PERKINS TELLS WHY BATTLESHIPS GAME TO PACIFIC

Washington, Feb. 21.—A defense of the administration's policy in sending the battleship fleet to the Pacific ocean and maintaining that the vast expenditure was fully warranted, was made in the senate by Perkins, of California, today. His remarks were directed to a resolution which he had read at the desk, as follows:

"Resolved, That it should be the policy of this government, while not adopting a continuous program for fixing the number of naval vessels of any type to be built in future years, to maintain its present relative position in comparison with the navies of other great powers."

"The policy," Perkins said, "which sent the fleet to the Pacific is wise and necessary if we are to retain on that ocean the prestige that will give a fair and open field to our sea trade."

"This was in no way an indication of any unfriendliness on the part of the United States toward any other nation."

GOOD CHANCE TO ADVERTISE BUSINESS

The page of small ads printed in The Guard yesterday will be run in The Guard, with slight changes, once a week (Fridays), and in the weekly edition for the next month. The price will be made very reasonable, and the advertisements should prove quite effective the way they are classified and arranged and every business man who was overlooked by the canvasser will be given space if he will hand his copy into the business office. Putting even nothing but your simple business card on this page for a month will be much better than painting your name on a fence or the side of a barn. Not less than 18,000 regular readers will see it here every week—and the cost will be scarcely worth mentioning.
