LONG TOUR OF VIOLINIST JAN KUBELIK

With his first appearance this season, at the huge hippodrome, New York City, on November 10th, Jan Kubelik initiated one of the longest tours of successive concerts ever begun by a musical artist. The season will be known as the American tour but will cover besides the entire United States, Canada, British Columbia, Mexico and Cuba. For the privilege of hearing this great artist, the country is indebted to Mr. Daniel Frohman, under whose sponsorship the now world-famous violinist made his American debut. In the seven years which have elapsed since his first visit to this country, Kubelik, according to the verdict of the world, has arisen from the position of the most astonishing prodigy in the history of the violin to absolute supremacy with his chosen instrument. At twenty-seven, an age when most men are beginners in their life work, he stands a master. For his programs, the coming season, he has, from his wonderful repertoire drawn alike upon Bach, Beethoven, Handel, Mozart and Paganini, Wieniawski, Kreisler, Vieuxtemps, Schumann, Chopin, Dvorak, and Tschaiowsky, wherein can be found compositions which will appear in like degree to the casual lover of music and to the deepest student. The Kubelik concert for this city is scheduled for the Eugene theatre, Friday, Jan. 10th. Seats now selling.

STETSON'S GREAT "UNCLE TOM" COMPANY

Manager Smith has made arrangements to present the original Stetson production of "Uncle Tom's Cabin" at the Eugene theatre tonight. The wonderful popularity of Harriet Beecher Stowe's masterpiece all over the United States for the past forty years has led to its production by all kinds of managers with all kinds of actors, good, bad and indifferent. There is magic in the name of Uncle Tom and its capacity to draw the public to see it is phenomenal. This, as pretty much all theatregoers are aware, has been fully taken advantage of by a horde of irresponsible and a production by them, at once "Wild and Woolly" has been too often the result. When produced with a proper dramatic cast, coupled with proper scenic and mechanical equipment, no such story of American life, prior to the great trials in our national affairs, has ever been penned. For twenty years the Stetson production has ever been the leading one, steadily advancing each season with wonderful pride of progress. The rolling stock feature, the scenic investment, the changes have been steadily added to, while the musical and dramatic roles have been placed in the hands of artists of reputation. No such success by Stetson is carried by every scenic department. A corps of colored singers, cake-walkers, dancers and field hands from the plantation scenes. A train of railroad cars, especially constructed, is required in the transportation of this mammoth company, while the street demonstration is said to excel anything yet seen in the theatrical world.

CATARH A GERM DISEASE

Success of Hyomel Guaranteed by Hull's Drug Store.

Catarh is not a blood disease, but is caused by germs that lodge and grow in the air passages, causing irritation with poisonous and offensive mucous discharges. It is an insidious disease of the most destructive tendencies. Its approaches are unobtrusive and its victims are well on the road to a chronic state or to a fatal consumption before they are realized.

Stomach during is ineffective in the treatment of catarh. The only healing agent is Hyomel, which is inhaled with the air you breathe, killing all catarrhal germs and driving them from the system.

The sooner you use Hyomel the sooner you will be free of catarh. Hull's drug store will sell you a dollar outfit with the understanding that if it does not give satisfaction your money will be refunded.

WHAT CHEMICAL WORKS HAS DONE

Editor Guard:—We received from January 1st, to December 31, 1907, 144 dead animals; paid for tanning and cash to owner the sum of \$87.60.

Before we were here parties so unfortunate as to lose one of those animals were obliged to pay from \$1 to \$2 for the removal of same, and some times even more, also from \$2 to \$3 for burial, so we saved those unfortunate people the sum of \$360, besides advancing in cash for same \$87.60, a total of \$447.60.

We cleaned all the slaughter houses in the surrounding county, which, before we came here, were in a terrible shape, and helped greatly to pollute water and air in Lane county, besides being a great annoyance to the board of health.

Out of the refuse we manufactured 31,540 pounds of chicken feed, a better, cleaner and certainly right fresh from the factory, and sold the same in Lane, Linn and Douglas counties at 20 to 50 per cent lower than the imported stuff was sold for.

Paid out for labor, machinery, more buildings, necessary living, etc., in fact, every dollar kept and spent at home, which before we came here of the money forwarded for said goods never a dollar found its way back to Eugene.

We also manufactured 202 gallons neatfoot and animal oil, 17,000 pounds of skid grease for logging purposes, and tallow (forwarded to our connection 137,000 pounds of bone in the rough, also horns, gluestock, etc. All these goods were manufactured

into useful articles, which called for lots of labor, and for all such labor we always have and always will pay spot cash after performed.

We also manufactured 23,800 pounds of fertilizer for lawn and agricultural purposes, but were obliged to send some out of the state. It would have done more good at home. Thanking our friends individually and the public at large for past favors and good will in the future, we remain, Truly yours,
