HALL CASE WILL GO TO JURYMEN TONIGHT

Portland, Feb. 7.—L. R. Webster for the defense closed his argument for John H. Hall this afternoon. He laid great stress upon Hall's endeavor to have special agents appointed to investigate unlawful fencing by the Willamette Creek Company, asserting that the delay was no evidence of conspiracy, and reiterated that Hall had never given permission to erect or maintain a fence and that the defendant never had an understanding with the officers of the company.

Judge Webster denied that the administration of justice in this county was of such a character that suggested alarm but he declared that the danger lay in the possibility of jurymen sitting in the trial of accused men, being influenced in their verdicts by facts and circumstances entirely foreign to the specific violation with which the man on trial was charged. He then called the attention of the jury to the fact that in the Hall case they should not consider evidence extraneous to the case under consideration when deliberating on a verdict.

The case will go to the jury tonight.

PORTUGAL'S KING IN ROYAL CASKET AWAITING BURIAL

Lisbon, Feb. 7.—The body of King Carlos was placed in the coffin yesterday, after which Queen Mother, Maria Pia, Queen Amelie, his widow, and Manual, his son, were admitted to view the remains. It was a painful and heartrending scene. It was necessary to remove the mother and queen, so great was her grief. At midnight the body was transported to the royal chapel.

King Carlos died a poor man and his entire fortune consisted of insurance policies held by the Bank of Portugal as security for advances made. It is said there will not be $30,000 to distribute among his heirs.

FLORDIA REPUBLICANS HAVE LIVELY ROW

St. Augustine, Fla., Feb. 6.—Florida Republicans stand conspicuously in the limelight today as being the first to hold their convention to select delegates to the National convention, and it is said here that the strenuous and exciting scenes enacted here today are a forecast of similar scenes in other Southern states, caused by the efforts being made by the anti-Roosevelt Republicans for control in the National convention.

Two conventions really convened at the same time in the same hall. The progress of business was frequently interrupted by knock-down and drag-out fights. The officeholders' faction was called to order by the chairman of the state committee, and they proclaimed themselves as the regular party, but they did not succeed in carrying out the pre-arranged program. The Taft sentiment was too strong for the leaders to hold in check, and resolutions were adopted indorsing William H. Taft for the presidency.

The anti-Taft faction elected uninstructed delegates.

LUMBER RATE MAY BE SETTLED BY CONFERENCE

SEATTLE BUSINESS MEN ARE ATTEMPTING TO SECURE COMPROMISE AGREEMENT WITH PRESIDENTS HILL AND ELLIOT—PRELIMINARY CONFERENCE RESULTED IN HOPEFUL VIEW OF SITUATION AND FURTHER MEETINGS WILL BE HELD

Seattle, Feb. 6.—As a result of a conference held this morning between Presiden Louis W. Hill, of the Great Northern, and President Howard Elliott, of the Northern Pacific, on the one side, and President Jacob Furth, of the Puget Sound National Bank, and Frederick Bausman, representing the commercial bodies of the Northwest, hope is expressed that the controversy between the lumber interests and the railroads concerning the rate question may be amicably settled. Nothing definite resulted from the conference, but there is to be another one within a day or so.

At the close of the conference Mr. Furth made the following statement:

Both Sides Are Considered.

"Mr. Hill and Mr. Elliott, at our invitation, met Mr. Bausman and myself this morning to discuss the possibility of bringing about a settlement of the rate controversy between the lumber and shingle men of the Pacific Northwest and the railroads. Both the railroad officials appeared to be willing to receive proposals

LOUIS W. HILL.

from us, acting for the commercial organizations of the Northwest.

"The subject was discussed from various viewpoints, on the basis of some means of bringing about an early resumption of the lumber trade. It was considered both from the railroad end, namely, the handling of traffic, and the manufacturers' end, namely, the opening of the mills of the Northwest and the employment of labor as before the mills closed down."
