You hear some talk these days about economy. Maybe you're

being economical yourself. It's a good thing; we believe in it, but it's best to be clear as to what economy is.

Economy isn't buying cheap stuff because it's low-priced, nor paying too much for good stuff because it's good.

Real economy is measured by comparing what you get with what it costs—a question of proportion, not price.

That's why you ought to buy our Hart, Schaffner & Marx clothes. They're all wool, perfectly tailored; correct in style. You get better value in these goods than in any other.
