Subscribers of the Daily and Weekly Guard who have a favorite candidate in the contest should favor them with a subscription now when the votes are most needed—votes will be credited by remitting subscription price to the office.

With the end of The Guard popular ladies' voting contest only fifteen days off, many of the contestants who are anxious to have their names announced as winners are resorting to everything possible to secure enough subscriptions and votes to place their names at the head of their respective districts when the final count of votes is made Saturday, February 8th, at 10 p. m.

All good Americans love contests in which wit and hustle are the predominant factors. The spirit which moves the indefatigable and determined worker in the contest is infectious and it now looks as though all are affected by it. All candidates are doing remarkably well and a great many surprises can be looked for between now and the finish.

The upright piano, five free trips to Los Angeles and return, and the scholarships will be awarded to the contestants and chaperone who finish with the largest amount of votes to their credit in each district. They are within the reach of every candidate in the race, providing they get in and hustle for subscriptions from now on, until February 8th, and on February 10th, when the names of the winners are announced and your name appears as one of the lucky ones you will not be sorry that you spent a few weeks of good, hard, active work.

The prizes are all well worth a strenuous effort put forth from now until the finish of the race, as the winners will think when awarded the grand upright Kimball piano.

The Capital Prize. This Kimball piano has been purchased by The Guard from the Eilers Piano House, Portland, and is exhibited at the Eugene salesrooms of the Eilers Piano House.

The Kimball, which will go as the capital prize in the contest, retails in Lane county for \$350. In the catalogue it is described as follows: "Seven and one-third octaves, ivory keys. Three strings and agraffe. Elaborate case with hand-curved panels, top and bottom mouldings. Full extension music desk, rolling fall board and new style carved trusses. Continuous hinges on top and fall board. Three pedals. Four feet plus inches high, five feet six and one-half inches wide, two feet three and one-half inches deep.

Los Angeles Vacation Trips. These five prizes will be awarded to the chaperone who secures the largest number of votes and the four contestants who finish with the largest number of votes in each district after the grand capital prize has been awarded.

The winners of these trip prizes are surely to be congratulated for a resort Los Angeles completely satisfies the wants of every one. One finds endless variety for pleasure and diversion. Its shops are filled with as fine a selection of imported and do-

mestic goods as is found in the largest Eastern cities. Its private and public schools rank with the best. Its musical advantages are a credit to the city. The city and suburban railway system is considered the most extensive and complete in latest improvements and conveniences of any in the United States. An auditorium, with a seating capacity of 5000 persons, is considered the finest example of reinforced concrete fireproof construction in the world. Regular seasons of the best in opera and drama.

One Day Trips. Just around and about Los Angeles the Mt. Lowe, Rubio Canyon, Echo Mt. Pasadena, Ostrich Farm en route. Pigeon farm of 69,000 pigeons. San Gabriel Mission, founded in 1771. The Santa Anita Canyon, most picturesque. Tally-ho drive through Baldwin's ranch.

However, there are many other advantages as essential and superior, as they do not constitute all the auring qualities of this city as a summer resort. The tourist comes here not only to escape excessive heat, but to be amused and entertained, to pursue recreations fitting the season. Los Angeles has them all, from hill climbing to surf bathing; from mountain top to sandy beach; boating, fishing both in salt and fresh water, camping, tenting, golfing trolley trips, automobilng and steam rail journeys; there is nothing lacking to make the enjoyment of the visitor complete.

Los Angeles has the best hotel accommodations in the country. Family hotels and lodging houses in all quarters of the city and can take care of 50,000 people.

Among the finest and foremost is the "King Edward Hotel," where the winners of The Guard voting contest will make their headquarters. It is accessible to every point of interest, all commercial centres and all places of amusement. King Edward Hotel stands in the heart of the city boldly claiming the sunlight and air, offering its guests a royal welcome and attention which at once dispels all sense of "alone-ness." Down-to-date in every detail in its construction, furnishings to its cuisine. Absolutely fire proof protection. Six stories in height, affording hospitality to 350 guests. Most efficient service adds to the comfort and convenience of the guests to the smallest detail.

Some of the most active vote getters in the contest are anxious to win one of the tuition prizes to be awarded to the candidates who in each district finish with the second highest number of votes after the piano and trip prizes have been awarded. Scholarships at a representative business college are always being sought after. The Eugene Business College, where the winners will receive a business education, ranks with the foremost in the state of Oregon, and the winners with ambition and inclination will be fortunate to win these prizes.

The college is well housed and equipped with every necessary modern appliance. Instruction is equal to any to be had in the Pacific Northwest.

MOTHER'S KITCHEN. Seventh and Oak streets, has opened under new management. Good board and room by the day, week or month. First-class home cooking. Chicken dinner every Sunday.

MRS. S. Y. ABBOTT. We are going to quit the umbrella trade and are closing out our umbrella stock at cost. J. O. Watts, Jeweler and optician, corner Ninth and Willamette streets.

Good music at the Underwood Rink every evening. Come and enjoy yourself.

ANNUAL REPORT OF DR. CHRISTIE, STOCK INSPECTOR

DR. J. CHRISTIE SAYS TUBERCULOSIS EXISTS TO CONSIDERABLE EXTENT AMONG DOMESTIC ANIMALS—RECOMMENDS PUBLIC ABATOIR AS REMEDY

Dr. J. Christie, county stock inspector, has filed with the county court his annual report, as follows: Eugene, Or., Dec. 31, 1907. To the Honorable County Court of Lane County, Oregon:—

Gentlemen—I have the honor herewith to submit my report as stock inspector of Lane county for the year 1907.

During the year 1907 I have issued certificates for the shipment to California or Washington the following animals: 45 horses, 3812 cattle, 2,888 sheep and 2200 hogs.

During the year I have had killed three head of cattle for lumpy jaw and have examined after death five dead cows. Each of these examinations showed that the animal died of tuberculosis, or was seriously afflicted at the time of its death with that disease. I have likewise examined 7 hogs that died of disease and found them afflicted with tuberculosis. My investigation in reference to the latter leads me to believe that they contracted the disease by eating the carcass of a cow that died of the same disease.

My observations during the year lead me to believe even more strongly than I have heretofore expressed that tuberculosis is widespread among the cattle and hogs of the county. As the recent investigations of the best scientists, notably the royal commission of London, England, have found that tuberculosis is transmissible from the animal to the human being, the existence of tuberculosis to any considerable extent in our domestic animals is a matter of serious concern. In connection with the state veterinarian I tested one herd of 38 dairy cows, with the result that five were found afflicted with the disease and killed. As I have intimated, this disease is often introduced among hogs from eating the entrails of slaughtered animals.

You will therefore see that the care and management of slaughter houses is very important in dealing with the subject of the suppression of tuberculosis. While I do not know that the law gives your body or myself power to do much to effectually check the spread of this disease, justly regarded as the most fatal that afflicts either animals or human beings, I cannot forbear to say, seeing that I must report on the health of domestic animals within the county, that much more stringent provision ought to be made to detect and dispose of animals infected with tuberculosis, and to require that slaughter houses should be so conducted as not to be a breeding place of disease, among animals, and, indirectly, among human beings. Many communities have found a public abattoir, under municipal inspection, the most efficient means of checking the spread of disease among cattle. As soon as the owner finds out that he cannot dispose of animals for human food that are affected with disease, he is conscious of a powerful incentive for the eradication of disease among his animals. Such institutions have proved a great advantage to the butchers and have generally proved self-supporting financially. I am very earnest in the hope that some measure will soon be adopted that will secure our domestic animals in this county from the contagion of tuberculosis and other harmful and contagious diseases.

At present I am forced to confess that I have no sufficient means at my disposal to accomplish this purpose, though I am doing all I can toward the end in view.

Very respectfully,
J. CHRISTIE.

BEWARE OF PHYSICS. Only Aggravates Stomach Trouble and Never Cures. The trouble with most people who have stomach trouble is that they do not like to take the time to get cured—they overeat and then take physic, which simply opens the stomach and never cures.

While relief follows one or two doses of Mi-o-na stomach tablets, chronic and long-standing cases need at least two or three weeks' treatment before the sick headache, dizzy spells, bloating, heartburn, constipation, nervousness and other symptoms that directly result from indigestion are banished never to return. Mi-o-na is entirely different from the ordinary stomach remedies. It is taken before meals, stimulating the secretion of digestive juices and strengthening the stomach so that it can do its proper work. With every 50-cent box of Mi-o-na Hall's Drug Store gives a guarantee to refund the money unless the remedy cures.

CASTORIA For Infants and Children. The Kind You Always Bought. Bears the Signature of L.

RHEUMATISM BODY RACKED WITH PAIN

No other disease causes such wide-spread suffering as Rheumatism. It is a nerve racking torture, and so thoroughly does it dominate the system when it becomes entrenched in the blood, that its victims are usually complete slaves to pain. Rheumatism is due to an excess of uric acid in the blood brought on by stomach troubles, weak kidneys, indigestion, and sluggish condition of the system. The natural refuse of the body, instead of passing off through the ordinary channels of waste, is left to sour the ferment in the system because of these irregularities, forming uric acid which is absorbed into the blood, and Rheumatism gets a foothold. As blood circulates through the body it deposits the acid, irritating the tissues with which it is saturated, into the different muscles, nerves, joints and bones. Sharp, biting pains commence, the flesh becomes fevered and swollen and tender, the muscles and joints throb and jerk, and the sufferer is literally racked with pain.

Plasters, blisters, liniments, etc., can never cure the disease; they relieve the pain, perhaps, temporarily, but do not reach the trouble, which is in the blood. S. S. S. is the proper treatment for Rheumatism. It down and attacks the disease at its head, by driving out the poison and acids which are causing the pain, and strengthening and enriching the blood, thus securing permanent relief. S. S. S. is the greatest of all blood purifiers, just as it is needed in every case of Rheumatism. Book on Rheumatism and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
