BIG RESERVOIR ON BUTTE DRY FOR SEVERAL DAYS

TROUBLE AT PUMPING PLANT LEFT CITY AT MERCY OF FIRE SEVERAL DAYS—CHIEF OF POLICE FARRINGTON INVESTIGATED AND FOUND ALARMING CONDITIONS

For several days past there has been something wrong with the pump at the water pumping plant of the Willamette Valley Company and the mains in several parts of the city have been dry. Reports were numerous on the streets to the effect that both reservoirs were dry, and yesterday Chief of Police Farrington made an investigation. He ascended the butte to the reservoirs and found only about a foot of water in the small reservoir and none at all in the large one. Chief Farrington informed The Guard this morning that he applied to the office of the Willamette Valley Company for a key to the gate in the fence around the big reservoir, but it was stated that the key had been lost, whereupon the chief sealed the wire fence and took a peep at the interior of the reservoir. He was at once satisfied as to the cause of the mains being dry. The mains about the city contain water today, but had a fire broken out yesterday or any of the few days previous the city would have been at the mercy of the flames, as a strong wind was blowing. The little water there was in the small reservoir would have been exhausted within a few minutes, and then there would have been absolutely no means with which to check the flames.

PREMIER FRANCO IS FORCED TO GIVE UP POWERS OF DICTATOR

Lisbon, Feb. 3.—Premier Franco has relinquished his power and a new cabinet has been formed with Admiral Ferreira do Amaral as president in the place of the last Dictator Franco. He agreed to the step as calculated to pacify hostile public opinion at a time when only a spark is needed to inflame the whole country and hurl it headlong into revolution. Nevertheless it is believed that Franco will still be the "man of power," but his official prerogatives are at least shorn of real authority. An open session of the new council was held today. King Manuel II appeared before the ministers and in a voice vibrant with emotion said: "I am yet without experience, either in science or politics. I place myself entirely in your hands, needing and believing in your patriotism and wisdom."

Many Arrests Made

There is also a strict censorship of all outgoing telegraph messages.

COMMISSIONER KNOX ADVOCATES PUBLICITY CURE

Washington, Feb. 3.—Public opinion has been prompt and efficient in the correction of commercial evils when those evils are stated specifically. This is one of the conclusions reached by Robert Knox Smith, commissioner of corporations, as expressed in his annual report of the operations of the bureau of corporations, made public today.

"Thus," says Commissioner Smith, "the experience of the bureau seems to point logically to the need for the extension of such results by the crea-

tion of a general administrative system of supervision of interstate corporations, which shall give in substantially the same form as is furnished now for a few corporations, the essential facts relating to all great interstate corporations. The report says the time is ripe for such a system, that corporate combination as such appears to not only be an economic necessity, but is not the existence of industrial power, but its misuse, that is the real problem.

TILLAMOOK LAND GRAB FIGURES IN HALL TRIAL

Portland, Feb. 3.—The Tillamook land grab is being resurrected by the prosecution in the Hall case for the purpose, Francis J. Heney explains, of showing that Hall, as United States district attorney, tried to protect influential persons, as is alleged against him in the Rutge Creek land, livestock & lumber company, for which he is now on trial charged with conspiracy. Edwin Mays, who was co-defendant with Hall, but who was discharged for lack of evidence against him, testified today that the map showing the illegal fencing of the Rutge Creek Company, a government exhibit, was not the one received by Hall, who was former chief. Mays testified favorably to Hall in other ways today and said that he knew nothing of the Til-

lamook case until 1902, when he received instructions from Hall and Special Agent Greene in regard to it. He did not remember a conversation with Charles E. Hayes. Heney introduced as witnesses Charles E. Hayes, Edward N. Dandy and S. C. Spencer. Hayes testified that he was introduced to Mays by Spencer in 1901 and presented data and asked that information be filed against the men concerned in the alleged Tillamook conspiracy; that after a conference he was referred to Hall. Heney announced during recess that he would have the indictment against Hayes dismissed. Dead, also testified to facts which tend to show that Mays and Hall had been advised of the conditions in Tillamook.

THERE'S a good deal of satisfaction in knowing that the clothes you wear are of good quality; all-wool and well tailored. Part of the pleasure in wearing clothes comes from knowing that they are of the right quality. There's a lot of cheap clothing made and sold; it's made so that you'll think it is good, and you pay for what you think it is. It isn't even low priced, sometimes. The advantage to you in our Hart, Schiffer & Marx clothes is not simply in what they are—all wool, correct in style, perfectly tailored; it's in what you know they are. When you wear these clothes you know you are right; the mental attitude is worth more than the price of the clothes.
