### BANK BURGLARS MAKE A UNIQUE CONFESSION

Chicago, Jan. 22.—A dispatch to the Tribune from Jackson, Miss., says: A unique confession was made yesterday to A. F. Thomason, president of the National Bank of Hattiesburg, by James Harper and W. T. Smith, bank robbers, brought back from Seattle, Wn., where they were caught after a long chase. Harper says the bank president walked in his sleep. He and Smith watched the bank for several nights, according to their confession, and frequently witnessed Thomason enter with the aid of his doorkie. They never dreamed that he was not in full possession of his senses until they saw him under an electric light with his eyes closed. Then the robbers say they conceived a plan to enter the bank with Thomason and to gag him if he came out of his trance. They declare that Thomason gave them the combination of the safe, which they opened, and that they left, leaving Thomason asleep in the bank.

your life or your property.

Why is it not as important to insure against adversity in the future by keeping your funds in a bank account? Allow it to accumulate until a time comes when you need it badly—that is when you will appreciate its true worth. Just as the value of your life insurance increases as you grow older, so will your bank account grow as you add to it weekly or monthly. In fact, the possibilities of your bank account are limited only by your earning and saving capacity. An account with this bank is good insurance.
