This is the street traversed by all teams going to and from Springfield now, and during the dark nights the crossing is rather dangerous, owing to the high banks there. A meeting of the real estate men was held at the Commercial Club Saturday night. The matter of proper literature to send East was discussed and it was agreed that every real estate dealer should send out literature of a uniform nature, and some circulars which were recently printed were condemned for the reason that it gave the minimum temperature for Lane county at 2 degrees below zero, a point that was reached but once in 20 or 30 years. This was considered rather a bad advertisement for Oregon's mild and equable climate.

GLADYS VANDERBILT MARRIED TO AUSTRIAN

(Continued from Page One.)

does his lunch at a counter and then rush off again to business."

In these words Karl F. Linha, the Austrian vice consul, who is a personal friend of Count Szechenyi, commented today on what will be the greatest event of the present social season.

"Do I think Miss Vanderbilt and the count will be happy?" he repeated, in reply to a question as to whether, in his opinion, the marriage would culminate in the same manner as the Marlborough and Castellane unions. Well, suppose you had \$2,000,000, as has the count. Then suppose you were to marry a girl with twelve odd millions. Do you think you would be happier with those fourteen millions than you would be on the editorial staff of your paper?"

The vice consul's left eye closed and he laughed.
