PAVING COMPANY TO BRING ANOTHER ROCK CRUSHER

The work of paving Willamette street, except between the car rails from Tenth street to Eleventh street, was completed today and the

force of men will be put to work next week on East Eighth street, under the new contract. Superintendent Chipman today stated that he may bring another rock crusher to Eugene and place it at the quarry for the reason that the ground on which the one now in operation is located is low and during the rainy season this winter it will be impossible to operate it there. Both crushers will be kept working during the entire winter and when the time for active paving operations in the spring comes, there will be enough crushed rock on hand to keep the crew going without wait-

ing for the rock, as has been the case a part of the time this summer.

TEMPERANCE WOMEN REPORT FINE CONVENTION

W. C. T. U. HAS MADE MORE PROGRESS IN LANE COUNTY DURING PAST YEAR THAN ANY YEAR DURING SEVENTEEN YEARS COUNTY UNION HAS BEEN ORGANIZED—OFFICERS ELECTED.

The annual convention of the Lane County Woman's Christian Temperance Union held in the Baptist church yesterday, was one of unusual importance. The sessions, devoted almost entirely to business, were intensely interesting from start to finish. Mrs. Wheeler, the county president, said in her annual address, that during the seventeen years Lane county has been organized no one year has perhaps shown so much progress in all lines of work as the one just closing. New departments are being worked. The L. T. L. work is coming to the front. We now have eight active unions, three L. T. L. two "Y. S." and one union not holding regular meetings. Our finances are in the best of condition over known modal contest work is also being pushed, more copies of our state and national papers are being taken, and more interest manifested in temperance literature. Prohibition is prohibiting more and more throughout the county. In conclusion she said:

"We must work to get each city council to pass an ordinance prohibiting the shipment of intoxicating liquors into prohibition territory. Salem, California, has done this and the Southern Pacific agents from Portland to San Francisco have been instructed not to accept shipment of liquor to Salem."

The Irving union, on account of the faithful work done under adverse conditions, was declared unanimously to be the banner union.

Resolutions Adopted.

The following resolutions were adopted: The Woman's Christian Temperance Union of Lane county convened in the Baptist church in Eugene.

Resolved, That thanks be tendered the Eugene unions for their articles and also for the use of the Baptist church and the words of encouragement by the pastor, O. C. Wright.

Resolved, That the unions of Lane county desire to express appreciation for the faithful and untiring fidelity which the county officials show in their effort to enforce the local option law, realizing they are fighting the subtle and unprincipled class.

We rejoice with them over every victory gained.

Resolved, That we tender our thanks to the county press for their liberality and courtesy in giving us space in their valuable papers.

Resolved, That it is the sense of this convention that the blank reports be sent us earlier, giving us more time to prepare reports.

DON'T USE FIRE TEAM ON STREET SWEEPER

Editor Guard:—It is to be hoped that the city council will reconsider its resolution to employ the fire team on the street sweeper when it arrives. The efficiency of the fire apparatus depends almost entirely upon the promptness with which it reaches the fire. Put the team on the street and property that could be saved under present conditions would prove a practical loss when subjected to the unavoidable delay that would ensue in getting the team to the fire apparatus.

Insurance has soared to an almost prohibitive figure. Do not increase our fire risk further by taking the fire team for another purpose.

CARVER PAPERS BURNED AND PROJECT IS DROPPED

Stephen Carver's proposition to build a railroad from Eugene to the Siuslaw timber has finally been turned down by the committee which had charge of the work of raising the \$50,000 in subscriptions to stock in the company to build the road. Such action was taken last evening at the meeting at the courthouse.

D. E. Yoran presided at the meeting and speeches were made by P. E. Snodgrass, M. Svarverud, J. O. Watts, J. M. Shelley and others. It was shown that the citizens had lived up to their agreement to raise \$50,000 within the time specified by Mr. Carver, but that he shipped the rails that were promised for Eugene to Coville and began the construction of a road there after the citizens of that place had subscribed \$20,000 to the project. Since he has shown no disposition to begin building operations here and has said nothing to any one in Eugene as to his future intentions, it was decided that the matter be dropped as far as the stock subscriptions are concerned, and it was voted that the subscription papers should be burned.

After the meeting Mr. Yoran took the papers out in front of the courthouse and touched a match to them. They were entirely destroyed in a minute or two.

The meeting before adjournment pledged support to the proposed Eugene-Salem electric line.

MRS. POTTER PALMER ARRIVES IN EUGENE

Mrs. Potter Palmer, famous on two continents as a society leader, arrived in Eugene this afternoon and will visit for a time at the home of her son, Honor Palmer, on East Ninth street. Mrs. Palmer was accompanied here from Portland by her son and his wife, who had been in that city several days awaiting her arrival. Mrs. Palmer senior has just returned from London, landing in New York on the steamer Lusitania last Saturday. She stopped a day at

her home in Chicago and coming on west made a new record for actual traveling time between London and the Pacific coast, having traversed the distance in less than two weeks.

When Mrs. Palmer stepped from the train here this afternoon she looked as fresh and radiant as though she had just led the grand march at one of her famous charity balls, instead of having just travelled over 7000 miles. She and Mr. and Mrs. Honor Palmer were driven to the Palmer home in carriages.

METHODIST CHURCH CLOSSES SUCCESSFUL YEAR'S WORK

FOURTH QUARTERLY MEETING HELD LAST NIGHT AND REPORTS FROM VARIOUS DEPARTMENTS INDICATED PROSPEROUS CONDITION—MEMBERSHIP OF 1000.

Last night the fourth quarterly conference of the Methodist church was held, Dr. M. C. Wires, the presiding elder, in the chair. Reports from the various departments of the church establish this as the banner year in its history.

The finances of the church are in good condition. The stewards expect to receive enough subscriptions to meet every obligation before the close of Sunday's services. The budget of the church, including all items, such as janitor, light, fuel, music, doctors, presiding elder, pastor's salary, etc., will require an expenditure of \$2500 this year. In addition to this the ladies of the church have expended \$450 on the interior of the church, greatly beautifying the edifice. The Sunday school has also raised and expended \$300 in its own work. The benevolences of the church (outside interests) such as foreign and home missions, education, church extension, etc., will aggregate \$3200. This is surely a church which exercises an influence outside its own constituency, expending as it does nearly as much abroad as for its local use.

The church has had a signal growth in membership during the year. Scarcely a Sunday has passed without numerous additions, 284 persons having united with its communion since October 20, 1904. The net gain, allowing for dismissals by letter and loss by death, will be some 200. This church probably leads Oregon Methodism in numbers today. Its membership records show an enrollment of upward of 1000.

The quarterly conference, by unanimous vote, decided because of the growing members and needs of the church, to advance the budget for local church expenses for the conference year, beginning September 29, 1907, to \$5000.

Plans for aggressive work in every department of the church are already laid for the coming year.

DIED

James T. Kirk, one of the best known pioneers of Lane county, died at the residence of his son, J. F. Kirk, near Junction City, September 20, 1907, aged 86 years, 11 months and 29 days. The funeral will be held at Smithfield Sunday at 11 a. m. by Rev. P. D. Gardiner, with interment in the L. O. O. F. cemetery there.

At 742 Pearl street, Eugene, today, at 1:40 p. m., Wanda McCubbin, the daughter of Mrs. Ivy Ishmael, aged 5 years. The funeral will be held tomorrow with interment in the Mt. Vernon cemetery.

DR. HAMMOND FAVORS THE WEBER PIANO

The finest make in the world—the Weber—handled only by the Ellers Piano House, has found its way into another Eugene home, the Episcopal parish, occupied by the new rector, Rev. P. K. Hammond and his esteemed family. This has been a record breaking season in Eugene in the sale of very high grade pianos, such as the Weber, Chickering, Hobbart M. Cable and other makes of high rank.

There are still other select homes in this city that are sadly in need of a piano of one of the above makes. This is a good time of the year to think seriously regarding this matter, and a call at the Ellers store, 24 West Seventh street, may aid you in making a selection.

PERSONAL

Mr. and Mrs. Y. A. Gray, of McMinnville, are in Eugene visiting the latter's mother, Mrs. M. A. Withrow.

Miss Edna Fountain, of Walterville was a visitor in Eugene today and purchased a fine Klamball organ of the Ellers Piano House.

A fine piano from the Ellers Piano House was delivered at No. 326 Chesher street today for Mrs. Emma Rinaud, the purchaser.

GREAT PROFITS OF STANDARD OIL MAGNATE

New York, Sept. 21.—An adjournment until Monday in the hearing of the government's suit to dissolve the Standard Oil Company, which will give the government's expert accountants another day in which to obtain figures from the Standard's books for the period from 1882 to 1892.

It is understood that William G. Rockefeller will be called to the stand next week that he may produce the books relating to the assistant treasurer's office.

The Standard Oil Company of New York makes huge profits, not because it has any real business of its own, but because it acts as agent for the New Jersey corporation. In 1903 it paid dividends of \$10,498,650. This, according to popular belief, went into the coffers of the parent corporation to be paid out gain in dividends or held as surplus. It developed, however, that about \$3,000,000 of it went to Mr. Rockefeller individually, and as much more to the other individuals connected with the parent concern.

In 1905, the latest year for which figures are available, 17 of the 70 old subsidiary corporations of the Standard paid dividends of \$41,269,603. Should it develop that Mr. Rockefeller is an individual owns as large a proportion of their stock as he does in the New York company, his share of the dividends would be nearly \$12,000,000, and his income from oil, instead of being \$10,000,000 a year, would be not far from \$22,000,000 annually.

IMPORTANT VISITATION AT CONGREGATIONAL CHURCH

The national authorities of the Congregational church have sent a special commissioner to make a tour of inspection and observation in the Western states of the country, and have chosen for this work Rev. T. O. Douglass, D. D., of Iowa. Dr. Douglass is one of the well-known and highly respected leaders of the churches and has had perhaps more extended and successful experience than any other man now in service in his line of work. He is able to speak as an expert on matters relating to the religious conservation of society and the national welfare. Eugene is one of four places which he visits in Oregon, and the only place in which he will spend a sabbath and it is to be hoped that all friends of the Congregational church will use the privilege that is theirs by hearing him on tomorrow morning at the usual hour of morning service, 11 a. m.

The other service of the day will be held as usual, Sunday school at 10 a. m. and evening services at 6:30 and 7:30 p. m.
