OLIVE STREET ORDINANCE PASSED BY CITY COUNCIL

An adjourned meeting of the city council was held last night at which the matter of opening Olive street from West Twelfth to West Seventeenth street was brought up. After the report of the viewers, as recently published in The Guard, was read, an ordinance adopting the report was then passed unanimously. The street will be opened accordingly soon.

The matter of straightening an alley in the Rugh addition was referred to the street committee.

In the matter of the claim of M. F. Griggs with reference to paving, the city engineer was ordered by motion to measure up the actual area of pavement in front of his property, and if the amount assessed is greater, the city make the amount of excess charge good.

The matter of planting uniform kinds of trees on certain streets in Fairmount coming up, Mr. Calkins moved that Linden trees be planted on Columbia avenue and walnut trees be planted on Walnut avenue under the direction of the street commissioner. The motion carried.

The matter of digging up streets for laying pipes and covering them up again was referred to the judiciary committee with instructions to bring in an ordinance covering it.

The matter of getting ready to pave Eleventh street was referred to the city attorney to prepare an ordinance to carry the matter up.

The matter of the suit of John Mangan against the city was referred to the city attorney with instructions to take such steps as are necessary to defend the city.

A petition from E. W. Polock asking the city to take some action toward opening up Willamette street or some other street across the railroad track was read. By motion the matter was indefinitely postponed.

GAME WILL BE PLAYED IN PORTLAND

The University of Oregon athletic council has acceded to the wish of the Oregon Agricultural College, and the annual football game between the institutions will be played in Portland this year.

No arrangements were made, however, for playing the game in Portland permanently. This year's game should be played on the O. A. C. campus, but the "Aggies" wish to play it in Portland instead. It is very doubtful if Oregon's game, that is the game played in Eugene every other year, will ever be taken from the university campus, as the school sentiment is against playing away from home more than necessary.

METHODIST RECEPTION

At Woodman Hall Tomorrow Evening

The M. E. church is planning to give a welcome reception in the Woodman hall, corner West Eighth and Lincoln streets, on Wednesday evening of this week, in honor of the large number of new members. All members, both new and old, are expected to be present.

THOUSANDS CURED

Wonderful Success of Hyomel in Curing Catarrh, Even in Chronic Stages.

Hyomel is the most unusual remedy ever known for the cure of catarrh.

It follows Nature in her method of treating diseases of the respiratory organs, as its healing balsams are taken in with the air you breathe, thus reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs and preventing their growth.

Use Hyomel at the first symptoms of catarrh. Do not allow the disease to extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes, and then onward and downward until the lungs are reached. Hyomel will cure all curable forms and stages of catarrh. Hull Drug Co. take the whole risk, and offer to refund the money for a dollar outfit if it fails to cure.

IT DOES THE BUSINESS

Mr. E. E. Chamberlain, of Clifton, Mo., says of Bucklen's Arnica Salve: "It does the business; I have used it for piles and cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25 cents at W. A. Kuykendall's drug store.

SEES WITH HIS MIND

Most Miraculous Are the Powers of Prof. Grant Chesterfield

Grant Chesterfield, the noted thought reader and palmist, who is going to pilot the "Flyer" from Tacoma to Seattle blindfolded shortly, possesses powers most marvelous, if the statements of the most prominent citizens of Eugene are to be believed. They claim that he has examined their palms, immediately told them the story of their past, diagnosed their physical condition, described their present state of affairs, and then proceeded to divine for them

GRANT CHESTERFIELD

their future. They further aver that many predictions made by the enigma have already come to pass. So yesterday in his parlors at 642 Willamette street Professor Chesterfield said:

"Possibly some of the reports are exaggerated, but then you must remember that I have been endorsed by such authorities as the Press Club of Chicago, practically by the University of Ann Arbor, Amsterdam, Upsala and St. Petersburg, and a long string of others. Again, among the noted personages whose palms I have read are the most distinguished of either hemisphere, so I hardly think this report you have heard is at all exaggerated."

"But do you pretend to read one's future?" was asked.

"I read the palm, and the future, as well as the past, is written therein."

"Do you give legal advice, too?"

"In certain instances, certainly. The same as in certain cases I diagnose one's condition and advise accordingly how to recover lost nerve energy and power, and what to do to take care of their health in the future. Some have certain business changes they should make; others have marriages, divorces, lawsuits in store for them; still others have winning interests or geographical changes to undergo, and so it runs on."

"How many palms do you read daily?"

"Oh, that's hard to say. In Sacramento I read 2000 in several weeks. Now come up another time and I'll give you a reading."

Then the wonder-worker, who kept New York, Boston, Copenhagen and other cosmopolitan cities in a flurry, called "next!" and vanished into his consultation room.
