There was an accident to the boiler at the woolen mill this morning and as a result the mill was closed down till Monday. The accident was not serious, but it necessitates replacing it with a new one. There is a smaller one in use at the mill but its capacity is not great enough, and Superintendent Koppe went to Salem on the noon train to arrange to secure a new boiler to be installed at once.

In the finals of the billiard tournament in class A between King, Wallis and Peterson last night, held at Sid Smith's parlors, Peterson won out in 21 innings. He scored 100 to King's and Wallis' 86. Peterson made the high run of the evening, 18. Peterson will now play Bonney, winner in class B, two games out of three, 100 to 75 points, for the prize coin. The first game will take place tonight at 7:30.

**PUTER ARRESTED ON TWO CHARGES**  
Salem, Jan. 8.—Three indictments instead of one confronted S. A. D. Pater when he arrived in Salem today. This was a complete surprise to the land fraud king. The three charges are similar, merely applying to separate transactions of the same character—procuring persons to swear falsely to affidavits in state land applications. George Sorenson, a well-known land operator, accompanied Pater to Salem. M. L. Pipes acted as Pater's attorney, and attended to the application for bail. M. Pipes asked that bail be fixed at \$500 in each case, but Judge Bremer fixed it at \$1000. Pater gave bonds, with Sorenson and E. P. Valkenburg as sureties.

**F. AUGUSTUS HEINZE FORCED OUT OF BANK**  
New York, Jan. 8.—Unable to meet payments due on his stock in the institution today, F. Augustus Heinze lost control of the Mercantile National bank, the collapse of which as its president had brought about his arrest in the United States circuit court yesterday in the day on the charge of over-indebtedness.  
The year ago Heinze bought a controlling interest from Edwin Gould, with whom he placed his holdings as security for his promise to pay for them in full within one year. The bank of \$1,200,000 was due to him to Edwin Gould and William Nelson

Cromwell, who was a member of the Gould party at the bank before the Mercantile was added to the Heinze-Morse-Thomas chain of financial houses. Up to the last moment allowed him Heinze struggled to meet his obligations and so to retain his banking interests.  
Mr. Cromwell said that the Gould interests would assume their proper place in the bank board at the meeting on January 14. This implies, of course, that the so-called Heinze directors will then retire.

## VIOLINIST JAN KUBELIK AND HIS FAMILY

The coming of Jan Kubelik to this city is attracting wide spread attention, and the public is always pleased to hear anything of interest concerning the home life of this great artist.  
Kubelik has been blessed not only with honor and profit as an artist, but also with ideal domestic happiness, and many stories are told about the beautiful Hungarian countess who married this famous violinist. His wife was the Countess Marianne von Czakk Szell, and she belongs to the great Hungarian nobility. She is a beautiful woman and a musical enthusiast. She fell in love with the talented musician at first sight during a concert at which he was playing, and Kubelik, when he met her, appears to have been as suddenly and as completely smitten.

The Kubeliks have a delightful country home at Collin, Bohemia, where Madame Kubelik devotes a great deal of her time to gardening. They have three children, all daughters, and two of these are twins, who divide their mother's name, one being called Mary and the other Anne. The twins have already begun to show signs of musical talent, and they will be instructed to the top of their bent in that direction.

Madame Kubelik is a gracious and tactful woman, with a gift for entertaining and a great capacity for home management. She has entered fully into her husband's aspirations and aims, and her counsel and sympathy are among the strongest of his incentives in his brilliant artistic career.

## RECITATIONS IN LIBRARY BUILDING

During the holidays many of the recitation rooms of the University were removed from Villard hall to better quarters in the new library building. Occupancy of the new building has been delayed, owing to the fact that there has been no money available for heat. The problem was solved by turning off the heat from the entire upper floor of Villard hall and sending it through the pipes into the library building.

Several members of the faculty, including Dr. Young, Dr. Gilbert and Professor Glen, are now hearing names in the new quarters. Furniture from the old rooms has been removed to the new.

## WOMAN SHOPLIFTER CAUGHT AT ALBANY

Albany, Or., Jan. 8.—Mrs. Kate Murray, who came to Albany two months ago from Roseburg, was caught shoplifting here this afternoon and was arrested on a charge of larceny and held for the circuit court under \$500 bonds.  
She was detected stealing a pocket-book from the drug store of D. O. Woodworth, and upon a search warrant 19 stolen articles were found in her room.  
For several weeks local merchants have been watching the woman whose actions have been suspicious. There have been in this time many thefts, those from Woodworth's store alone totaling \$60.

## NEWS NOTES

How have the mighty fallen. Ex-Mayor Schmitt, of San Francisco, is to be put in a common every-day cell, like other criminals.  
A general order has been put in force by Superintendent C. W. James of the Oregon penitentiary, under which smoking of cigarettes is prohibited for convicts and prison employees both. Heretofore it has been the custom to allow convicts and employees cigarettes without limit, except to the extent of the former's tobacco rations. They could smoke in the cells as well as upon the grounds and while at work.  
The Marion county anti-saloon convention was held Tuesday at the W. C. T. U. hall in Salem, with delegates in attendance from all parts of the county. The convention decided to unite all the temperance forces, including the Good Templars, the W. C. T. U., the prohibitionists, and the Anti-Saloon leagues and temperance men of the old parties in a grand combined effort to carry Marion county dry.

Albany is to have a single mill, with a capacity of over 75,000 a day. Thomson & Cramer, of Mill City, have purchased the old sawmills on the woolen mill site and are organizing a trust to handle their machinery there. The men to have charge of the job are experienced Atlanta millmen, having worked for years in this department of the Curtis Lumber Company at Mill City.

## World's Finest Fruits.

An interesting discussion in the British Royal Horticultural society a few years ago as to what was the finest fruit in the world ended by giving the palm to a certain yellow nectarine raised from a peach by the late Francis Rivers. Next to this perhaps comes a properly ripened greengage, one of the best varieties of the plum. The greengage came into Europe by way of Italy and from Italy was brought to France early in the sixteenth century by the wife of Francis I. In whose honor it received the name of Reine Claude, by which it is still widely known. Soon afterward it was introduced into England from Italy under the old Italian name Verdoch and about the same time from France. The latter importation, however, came with lost labels to a family of prominent English amateur horticulturists of that day named Gage, from whom the fruit received its present name—London Chronicle.

## Suicide Without Pain.

"Yes," admitted the man who had his feet on the table, "it is true that I did once attempt to commit suicide. "I was disconsolate, out of work, out of health, and I brooded over my unhappy lot until"—  
"Never mind what drove you to attempt the deed. All that interests us is how you made such a failure."  
"I can hardly account for it myself even now. I fired a pistol straight at my heart."  
"Blank cartridge?"  
"Toy pistol?"  
"Had chain armor on?"  
"Bullet hit a rib and glanced off?"  
"No," said the man, looking scornfully at the seecoffs about him. "The bullet hit the looking glass in front of which I was standing and broke it into a thousand pieces."—Strand Magazine.

## Lockjaw.

The fearful tetanus, or lockjaw, was ascribed in all the books when I was a student to puncture or irritation of a nerve, and both hands and feet were sometimes cut off to stop the irritation going up the nerve to the spine. Now we know that it is due to a fatal poison in the blood which acts like strychnin, though more painfully, and which is produced by a bacillus lodged in a punctured wound made by some stick, nail or pistol wad on which this evil bacillus happens to be. It is a soft bacillus and swarms in rich ground earth, particularly where guano or fish manure is used. All wounds, therefore, into which earth has entered should be promptly cauterized.—Dr. William Hanson Thomson in Everybody's Magazine.

## His Dance.

An organ grinder had been playing before the house of an irascible old gentleman, who furiously and amid wild gesticulations ordered him to move on. The Italian stolidly stood his ground and played on and at last was arrested for causing a disturbance. At the court the magistrate asked him why he did not leave when he was requested.  
"Me no understand mooch Inglese," was the reply.  
"Well, but you must have understood by his motions that he wanted you to go," said the magistrate.  
"I think he come to dance," was the rejoinder.—London Tatler.

## Progress.

"My wife knew nothing of house-keeping to begin with, but she's learning fast."  
"That's encouraging."  
"Oh, she's a bright little woman. If I do say so, if I have seen only two cooks to teach her to keep away from the kitchen, and I suppose that's at least half the battle"—Pack.

## How She Said It.

Judgment Mother—And so he kissed her three times! Now, what did you say to him?  
Artful Daughter—Why, I said, "Don't stop!"  
She did, only it sounded like, "Don't stop!"
