CITY FATHERS HOLD MONTHLY BUSINESS SESSION

VARIOUS MATTERS OF INTEREST DISCUSSED AND ACTED UPON LAST NIGHT

PETITION OF FIRE DEPARTMENT ASKING THAT FIRE TEAM BE KEPT FOR FIRE PURPOSES ONLY RECEIVED AND REFERRED TO COMMITTEE

The city council met in monthly session in the council chambers last night and transacted the usual amount of routine business.

The street committee reported that the matter of the cement walk in front of the Frazier property on Willamette street had been looked into and presented a contract between Mr. Frasier and the Warren Construction Company in which the latter is to build the walk, but not before the weather settles in the spring. The matter was allowed to go at that.

The street commissioner was directed to begin the work of building the sidewalk on the west side of Willamette street from Fourteenth street to the foot of College Hill.

The street committee was authorized to buy what lumber is necessary for present needs and to bring in an estimate as to the amount of lumber needed for the next year at the next meeting.

The fire and water committee was directed to ascertain by scientific test whether the city is getting all the light it is entitled to under its contract and report the same.

Chairman Henderson, of the health committee, asked that \$1500 be paid Contractor Soles for work on the Fifteenth street sewer contract, and the money was ordered paid.

Chairman Fisher, of the street committee, reported that the assessment for grading and graveling on street in front of Allen Eaton's property was exorbitant, and by motion he was allowed to pay for it at 50 cents on the dollar of the assessment.

The treasurer read his quarterly statement for the quarter ending December 31, 1907, showing \$4,439.36 the balance on hand in the general fund and the sum of \$135.43 the balance on hand in the sewer fund on that date.

The report of the library committee was read, showing a balance on hand of \$924.66 at the end of the year, also that there are 2750 books on the shelves.

Yorran Failed to Qualify.
The board of fire delegates, through its secretary, reported the position of fire chief vacant on account of the failure of W. C. Yorran to qualify, and the matter was referred back to them to take action themselves.

Charter Amendment.
A petition to amend sections 108 and 112 of the city charter with reference to the bonding matter, containing 19 sheets of names, was presented and Councilman Calkins introduced a resolution to the effect that it be recorded and city attorney take such steps so that the matter be properly brought before the voters for their franchise at the coming municipal election.

The petition of the requisite number of signers on the amendment of the city charter with reference to burial of dead bodies in cemeteries and the extension of cemetery limits was presented and a resolution like the former one was presented with reference to having it brought before the voters at the coming city election. Fisher called for the yeas and nays, and when they were called he was the only one who voted against submitting it to the people.

The petition of City Treasurer Frank Reiser to have his salary raised to \$30 a month was referred to the finance committee.

A petition for an arc light at the corner of West Sixth and Blair streets was referred to the fire and water committee.

Fire Team Matter.
The petition of the fire department asking that the fire team be kept in the house for fire purposes only, that the driver be made subject to the fire chief, and also that said fire chief have his salary raised to a sum commensurate with his services, was referred to the fire and water committee.

Franchise Extension.
The petition for the extension of the time of the franchise for building of the electric line was read and by motion the company was to be informed that if they complete without delay the line to the intersection with the S. P. Co.'s track the council will grant the extension of time asked for.

TAKE POWER FROM LANE COUNTY STREAM

BELIEVED ELECTRICITY WILL BE USED IN OPERATING EUGENE & EASTERN TRAINS OVER CASCADE RANGE

Salem, Or., Jan. 13.—On behalf of the Portland, Eugene & Eastern Railway Company Attorney John H. McNary today filed notice of appropriation of 2000 cubic feet per second of water from the McKenzie river, in Lane county. The point of diversion is about four miles above the mouth of Gate Creek.

The Portland, Eugene & Eastern is a company whose affairs are managed by A. Welch, who promoted the Oregon electric line, which has just been completed between Portland and Salem. It is not known who is back of Welch in the new undertaking, but it is apparent that money for the enterprise is plentiful. He has franchises in Salem, Albany and Eugene, and presumably his line between these points and thence east over the Cascade mountains will be an extension of the Oregon Electric, though there is said to be no business connection between the two companies at present.

Sunday services will be announced later.

It Is Prudent to Insure.

your life or your property.
Why is it not as important to insure against adversity in the future by keeping your funds in a bank account? Allow it to accumulate until a time comes when you need it badly—that is when you will appreciate its true worth. Just as the value of your life insurance increases as you grow older, so will your bank account grow as you add to it weekly or monthly.
In fact, the possibilities of your bank account are limited only by your earning and saving capacity.
An account with this bank is good insurance.
