## ANOTHER PUBLIC SCHOOL BUILDING IS IN PROSPECT

### BOARD OF EDUCATION AUTHORIZES COMMITTEE TO INVESTIGATE ADVISABILITY

### ADDITION TO HIGH SCHOOL BUILDING, FURNISHING FOUR MORE RECITATION ROOMS, TALKED OF—ROOM HIRED FROM CHRISTIAN CHURCH

At a meeting of the board of education last night the matter of providing more school room was the topic of discussion. After considering various matters in that connection the building committee was authorized by the board to investigate the advisability of erecting a new school building for the grammar grades. The matter of the size of the building and the location was not discussed, that being left for the committee to consider at a later date. The school district owns a lot in Fairmount, which was purchased several years ago for the purpose of locating a building thereon, and it is reasonable to presume that the proposed new structure will be erected there, but as there is considerable opposition to that project for the reason that other parts of the city need it more, some other location may be selected.

### ADDITION TO HIGH SCHOOL

A local architect reported to the board last night that an addition can easily be made to the high school building which would add four recitation rooms and give much more room in the assembly hall. His idea is to take out the west wall of the building and extend it about thirty feet, making two rooms additional in the basement and two rooms on the first floor, and increasing the capacity of the assembly hall, which is always crowded. The proposition seems to meet with favor with a number of members of the board and will be considered.

### Room at Christian Church

The board decided last night to hire a room in the basement of the Christian church for school purposes, and move the primary grade which now occupies a room in the basement of the high school will be used by the high school classes, as it is badly needed. The room in the Christian church will be fitted up as soon as possible.

your life or your property. Why is it not as important to insure against adversity in the future by keeping your funds in a bank account? Allow it to accumulate until a time comes when you need it badly—that is when you will appreciate its true worth. Just as the value of your life insurance increases as you grow older, so will your bank account grow as you add to it weekly or monthly. In fact, the possibilities of your bank account are limited only by your earning and saving capacity. An account with this bank is good insurance.
