.50. Oak increased from \$14.92 per thousand feet to \$17.51; poplar from \$14.22 to \$18.90; maple, from \$11.83 to \$14.94; cottonwood, from \$10.35 to \$14.92; elm, from \$11.57 to \$14.45; and gum, from \$9.75 to \$10.87.

In the amount of production, which can be most accurately measured by the number of thousand feet of saw logs produced, Washington ranked first, Louisiana second, Wisconsin third, Pennsylvania fourth and Arkansas fifth. In the value of products, however, the five leading states were Wisconsin, Washington, Michigan, Minnesota and Pennsylvania.

A comparison of the figures for 1905 with those for 1900 shows that growth in the industry since 1900 has been most rapid in the South-western states and in certain of the Pacific Coast states, while a substantial and, with respect to most of the items, uniform decline characterizes the Lake states as a group. That logging is relatively declining in the

Central states is also clearly indicated, and this is due, of course, to the practical exhaustion in those states of merchantable timber in continuous bodies.

It was hardly necessary for the Canadian Minister of the Interior, who has been doing the Jintown show, to announce that Canada would stand pat on its tariff relations with the United States, as it was being done right along since Uncle Sam made it plain that he was not to be caught paying dollars for dimes, even though the transaction was labeled "reciprocity."

Well, now it's all settled, Rev. H. Pedley, who has been a missionary in Japan for eighteen years, says the Japs will never go to war with us, unless they are pushed to the wall, and we can give an absolute guarantee, if necessary, that we will not push 'em to the wall, or to any old place. So it's a peace.

New York's city hotel association no longer keeps a chaplain to marry 'em while they wait, at any old hour, but we have no idea that fool-things in the matrimonial line will be any more difficult to pull off there than they have always been—it will continue to be simply a question of the price.

Here's another discrimination: The U. S. Treasury has officially notified bankers that they can get the new \$10 gold certificates in any quantities, but no such notice has come to others who would be glad to get a few. Does Cortelyou expect bankers to nominate him for president?

A remarkable tribute was paid to the memory of Francis Murphy, the great temperance advocate at Los Angeles today. While the body lay in state, all the saloons of the city were closed as the result of the movement started by the liquor men themselves.

A man claiming to be an English lord has taken a job in a Pennsylvania butcher shop. Like as not that will be made an excuse by the trust for another boost in prices. It would be about as reasonable as the others.

An enthusiastic boomer of the new San Francisco says it's going to astound the country. In view of the series of continuous quakes it has been pulling off since the earthquake, we don't see how that will be possible.

Even the poet of the New York Sun, who is rhyming on the uselessness of kicking, ought to know that the average kicker doesn't do it with the slightest hope of changing anything—he does it because he enjoys it.

We gather from the daily press that Dan Hanna is all puffed up with pride because his divorcee have cost half a million dollars. If he'll get a lot of Corey's expenses he'll see that he is only a piker.

Of course no delegate to the peace conference, at the Hague, will be so inconsiderate as to remind the British, French and Russian delegates that peace, like charity, should begin at home.

Just now it is a case of the pot calling the kettle black for the members of either of the great political parties to charge the other with being dominated by one man.

A really "quiet" marriage was pulled off in Buffalo, the other day—the bride and groom were both deaf and dumb and the ceremony was conducted in the sign language.

Kind lawyers have—for a price, of course—made it probable that the recount of the New York mayoralty votes will be deferred until it cannot possibly affect anybody.

OREGON NEWS

IN BRIEF FORM

Governor Chamberlain will arrive at Jacksonville July 4th.
An irrigation plant is to be operated on the O. A. C. farm under the direction of A. P. Stover, of the U. S. government service, who himself will have charge of the plant near Albany.

Now it transpires that the white girl found in the Chinese den in Portland, was there voluntarily, the wife of a Celestial, and she wants to stay. The first newspaper accounts of it were very yellow, evidently manufactured.

State Game Warden J. W. Baker has eight children. Last Sunday by prearrangement they tendered Mr. and Mrs. Baker a surprise, all going home to roost with Mrs. W. S. McFarland, of Marshfield. Besides the home children Mr. and Mrs. Ralph Baker and Mr. and Mrs. F. T. Miles, of Portland, Mr. and Mrs. Walter Baker, of near Cottage Grove, and Mr. and Mrs. Claire Baker and son of Mr. and Mrs. present, fifteen sitting down to a fine dinner baked by the Bakers, everything in season according to law.—Albany Democrat.

20 cents is the amount paid for dinners at the Theatre Cafe. tf

UNKNOWN TRAMP FOUND DEAD NEAR RAILROAD

An unknown man, presumably a tramp, was found dead near the river bank alongside the railroad grade at McVey Point, a short distance above Springfield Junction yesterday. Coroner Gordon was notified and the body was brought to Eugene late in the afternoon. An examination of the body and clothing failed to reveal the man's identity and he will be buried in the potter's field this afternoon as an unknown. The man's neck was broken. He evidently fell off the top of a car or was knocked off the grade by being struck by a train. He was aged about 35 years and had all the appearance of a tramp. He had black clothes, a black slouch hat and heavy shoes. He had black hair, a chin beard and was five feet, seven inches tall. Nothing was found in his pockets that would indicate where he came from or who he was. From all appearances he had been dead probably a day.

PRETTY WEDDING TAKES PLACE AT MARCOLA

A very pretty wedding took place at the home of Mr. and Mrs. D. Smith at Marcola, Or., on June 30th, when their youngest daughter, Ada, was united in marriage to Dr. J. Randolph Barr, the ceremony being performed by Rev. Edward Gittings of the Leslie M. E. church, of Salem. The bride was prettily gowned in white silk and lace. The ceremony was witnessed only by immediate relatives and intimate friends.

At the conclusion of the ceremony a reception was held and delightful refreshments were served. The bride was attended by her sisters, Mrs. J. H. Barr, Jr., and Mrs. Willie C. Barr, while the groomsmen were J. H. Barr, Jr., and Willie C. Barr, brothers of the groom. The guests were: Mr. and Mrs. J. H. Barr, Sr., Mr. and Mrs. D. Smith, Mr. and Mrs. A. W. Dugan, Mr. and Mrs. Curtis Hayden, Mr. and Mrs. Walter E. Smith, Mrs. M. S. Ginn, Mrs. D. B. Kennedy, Miss Lola E. Barr, Dr. W. H. Pollard, Mr. Alvin Clearwater, and Misses Vera Edwards, Essie Nicholson, Anna Hills, Lucy Ramsey, Edna McPherson, Alice McCormack, Alta Dodd and Ruby Edwards.

The bridal couple were the recipients of numerous beautiful presents. They will reside in Wendling, where they will be at home to their friends after July 8th.

A LONG FELT WANT

While working in the largest dyeing and cleaning works on the coast and while there seeing lots of garments shipped from Eugene to be dyed-cleaned, or dyed, and after investigating and going over the ground thoroughly we saw at once that there was a good opening for a first-class cleaning and dyeing works in Eugene, so we decided to put in a first-class plant and are doing well from the start. We are the only experts in this line north of San Francisco, and have had over 12 years' experience and guarantee all work. All articles dyed and cleaned by us are treated separately for sanitary purposes and done by hand. In this way we obtain good results and as no machinery is used in our work that will tear or injure the fabric.

Everything possible in cleaning or dyeing. Eugene Dye Works, 659 Willamette street. Phone Red 2861. C. Marx, Jr., manager.

The Smile

that won't come off, appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face? If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S—, Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Linn Drug Co.

COMMISSION MAKES RULES FOR SHIPPERS

To the Editor:
Will you kindly call the attention of your readers—especially shippers of freight in carload lots—to the new rule governing applications for cars which became effective July 1st. A copy is enclosed herewith.

We believe these will be very satisfactory in practical operation, as the shipper will be able to determine for himself whether he is being accorded fair treatment, and the railroads can fill out orders more systematically than at present.

Rules Governing Applications For Cars, Etc.

1. At each station on every railroad in this state where an agent is maintained and where freight is received and delivered, there shall be kept and preserved a register or record of all applications for cars by shippers, and said register or record shall give substantially the following information, to-wit:
- (a.) Name and address of the applicant for cars.
- (b.) Number of cars applied for.
- (c.) When cars will be required.
- (d.) Kind and size.
- (e.) Kind of freight to be shipped.
- (f.) Destination of freight.
- (g.) Date cars are furnished and get for loading.
- (h.) Number furnished.
- (i.) Kind and size.
- (j.) Initials and number of cars furnished.

All applications for cars made at any such station shall be immediately and correctly recorded in such register or record in chronological order of application. Such record shall be kept in a suitably bound book, and be subject to the inspection of any bona fide business hours.

2. A record of car distribution shall be kept at the office of each chief dispatcher of all the railroads doing business in this state, subject to the inspection of any bona fide shipper during business hours. This record shall be made up from daily reports of all station agents on such division, and shall contain the location of cars in the preceding rules. It shall be so kept as to show the shipments of principal commodities. The names of all persons ordering cars on such division shall appear in alphabetical order and must show cars loaded for foreign roads, whether in company cars or foreign cars.

RAILROAD COMMISSION OF OREGON.

Oswald West, Commissioner.

RAILWAYS WILL GIVE

OUT WRECK DETAILS

Instead of shrouding railway accidents in as much mystery as possible as has been the policy of all American railroads, the Harriman lines will hereafter acquaint the public fully with details of all accidents occurring on the allied lines. Orders to this effect have been issued by General Manager O'Brien of the Pacific Northwestern division.

TRIMMING SHADE TREES.

NOTICE TO OWNERS

All property owners must within 15 days from notice hereof cause all shade trees in front of their premises, and on their premises overhanging the street, to be trimmed to a height of not less than fifteen feet, so as to afford to travelers an unobstructed view of street lights, or be subject, for failure to do so after notice, to a fine of not less than \$5 nor more than \$20.

Take warning.

J. P. TURNER.

Street Commissioner.

Dated this 17th day of June, 1907.

The Charming Woman

is not necessarily one of perfect form and features. Many a plain woman who could never serve as an artist's model, possesses those rare qualities that all the world admires: neatness, clear eyes, clean smooth skin and that sprightliness of step and action that accompany good health.
