

Still Slaughtering

We are determined to get rid of summer goods of all description. In fact, we are compelled to make a clean sweep in order to make room for large orders of goods that are now on the way. We are making reductions of $\frac{1}{4}$ to $\frac{1}{2}$ on a great many lines. We are handlers of good goods only, and when we advertise a reduction it means that you are positively in the way of securing a bargain.

BUY NOW AND SAVE

When we say a thing is so---it's so.

The Place To Trade **Nicklin & Neal**

CHITTIM LESS PLENTIFUL THAN FORMERLY

In Some Places Good Supply Yet—Grows Rapidly Where There Is Much of It—A Good Medicine Even When in Crude State.

In some parts of Lane county the chittim bark craze of a few years ago has about stripped the country of the available supply, but in the vicinity of Deadwood, in the northern part of the county, a good deal is

said to be left. The fact of the present scarcity of the bark is not vital, however, for the reason that it does not take chittim long to grow again.

Along the banks of sloughs or around fences the brush will spring up before the rancher realizes his good fortune, that is, if it has been planted from the seed. Frequently if a tree is cut down the next spring will see a clump of chittim spring up around the stump. This kind is not so valuable, however, as is the tall kind that grows in shaded forests.

At certain times, when the sap is running fast, all the bark may be stripped off of the trunk of a chittim tree and the tree will not be killed, a second bark coming out at

once. This is in June as a rule. Dogwood has the same quality.

It is used to be that men who made their living gathering chittim bark filled up their bags with dog wood and alder as well. The local buyers could get rid of it as chittim and did not care. Often it is said the small limbs of the chittim trees were broken up into small blocks and sold for the bark.

Chittim is a wonderful medicine, as is vouchered for by the experience of a Lane county rancher. Being ill, he came to a doctor in town, who proscribed some mixture, as usual, in Latin. He took it to a drug store, and in the course of half an hour it was made up and the rancher went home, the doctor having charged him \$1.50, and the druggist \$1. The medicine helped him, but he told his wife he thought it was nothing but chittim bark. So when his bottle was empty he put a bunch of chittim bark, a little mullein and Oregon Grape root in a pot and boiled it down until there was about a quart. Then he strained it, leaving about a pint of liquid, strong and black. Then he put in a pint of sugar, boiled it again for a short time, and bottled it hot. The medicine did just twice as much good as the doctor's prescription, being, he thinks, twice as strong.

DON'T BE BLUE

and lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, of Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine for these troubles on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Linn Drug Company.

NOTICE TO HOP PICKERS

Hop picking will commence at Miller Bros' yard, five miles northwest of Eugene on the river road, August 26. Pickers are wanted. a26 MILLER BROS.

SEAVEY'S POINT CLAIMS HONORS FOR RATTLES

Seavey's Point, on the McKenzie, two miles above the Coburg wagon bridge, vies with the Spencer Butte country as the best Lane county stand of poisonous rattlesnakes and similar reptiles. Some men working there say that they have to drive them out of their beds, and while no one has been bitten, a good supply of rattlesnake remedy is kept in that vicinity.

Seavey's Point, near which there is a ferry, has long been famous as the home of reptiles, the people living near there claiming it is the greatest rattlesnake producing community in the Willamette valley. It is also said that the Gila monsters are there, the lizard-like creature whose very breath is said to be poisonous. These horrible creatures are very rare, and whether ever seen except after a man has absorbed a certain amount of Peruna is not known. Their home is in Southern California and the arid district of the Southwest.

While rattlesnakes are found in the Willamette valley there are not many places where they are thick. This year seems to be an especially good one for them, as they are quite plentiful in several places.

Most people dislike to go to the mountains just because of these reptiles, preferring to go to the coast, where they are not found. Strange though it may seem, rattlesnakes are rarely or never found across the summit of the Coast Range, the reason being that the climate is too damp.

BOHEMIA MINERS' ASSOCIATION MEETS

GOOD ATTENDANCE AT MEETING OF ASSOCIATION FRIDAY—WAGON ROAD INTO DISTRICT FROM DOUGLAS COUNTY SIDE—HARD ELECTED PRESIDENT

There was a good attendance at the regular meeting of the Bohemia Mine Owners' Association held Friday evening at the postoffice. A communication from the commissioners of Douglas county at Roseburg stating that surveyors would start on the 12th to look out a wagon road into the Bohemia district from the Steamboat side, commencing at Rock creek, was read. The association appointed S. Long to act as guide to the party at the expense of the association.

F. J. Hard, Reub. Thom, W. H. Shane and A. P. Churchill were selected as delegates to attend the American Mining Congress to meet at Joplin in September.

Geo. O. Knowles resigned, because he will soon leave the district, and on motion F. J. Hard received the unanimous vote and was declared president of the association until the next regular election.

News of the Camp.

F. J. Hard drove to the mines in Bohemia last week, returning Saturday evening, although the weather was stormy. Mr. Hard reports a pleasant trip, the roads being in good condition, and things seem to be going on satisfactory at the properties he is looking after. The big tunnel at the Vesuvius, being driven by Messrs. Thom and Lindquist, is showing good ore, with values increasing as the tunnel penetrates further into the mountain. On Friday, in company with Dr. Smith, of the West Coast Mines Company, Mr. Hard visited the Riverdale and Oregon-Colorado properties, where large amounts of copper ore is in sight and ready for treatment.

One thousand feet of heavy rails arrived at the S. P. depot Monday and were forwarded to the Vesuvius mine at Bohemia, the order being filled by a Carriage Grove truck.

The new lodging house at the Vesuvius is about completed, the basement made by excavation being nearly solid rock, makes a storage room for many mine supplies. The first floor will be used for the office and the second floor is partitioned so as to accommodate eighteen or more men at the mines.—Sugget.

CHILDREN IN PAIN

Never cry as do children suffering from hunger. Such is the cause of all babies who cry and are treated for sickness when they really are suffering from hunger. This is caused by their food not being assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Linn Drug Company.

Fishing tackle for your summer outing at Barker Gun Store, 573 Willamette street.

Eugene Bakery for hot coffee and lunch at all hours. Opposite theatre.

DON'T GRUMBLE

when your joints ache and you suffer from rheumatism. Buy a bottle of Ballard's Snow Liniment and get instant relief. A positive cure for rheumatism, burns, cuts, contracted muscles, sore chest, etc. I. T. Boggs, a prominent merchant at Willow Point, Texas, says that he finds Ballard's Snow Liniment the best all round liniment he ever used. Linn Drug Company.

We have a few good second-hand buggies to trade for wood. Griffin Hardware Co. d4wa23

Just a word to those who wish to invest in Land

IN the first place, we ask the question why people buy cheap land when, from every point of view, good land is much more profitable? For instance, poor land which cannot be worked at a profit. You can't pay for it in a hundred years. But on the other hand, if you buy good land that you can work at a profit, it will eventually pay for itself, whatever the price may be; and again, good land is much easier worked.

If you want to raise stock, good land is the cheapest. If you want to raise grain, good land is the cheapest. If you want to raise fruit or vegetables, good land is the cheapest. Why? Because it takes no more to plow it; because it takes no more to harvest it. So it is clear to see that if it pays to work poor land, it surely pays to work good land.

So when you buy, buy good land, and then if you should want to sell it, you have no trouble in disposing of it.

So if you want good land at the right price, come and see us.

We have made arrangements to sub-divide some of the best large tracts in the country, to suit those who may wish to purchase their land. It is of the best grade, suitable to grow anything that grows in the West. Our prices are right, our land is A1 and location good.
