TARGET RANGE GRAFT IS KNOCKED OUT.

Washington, Feb. 29.—A veiled charge was made by Mann in the house today during the consideration of the army appropriation bill that some government official or employee had yielded to the influence of the land syndicate with a view to selling a government tract of land near Washington D. C. for a target range. An appropriation of \$250,000 for 6,000 acres was provided for which Mann denounced as far beyond its value. He thought there had been undue temptation for somebody. He at once aroused the ire of Young, who, springing to the defense of the committee on military affairs, indignantly denied that any member of it had been approached by any one but the secretary of war or his subordinates. The provision was stricken out of a point of order. The army appropriation bill was shortly afterwards passed. The total amount carried was \$84,757,566.
