WISDOM FROM AMERICA

In spite of its youth the new world teaching the old how to deal with problems so ancient as the treatment of crime, the prevention of juvenile delinquency and the separation of the young from hardened and habitual offenders.

There'll be no more hard hearts when the surgeons begin to remove bad hearts and put in new and good ones, and medical scientists say it will be soon.

Of all the undesirable citizens with which a community can be cursed the calamity prophet is about the worst. Give him the hook wherever you can.

No better way of getting a prosperous year has yet been discovered than by pitching in and showing by hard work that you deserve it.

Next thing the "staff" officers of the navy will be springing a presidential boom for some doctor of the country.

There is the chance of your life. I can sell you timber in tracts from 4,000,000 feet to 400,000,000 feet as low as 25 cents per thousand feet.

A HIGHER HEALTH LEVEL. "I have reached a higher health level since I began using Dr. King's New Life Pills," writes Jacob Springer, of West Franklin, Maine.

A CURE FOR MISERY. "I have found a cure for the misery malaria produces," says R. M. James, of Louellen, S. C.

tute one of his humorous monologues for the ordinary nominating speech—he's a Fairbanks candidate for delegate to the national convention, and maybe the voters will not take his candidacy for a new joke.

His recent entertainment of kings and queens is said to have cost King Edward \$250,000. Without being personal it may be mentioned that there are also men hereabouts who have found a ruin house or kings and queens very costly.

The Pennsylvania dairy and food commission claims to have found bugs and worms in the breakfast foods upon the market, but so far we understand it does not claim that any extra charge was made for the bugs and worms.

Sort of high-up movement, this organization of Fairbanks clubs by men more than six feet tall, started in Joe Cannon's neck of the woods, though it may result in driving all the five-footers and under into the Cannon camp.

So far the high-toned editors are a unit in barring the man with a barrel from the second place on the presidential ticket. The practical campaign managers, however, have not yet endorsed the idea.

That turning over a new leaf is not of itself necessarily a good thing was proven by the Seaboard Airline Railway, which began 1908 by asking to have receivers put in charge of it.

The Mosquito Indians, of Nicaragua, have again taken the buttons off the points of their stingers and revolted against the government. Bad mosquitos, eh?

MANY PROMINENT TEACHERS OF THE COUNTY SPENT HOLIDAYS THERE—OTHER ITEMS OF INTEREST
