GUARD GUARANTEES LARGEST CIRCULATION. The Daily and Weekly Guard have a larger bona fide circulation list than any other newspaper in Lane county.

TEMPERANCE WAVE IS ROLLING ON. Temperance wave is sweeping the states of the Union and it has already gone dry in the sentiment is largely toward either high license or closing up of the saloons altogether.

WALLA IS STILL PUSHING AHEAD. Walla has placed her city in the hands of a commission that place will be made a city and an attractive resort in the city council has begun a movement to encourage home manufacturing.

PREVENTION OF THE SCOURGE OR GRIP. Grip has been widely prevailing in the United States. Many years ago when it was widely prevailing in Boston, we sent an officer to a large match factory, who found that no single person of all employed there had been troubled by the grip.

matter of pride that the manufacturing of various commodities of life has been greatly stimulated within the past year, as the possibilities for such enterprises have become apparent to moneyed men.

The money poverty in American swollen fortunedom is said to be having a most depressing effect upon the conductors of the games at Monte Carlo, who have been accustomed for years to count upon a certain average crop of American "suckers."

The market for Southern convention delegates was never more active, though most of the dealing is done under cover and much uncertainty is reported, due to disputed ownership.

Whatever else congress does or does not do, it may be set down among the certainties that it will not deprive the senators and representatives of the right to name the several thousand clerks that will be employed in the thirteenth census.

Not only has Senator Tillman got his pitchfork after the circulators of literature alleging that he had bought eleven quarters of railroad grant land, but he has asked the postoffice department to issue a fraud order against them.

Nothing wonderful about the alleged discovery of a scientist that every man has the murder germ in his blood. Now, if he could find a man who has not committed murder, of some kind, that would be really wonderful.

Those Parisian freak discoverers have uncorked a scheme by which we are to sell the Philippines to Germany. They should at least confine themselves to possibilities, if they expect to get any attention in this country.

According to good authority, when foreign noblemen marry American actresses, they invariably insist upon having the marriage settlements in ready money, not in securities. They want the stuff handy for easy spending.

And Senator Teller does not stand alone in thinking that the man with a little horse sense has the so-called technical expert backed off the boards as an intelligent witness—on battleships, or any other old subject.

"Who is the man whose nomination would be a disgrace to the party?" writes "Anxious First Voter." Why bless your innocent young heart, don't you know that? He's the other fellow's candidate, of course.

Without entering into a discussion with the lecturer who says our political parties are now only "bodies of organized office seekers," we would suggest that he specify the date they were otherwise.

If they keep on knocking the Al-drich emergency currency bill they may make a lot of folks afraid to trust it, if it ever goes up against a real emergency, so they will.

In order that the hired press agents may have a chance to earn their pay, the gas meter will have to take a back seat as a liar until after the presidential election.

Grip has been widely prevailing in the United States. Many years ago when it was widely prevailing in Boston, we sent an officer to a large match factory, who found that no single person of all employed there had been troubled by the grip.

Casey Young, member of congress from Memphis, Tenn., assured us many years ago that when the yellow fever was raging in that city he advised some dozen or more gentlemen in his offices to wear powdered sulphur in their shoes, and all who took his advice escaped the fever.

It is well known that the old practice of taking sulphur and molasses in the spring would so penetrate the body as to blacken the silver coins in the pockets of the persons taking it.

WOOD SAWING. John M. P. Dixon, successor to W. E. Boddy, All wood sawed to gauge. For prompt service phone Black 3312. Residence, 267 High street. Gasoline wood saw.

Here's your chance to make good. Special sale of boys' and girls' school shoes at Yoran's shoe store.

ONE SOLDIER DEAD. A fair young mother calmly read. While one hand rocked the cradle bed. Wherein her first-born slept away. The twilight of a summer day.

O happy mother, do you know That not so many years ago That soldier was a baby, too. With face as sweet and eyes as blue.

And other thousands also said: "Only a private soldier dead." Without a passing thought that he might one of nature's nobles be.

MY GENTLEMAN. I own a dog who is a gentleman. By birth most surely since the creature can boast of a pedigree the like of which holds not a Howard or a Metternich.

By breeding. Since the walks of life he trod. He never wagged an unkind tail abroad.

By pride. He looks you squarely in the face. Unshrinking and without a single trace.

By tenderness. The littlest girl may tear. With absolute impunity his hair.

By loyalty. No truer friend than he. Has come to prove his friendship's worth to me.

By countenance. If there be nobler eyes. More full of honor and of honest ties.

EUGENE PROPERTY WILL GROW VALUABLE. Blair street addition property is sure to double in value within the next two years.

WOODMAN MEETING. There will be a joint meeting of the Woodmen of the World and the Circle at Woodman Hall, Friday night, February 25, 1908, at 8 o'clock.
