

FUNERALS OF VICTIMS OCCUPY ENTIRE DAY

Cleveland, March 6.—The body of Catherine Wheeler, one of the teachers lost in the school house fire, has been positively identified by a dentist who had worked on her teeth. There are still 23 bodies unidentified. The missing list now totals 27. A number of unidentified bodies have been found, the total list being 167.

Fully one hundred cases the funeral will be individual, each family burying its own dead. The first funeral was held this morning and they will continue throughout the day. In some instances the bodies will be grouped for funeral in one church. The bodies will be buried next Monday, according to present arrangements, and those in families where parents are unable to bear the funeral strain will be borne by public subscription, thousands of dollars being subscribed, with the list growing.

A bill has been introduced in the legislature appropriating \$25,000 for the relief of the needy sufferers, and it is expected to become a law today.

BEAVER CLUB WILL BUILD \$8000 CHAPTER HOUSE

NEW ORGANIZATION, EXISTENCE OF WHICH HAS BEEN KEPT SECRET, ANNOUNCES THAT CONTRACT HAS BEEN LET FOR HANDSOME HOME TO BE BUILT AT ONCE

Based upon the same general plan of organization as the well-known "Ivy Club" at Princeton University, the "Beavers," a club composed of men students of the University of Oregon, has been organized. The public announcement of the formation of the club was made last night. A chapter house will be constructed during the spring, the contract for an \$8,000 dwelling having been signed. All but two of the members are from Portland. The members are Earl E. Mayo, '09, Portland; Merwin Rankin, '10, Portland; William C. Calk, '10, Portland; Ormond Rankin, '10, Portland; William B. Huggins, '10, Portland; Gale Healy, '11, Portland; Fred Ohrt, '10, Honolulu, and Paul Van Seoy, '09, Eugene.

The Beavers have been organized for several months, but have kept the fact a secret until the details relating to the purchase of their lot and the construction of their chapter house were completed.

The lot purchased by the club is on East Twelfth street, back of the Patterson school, the deed having passed today. The lot is 60x150 feet in dimensions, and the purchase price was \$700. Tirrell & Hunter have been awarded the contract for the erection of the club house, which will cost \$8,000 or more when completed. It will be a frame structure, 42x55 feet in dimensions, two stories high, with basement and attic. On the first floor will be a study room, living room, reception hall, kitchen and vestibule, with a porch extending the entire width of the building. On the second floor will be seven chambers and in the attic there will be one large room. The steam heating plant will be located in the basement. The foundation will be of concrete.

When complete the new clubhouse will be one of the finest yet built and will be an ornament to that part of the city. John Hunzicker, of this city, drew the plans.

FOUL PLAY SUSPECTED IN BOSTON MAN'S DEATH

New York, March 6.—The mysterious death of Walter E. Baker, a wealthy young Boston man, last October, will be the subject of a rigid investigation. He died at the home of Frank Hurd at Bogota, N. J., having been taken sick in a restaurant in New York. He left a fortune estimated at \$500,000. Hurd's little daughter Natalia was the beneficiary under the will for \$200,000, but she never came into possession of the fortune. The will was disputed by Baker's relatives and in the meantime Natalia was stricken with scarlet fever and died.

Many peculiar circumstances caused a further investigation. The body was embalmed a few hours after death and Dr. William Boozie, who examined the viscera, reported he found large quantities of arsenic in the body.

Mr. and Mrs. Hurd left their Bogota home and are now living in New York.

GERMAN KAISER STIRS INDIGNATION IN ENGLAND

London, March 6.—Emperor William's letter to Lord Tweedmouth, first lord of the admiralty, in which it is charged his majesty attempted to influence the naval policy of Great Britain, has created a stir in England and much popular indignation. The emperor is accused of grave meddling with the British naval estimates and the reply of Lord Tweedmouth that the communication was purely personal is considered unsatisfactory, and has allayed neither the anxiety or the indignation of the public.

Officially Noticed

At the close of this afternoon's sitting of the house of commons, Chancellor of the Exchequer Asquith alluded to the episode. He said an immediate explanation seemed to be required in the public interest. Lord Tweedmouth has intimated that further information will be given the house of lords on March 9 on the question of whether the communication can be made public without the consent of the writer as well as of King Edward. The matter was taken up at a cabinet meeting this afternoon, but no official announcement of any action taken was made. The episode was the sole topic in the lobby of the house of commons today.
