COMMISSION ORDERS NEW DEPOT AT ALBANY

HEARING OF COMPLAINT OF CITY BEFORE RAILROAD COMMISSION HELD IN THAT CITY YESTERDAY

Fact Brought Out That $12,000 Has Been Set Aside for Eugene Depot and Only $6000 for Albany—Railroad People Say Intention Is to Build During 1907

The much anticipated depot hearing before the railroad commissioners was held at the council chambers in Albany Wednesday, with a crowd in attendance.

Attorney Fenton appeared for the railroad and J. H. McNary, W. R. Bilyeu and Gale S. Hill for the city.

In order to enable the railroad men to leave on the noon train their evidence was taken first. William Bollons, division engineer, M. J. Buckley, general superintendent, and Superintendent Fields testified, making out a splendid case for the city.

The fact was brought out that during the last of 1906 the budget was made out for 1907, and in it was an appropriation of $6000 for a depot at Albany, $5339 for a 60,000 gallon water tank on iron standards, and $5000 for a rearrangement of the depot, which had been approved by the Chicago office. But on account of the negotiations for the C. & E. and the probability of the need of a union depot the matter had been delayed, but it is the intention to carry out the plans, and Mr. Buckley assured the commissioners that it would be done during 1907, and the present talk is to have a union depot this side of the yard, that always being the policy of the company where possible.

Upon being asked Mr. Buckley candidly remarked that "it is a damn poor arrangement," referring to the present location of the depot beyond the tracks.

All the men upheld the Grants Pass sand walks, and denied the unsanitary condition of the depot. When the new depot will be begun will depend upon the instructions of Manager O'Brien, not present, said the witness.

Commissioner West discovered the fact that $12,000 had been set aside for a depot at Eugene and only $6000 for Albany and asked why, but could got no answer.—Democrat.

Order Made by Commission.

At 3:30 this afternoon the hearing of the railroad commission regarding the alleged inadequate depot facilities in Albany was closed and the commission made an order requiring the Southern Pacific Company to erect a new and modern depot in this city with the tracks on the side opposite the passenger platform. This is to replace the one now in use. The construction is to begin by the first of Jaunary, 1908. It is also ordered by the commission that the railroad at once place an arc light in the depot yards and install and keep lighted incandescent electric lights about the depot platform.—Herald.

Portland Market Report.

Portland, Or., July 18.—With the sales at Elgin the 1907 wool crop season in this state practically came to an end. There are still a few small clips in the eastern part of the state, in the hands of the growers, but it will not be long before these are picked up by buyers. In the valley there is very little in first hands. At the Elgin sales about 400,000 pounds were disposed of at prices ranging from 18 to 20 5-8 cents a pound.

It is said that about two-thirds of the Wallowa and Union county clip had previously been disposed of at an average of about 19 cents a pound, so the growers who held their stock for the sealed bid sale were not disappointed with the result. On the whole the season has been a profitable one for Oregon wool producers.

Fruit Prices Are Opened.

After all this worrying about the lateness of the announcement of opening values on canned fruits, the California Fruit Canners' Association today named its initial 1907 values, one day ahead of the time prices were named a year ago. Then they were named July 17. Generally speaking the opening values are materially higher than a year ago, the big corporation making quotations very much like those named by the Central California Canners' Association a week or so ago. Today jobbers named their prices to conform with the newly announced ones of the California association.

Material Advances Shown.

Peaches and apricots are the principal fruits purchased by the local trade from California. Jobbers' prices on peaches today for the new pack range from $2 to $3 a dozen, according to quality, as against $1.65 and $2.50 a year ago. Jobbers quote apricots for the new pack at $2.15 and $3.25 as against $1.75 and $2.40 a year ago. The sharp advance in values is due more to the scarcity of labor and packing materials than anything else. However, in apricots the short crop and the bareness of supplies for several weeks helped to elevate quotations. The strength and shortage in that market can be safely judged by the enormous price packers and dryers are paying for the fruit. In California this season from $60 to $100 a ton was paid for the green fruit. Dried apricots are very high, packers asking about 21c in the south, which would place the price here around 25c a pound.

Local Packers Name Quotations.

Local canneries have named their fruit quotations. Practically speaking, they are about the same as those named by the California Fruit Canners' Association, except that the jobbers here save the freight charges from the south. In most lines of canned fruits the northwest jobbing trade secures practically all its supplies from local institutions. This year the local packers are offering cherries, raspberries, loganberries, strawberries, gooseberries, plums pears and rhubarb. In a small way peaches likewise are offered.

Hop Trade Reflects Crop.

There has been a revival of the trading in hops locally during the past 24 hours. A few small lots have been purchased from dealers, especially Lochmund & Pincus. English buyers are coming out with predictions of heavy crops all over the United States this season, but are nevertheless more anxious buyers of the old crop than they have been. This seems to prove that they are talking to get growers to sell more freely.

Run of Steelhead Salmon Good.

Reports from the lower river state that the run of steelhead salmon has been wonderfully improved during the past few days. Supplies are likewise much greater in the local market. Chinook salmon are still very scarce; in fact, supplies are smaller than a week ago.

There has been a reappearance of Sound silver smelt in the market. Today quoted at 7c pound. This is the first shopment for about two weeks.

Dressed meat market is firmer than ever, especially for fine stuff. As high as 9c a pound obtained for strictly fancy stuff.

Brief Notes of the Trade.

Butter market is very steady. Front street houses report supply and demand about equal.

Weather is too cold for watermelons and sales are not so heavy as a few days ago.

Raspberry season is closing and prices are expected to advance at once. Logans showing better quality.

Cheese market generally advanced ½ cent a pound owing to the better demand from the north and the smaller supplies held locally. Nothing being sold under 15c today.

Portland Livestock Market.

Livestock receipts at the local yards today were: Cattle, 150; sheep, 420. The market generally is steady with no change in prices. Quotations are:

Cattle—Best steers, $3.85@$4; medium, $3.25@$3.50; cows, $3; fair to medium cows, $2.50@$2.75; bulls, $2@$2.50; calves, $4@$5.

Sheep—Good sheared, $4@$4.25; lambs, $5.50@$5.75.

Hogs—Best, $6.65@$6.75; lights, fats and feeders, $6.25@$6.50.

Portland Quotations.

Creamery Butter—25@27½c.
Eggs—23@24c.
Chickens—13@15c per pound.
Wheat—Valley, 84c; bluestem, 88c
Oats—$26@$27 per ton.
Barley—per ton $22@$23.50.
Hay—Timothy, $16@$18; vetch, $7.50@$8; grain hay, $7@$8.
Mohair—Choice, 29c@30c.
Wool—Valley, coarse to medium, 18@20c.
Hops—Prime, 6c@7c.
Potatoes—Old, $1.50@$2 per cwt. New, $1.25@$2 per cwt.
Onions—$2.75@$3.00 per cwt.
Chittim Bark—5c lb.

EUGENE GROCERY ADOPTS McCASKEY SYSTEM

To Our Customers.—

We are adopting the McCaskey One-Writing System for keeping our accounts. While this system is new to us it has been in successful operation for a number of years among the leading merchants of the country, who are unanimous in their endorsement of same. With this system we are enabled to give you an itemized bill with each purchase, which, you will readily see, precludes the possibility of any difference between you and us as to the condition of your account at our store, for we have no record of which you have not an exact copy, inasmuch as all charges will be made in duplicate.

In order to secure your hearty cooperation we will furnish you with a sales slip holder to hold our sales slips.

We beg to assure you that the appearance on each sales slip of your total indebtedness to us has no personal application to you or any other customer, but is merely a part of the successful operation of the system.

We thank you for past favors and hope by careful attention to your wants and a strict adherence to honorable business methods to merit a continuance of your trade.

Very truly yours,
EUGENE GROCERY,
45 East Ninth Street.

AMERICAN FLEET IN PACIFIC WATER ALREADY STRONG

The talk of war with Japan has caused numerous inquiries to be made of the Guard as to the strength of the Pacific fleet of the United States.

There are now in Pacific waters three battleships, six armored cruisers, one coast defense ship, nine protected cruisers, two monitors and six gunboats, as follows:

Nebraska, battleship; ready for service.
Wisconsin, battleship, ready for service.
Oregon, battleship, ready for service.
Monadnock, monitor; in reserve.
Wyoming, monitor; in reserve.
Monterey, coast defense; in reserve.
California, armored cruiser.
West Virginia, armored cruiser.
Colorado, armored cruiser.
Maryland, armored cruiser.
Pennsylvania, armored cruiser.
South Dakota, armored cruiser.
St. Louis, protected cruiser.
Milwaukie, protected cruiser.
Charleston, protected cruiser.
Chattanooga, protected cruiser.
Cincinnati, protected cruiser.
Galveston, protected cruiser.
Raleigh, protected cruiser.
Chicago, protected cruiser.
Boston, protected cruiser.
Yorktown, gunboat.
Concord, gunboat.
Helena, gunboat.
Wilmington, gunboat.
Annapolis, gunboat.
Princeton, gunboat.

The total comparative strength of the United States and Japanese navies is as follows:

	United States.	Japan.
Battleships	21	11
Armored cruisers	8	11
Cruisers	43	19
Destroyers	16	54
Torpedo boats	32	77
Submarines	8	7
Coast defense	11	3

Vessels now building or projected:

	United States.	Japan.
Battleships	8	3
Armored cruisers	4	4
Destroyers	5	0
Torpedo boats	0	0
Submarines	4	2

The only phase of the Japanese navy which surpasses that of the United States is the torpedo boat strength. Japan has 77 torpedo boats and the United States has but 32; Japan has 54 destroyers and the United States but 16. In every other kind and class of vessels the United States far surpasses Japan.

MARRIED

At the Wald house in Eugene, today, July 18, 1907, at 11 a. m., Fred J. Wells, of Manleon, and Miss Rebecca Acheson, of Deadwood, Rev. J. S. McCallum officiating. The couple left on the afternoon train for Portland and other northern points on a honeymoon trip.

The Smile

that won't come off, appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face? If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S—, Blackwell, Okla., writes:

"My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Linn Drug Co.

WOMEN ARE OF AGE AT EIGHTEEN YEARS

In January last the Chronicle published a ruling of the local land office rejecting the timber application of Miss Emma M. Keep, of Portland, for the reason that she was under the age of 21 years. An appeal was taken in her behalf to the commissioner of the general land office, in which it was contended that as she was 19 years of age she was qualified to make timber entry, and that the provisions of the state law govern in which women are declared of legal age at 18 years.

By decision of the commissioner of the general land office, received in The Dalles this week, the decision of the register and receiver was reversed, and it was decided that in the state of Oregon women may make applications at any time after reaching the age of 18 years.—The Dalles Chronicle.
