and that a decision will probably be rendered in a week or ten days. The cases were advanced on the docket.

"The Girl from Montana" is certainly great, a drama that holds the audience spellbound from start to finish. "Foxy Grandpa" and "Red Riding Hood," interesting and amusing. The illustrated songs, "Fare the Well Molly Darling" and "Just Two Broken Hearts" are well rendered by Master Lloyd Stiles. The Little Gem certainly has a great program for tonight and balance of the week.

The W. H. See and Runyon automobile party which passed through here Sunday with their two big ton-cars, arrived at Belknap Springs on Monday and camped a mile above the springs. They were the first automobiles that had ever gone up the McKenzie road. At the Log House Inn they arrived at 1 o'clock at night, and made the people believe that the railroad had come up the river since dark by their whistles and tooting. The road was rather rough but they had no accidents.

PROTECT AGAINST AUTOS ON MOUNTAIN ROADS

Editor Guard:—To one familiar with the narrow mountain road up the McKenzie with its stretches of brush on both sides of the road for considerable distances, bluffs and grades, where there is barely room for teams to pass, the taking of two automobiles to Foley Springs seems little less than criminal. At least shows little concern of their drivers and occupants for the safety of their fellows. They must meet and pass horses that fear the ill-smelling machines, and that without a bit of leeway for the teams to get away from—must all but touch hubs.

The big machines cause occasional trouble even on our valley lanes where there is plenty of room for passing, and knowing this it seems strange that anyone with a thought about him should take an automobile on a narrow mountain road.

THE PIANO RECITAL AT EILERS LAST NIGHT

A midsummer piano recital formed an enjoyable event to the large audience that assembled at Eilers Piano House last evening, the occasion being a recital by the younger pupils of Miss Livia Bond. For most of the pupils it was their first appearance in public, and all did exceedingly well. Miss Bond deserves much credit for the excellent program rendered, the good work of her pupils being evidence of her ability as an instructor.

CHILDREN IN PAIN

Never cry as do children suffering from hunger. Such is the cause of all babies who cry and are treated for sickness when they really are suffering from hunger. This is caused by their food not being assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial.
