Ladies' Mohair Skirts less 20%

ELECTION IS POSTPONED TILL OCTOBER 1

LABOR DAY MIGHT NOT BE LEGAL, SO COUNCIL DECIDES TO SET ANOTHER DAY FOR ELECTION FOR AMENDMENT TO CHARTER—FIRE LIMITS UP AGAIN—EIGHTH STREET TO BE PAVED

The city council met last night and passed upon a number of important matters. First, the postponement of the day of election on the amendment of the city charter from September 2, Labor Day, to October 14; second, the granting of the petition to pave Eighth street, and third, the passing of an ordinance repealing the one extending the fire limits to the depot grounds by making the north boundary the alley between Fifth and Sixth streets.

The first committee to report anything of interest was the judiciary, which read a letter from the Southern Pacific Company, stating that they would pay their part of Williamette street, but asked that they be allowed to wait until they had determined upon a location for their new depot. The council decided to allow the company to wait.

Cherry Gets His Light. Under the fire and water committee the matter of putting up a light at the intersection of Sixth and Williamette streets, for which Cherry Brothers have worked so hard, was ordered put in. The government building will be on the same corner, as will also be Cherry's new brick.

Councilman Garrett then moved that the street committee look after the heavy circus wagons when they come to town and see that they do no damage to the paved streets. It was passed that the committee select the streets for the circus traffic, some of the councilmen wanting the paved streets tested by the heavy circus wagons.

Next an ordinance was passed for constructing an eight-inch sewer from Alder street on Fifteenth to Pearl, and on Mill from Fourteenth to Fifteenth.

City Attorney Allen recommended that the election for the amendment of the city charter be held sixty days from the date of meeting, because September 2 is Labor Day, a legal holiday. An ordinance repealing the old one was read and passed, and a second one making the date for the election October 14, 1907, was immediately passed, being the same as the former one in every way but the date. The mayor signed the ordinance before the council adjourned. After this matter had been settled, petitions for paving Eighth street were taken up and considered, and under the emergency clause were passed. The kind of pavement was left with the council on the condition that the best and cheapest of any kind payment, all things considered, should be selected. The intersections of the streets will be paid for by the city, while the intersections of the streets with the alleys will be charged to the property owners by the quarter block.

Amendments were also made to the ordinances for the pavement of Seventh and Ninth streets to charge the intersections made by the alleys to the property owners also.

Fire Limits Again. While the ordinances were being considered Councilman McCready moved that an ordinance be drawn by the city attorney to change the north boundary of the fire limits from the Southern Pacific depot to the alley between Fifth and Sixth streets. Much to the surprise of the two or three spectators the motion passed, the councilmen lining up as follows: Ayes—Henderson, Fisher, Gilbert and McCready. Nays—Calkins, Garrett and Harbaugh. Berger was absent. Fisher, who last time supported the extension of the limits to the depot, changed front last night and voted with those favoring to reopen the matter.

From the appearance of things the extension of the fire limits to the depot has some opponents among the property owners near the depot. It looks, since Berger voted for the full extension of the limits at the previous meeting of the council, as though a tie vote will be the result when the new ordinance comes before the council for second reading, and that the matter will make some sessions very interesting.

DIED.

On Sunday afternoon, on the McKenzie road, of Bright's disease, Wilbur Workman, aged 45 years and 25 days. Deceased had been a sufferer for about four years. He came to Eugene from Myrtle Creek with his wife three weeks ago for the purpose of going to Belknap Springs.

Just a word to those who wish to invest in Land

In the first place, we ask the question why people buy cheap land when, from every point of view, good land is much more profitable? For instance, poor land which cannot be worked at a profit. You can't pay for it in a hundred years. But on the other hand, if you buy good land that you can work at a profit, it will eventually pay for itself, whatever the price may be; and again, good land is much easier worked.

If you want to raise stock, good land is the cheapest. If you want to raise grain, good land is the cheapest. If you want to raise fruit or vegetables, good land is the cheapest. Why? Because it takes no more to plow it; because it takes no more to harvest it. So it is clear to see that if it pays to work poor land, it surely pays to work good land.

So when you buy, buy good land, and then if you should want to sell it, you have no trouble in disposing of it.

So if you want good land at the right price, come and see us.

We have made arrangements to sub-divide some of the best large tracts in the country, to suit those who may wish to purchase their land. It is of the best grade, suitable to grow anything that grows in the West. Our prices are right, our land is A1 and location good.

FOR SALE
An A1 all perfect farm; well improved; a bargain at \$20 per acre.

FOR SALE

TWO YEAR FILLY BREAKS OWN NECK

J. J. BRYAN LOSES FINE HORSE—MATCH FACTORY SOON TO BE STARTED AT SPRINGFIELD—WILL EMPLOY ABOUT THIRTY HANDS.

Sometime during the absence at Newport of J. J. Bryan, of Springfield, his registered two-year-old filly, Memo-Altamont, which he put in

a pasture near Springfield, broke her neck, probably while playing. No one saw the accident, so far as is known. The horse was a splendid animal, being worth at least \$500.

Mr. Bryan also states that arrangements have been completed by which a match factory, to employ thirty hands, will be started soon in Springfield. The making of matches has always proved a lucrative undertaking, and in most places where factories have been started success has followed the efforts of the owners. It also means much to the town, for thirty men mean almost as many families.
