WATCH FOR THE ANNOUNCEMENT of the chaperon contest that will be published next Monday. Don't fail to nominate your favorite chaperon candidate to escort the winners to Los Angeles and return.

Over 7800 votes were polled during the past twenty-four hours for Miss Grace Woods, of district number one, which places her list first on the score list of votes, displacing Miss Lillian Brund, of Florence, and Miss Alta Eastham, of district number one.

Miss Woods, who until a short time ago was comparatively out of the race, has taken the work up again with renewed energy, and will from now on do her utmost to see that her name is listed with the winning candidate when the final count of votes is made.

The example Miss Woods has set should convince every candidate in the race that a contest of this kind is never won until it is over, and should also convince candidates who are a few thousand votes behind the leaders that their chances to win are as good as that of their competitors, if they will make up their minds to get get down to good, active work. A few yearly subscriptions secured while the 5000 special vote offer is on will close the gap that now separates you from the leaders of today.

DO IT NOW—Make up your mind today to get enough orders before this week is over to win one of the special coupons, and after you have several thousand more votes added to your total you will take new interest and won't be content unless your name is in the lead from now on.

REMEMBER—For every five new six-months' subscriptions secured and turned in to this office before Saturday, January 5th, at 5 p. m., you will receive a special vote coupon for 5000 votes. If you receive ten of these subscriptions you will receive an additional 5000 vote coupon and so on. New one-year subscriptions count as two for six months and old subscriptions renewed for one year will count as one new subscription for six months. An accurate record will be kept at this office of all subscriptions brought in by you, and the ones that are turned by your friends in your favor, and if on next Saturday, January 4, you have subscriptions enough to your credit you will receive a special coupon for 5000 votes.

Heretofore for five new six-months subscriptions you received 4000 votes according to the scale published, but while this special vote offer is on, for the same amount of orders you will be entitled to 11,000 votes, including the special 5000 vote coupon. As stated above, five new subscriptions for one year would count the same as ten orders for six months, which would entitle you to 15,000 votes and two special coupons of 5000 votes each, which would amount to 25,000 votes in all. If during the week you secure and turn in to this office five one-year subscriptions (Daily) renewed by old subscribers, you will receive 12,500 votes, including special coupon.

It is a safe prediction that the girls who do their best before Saturday will be the recipients of the piano or the Los Angeles trips or the six months' full course scholarships.

ORGANS FROM ANIMALS TO BODIES OF HUMANS

Chicago, Jan. 1.—Medical science soon is to accomplish the transfer of sound vital organs and tissues from the lower animals to man. The substitution of healthy organs for the diseased parts of the human body will be made possible through the new experimental surgery and vivisection and will revolutionize modern science. The successful transplanting of arteries from one animal to another is the first step toward this end.

These are the conclusions drawn by Professor Simon Flexner, of the Rockefeller Institute for Medical Research, i na paper on "Tendencies in Pathology," written by him for presentation to the American Association for the Advancement of Science, and read yesterday before the physiological section of the society at the University of Chicago, by Professor Ludvig Hektoen, of the university. Professor Flexner's paper also contained accounts of a series of experiments on rats and mice performed by himself and his associates, leading to important discoveries regarding the biological conditions of tumor growth. Pathological problems have been enormously affected by recent experiments in vivisection, according to the New York scientist.

LUMBER INDUSTRY AWAITS DECISION

FUTURE OF THE BUSINESS IS UP TO INTERSTATE COMMERCE COMMISSION

"More depends on the decision of the decision of the interstate commerce commission than on the financial condition of the country, in regard to the future of the logging industry of the Northwest," said E. E. McClaren, a well-known logger, this morning. "The commission will, on March 4, decide the question of the freight rates on lumber East, and if this decision should be favorable to the sawmill men of the Northwest, work in the logging camps will be resumed immediately. If it is averse then I cannot say when the logging camps will begin to operate again to any extent.

"At present only a few men are employed in the camps of Oregon and Washington, and these are kept with a view to increase the force should the interstate commerce commission come to the rescue of the logging industry. There are thousands of men idle in every logging camp and lumber mill region, and these are watching for the decision at Washington city as eagerly as are the owners of the timber lands and mills. It is true that thousands of men thrown out of work by the raise in freight rates East have gone south, but there are also thousands who have families depending on them, and these men cannot pick up their belongings and flit away like the single men can. A decision favorable to the timber interests of the state cannot reach the ears of these men too soon, as the funds they had accumulated are being frittered away."—Portland Telegram.
