

CATARRH A SERIOUS FAR-REACHING BLOOD DISORDER

Even in its early stages Catarrh is almost intolerable, caused by the body feeling in the nose, the buzzing noises in the ears, the continual sneezing and spitting, difficult breathing, etc. But when the blood becomes thoroughly polluted from the catarrhal matter, the inflammation extends to the stomach, resulting in dyspepsia, loss of appetite and strength, and gradually all the mucous membranes of the body become diseased and the system upset and deranged. Frequently the kidneys and bladder are attacked, and the constant passage of impure blood through the system, causes these important members, and Catarrh terminates in Consumption. Catarrh is a deep-seated blood disease, and must be treated conditionally, for it is beyond the reach of local treatment. S. S. S. cures Catarrh by cleansing the blood of all the impure catarrhal matter and at the same time building up the entire system. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, pure blood circulates through the body, the inflamed membranes commence to heal, the mucous discharges grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. has been used as a cure for this disease. It refines and purifies the entire circulation and repairs the damage done by Catarrh. Special book on Catarrh and any other ailment free. OFFICIAL REPORT ON RAILROAD LAND GRANTS

Washington, Feb. 18.—The substance of the report of B. D. Townsend on his investigation of the Oregon & California Railroad land grant was made public today for the first time, and shows in a general way the facts on which the government will base its suit to compel the railroad company either to comply with the law or forfeit its title to the grant. The report is so full and explicit as to require no explanation. The following extracts are made:

"The provision of the grant restricting the number of sales have never been respected. Lands have been sold to any person, whether settler or speculator, in as large quantities as possible, and at the highest price possible. In making sales the railroad company has always observed the law of supply and demand and has never obeyed the law of congress. Substantial violations of the terms of the grant occurred from the very beginning. Among the first conveyances executed in 1872 were several instances where land was sold at prices largely in excess of \$2.50 per acre, sometimes as high as \$10 per acre. In 1874 three instances are found of conveyances to a single purchaser of quantities exceeding 1000 acres each. These violations continued throughout the history of the grant."

Mr. Townsend charges the railroad company with selling mainly to timber speculators, of stopping sales entirely at times, and giving only quit claim deeds. The general policy of handling lands has been such as to retard development, he concludes.

Grant Thwarts Own Purpose.

"At the expiration of 40 years after the enactment of the grant, 2,000,000 acres of lands granted are vested in a single proprietor, with no public obligation and virtually controlling the commercial destiny of a large portion of Oregon. This is the very evil which the provisions of the grant were destined to avert. Yet that condition now exists, with the assertion of a legal right to make it permanent."

It is confidently believed that substantial remedies exist in favor of the government. It is the purpose of the department of justice to enforce these remedies. It is respectfully suggested, however, that discussion of these forms be deferred for presentation before the court to which the cause shall hereafter be addressed."

Fulton Renews Fight.

Washington, Feb. 18.—Senator Fulton today reported to the senate from the judiciary committee a point resolution directing the attorney general to prosecute the land grant railroads in Oregon for not having complied with the terms of their grants in disposing of the lands in their grants in tracts of not more than 160 acres at not more than \$2.50 per acre. The resolutions drawn by the department of justice to remove any doubt as to its authority to proceed were offered as a substitute for the one recently offered by Tillman.

The resolution was generally discussed, the only objection being urged against it was that the attorney-general is now empowered by the law to do all that the resolution seeks to have done. Fulton stated that the department was now ready to proceed and merely wanted the authority of congress to remove any question of the legality of the proceedings.
