LIQUOR CASES BEING TRIED IN CIRCUIT COURT

The case of the state vs. Harry Kennedy, the Japanese porter at the Hotel Gross, for volation of the local option law, came up in the circuit court this morning. The following jury was chosen: H. E. Morris, Clarence Koon, J. B. Hill, H. B. Dunlap, L. B. Rossman, Chas. Dickerson, M. B. Stone, R. Y. Porter, E. W. Michael, P. D. Newell, J. J. Peplot, M. W. Pennington. The case went to the jury about noon.

The jury was still out at a late hour this afternoon.

The next case to come up was that of the state vs. Andy Taylor, charged with the same crime.

Five jurors were chosen in the case and as the venire was exhausted a recess was taken until the jury in the Kenney case returns.

WHY HE VETOED UNIVERSITY BILL

GOVERNOR WAS NOT CONSULTED REGARDING APPROPRIATION BEFORE IT WAS INTRODUCED IN LEGISLATURE—IS TAKING NO PART IN REFERENDUM CAMPAIGN

At the informal reception given Governor Chamberlain at the Commercial Club this afternoon a reporter asked him to state his position on the referendum on the University of Oregon appropriation. In reply he stated that he had taken no part whatever in the fight against the appropriation and that he had always been friendly to the University. His reasons for vetoing the appropriation, he said, were given at that time and he thought they were plain to everybody. His great objection was the big jump from the usual appropriation to such a large sum. The governor said he would have vetoed the Oregon Agricultural College appropriation had not a number of items been stricken out and had it not been cut down considerably before it came up for a vote in the legislature.

The Agricultural College supporters took the precaution, he said, to consult with him before their bill was presented and there was a thorough understanding between them on the matter.

NEW ANTI-TOXIN FOUND.

The Germans have found an antitoxin for the "laziness germ." They claim that it will transform any man of sluggish and slothful habits into an energetic person to whom that "tired feeling" is unknown. This is the reduction of the germ theory to its logical absurdity. Germs are not the only cause of disease. Germs simply multiply in depleted or diseased tissue.—Saturday Evening Post.

Osteopathy seals the fate of germs by restoring the proper circulation of the bodily fluids that are alone capable of impairing the diseased tissue. Does it not seem like the correct and rational method?

SENATOR LA FOLLETTE ROASTS BIG INTERESTS

(Continued from Page 1.)

They had the money of the depositors of banks of every state in the Union to the amount of $500,000,000, nearly all of which was in the vaults of the big bank groups. It supplied big operators with money to squeeze out investors and speculators at the very bottom of the decline, taking in the stock at an enormous profit. In this connection the operations of Morgan and the Standard Oil furnish additional evidence of the character of this panic.

"Today we are confronted with the astounding proposition that congress shall hold out legislative inducement for the exaction of transportation charges which shall net a continuance four per cent dividend on railway capitalization. It is idle to say that this measure is limited in its scope; that it has reference simply to a limited issue of railway bonds, as security. He is blind indeed who does not see the ultimate end of a proposition which directly or indirectly raises."

He insisted that the interstate commerce commission is not empowered to ascertain the value of the physical property of the railway companies of the country, and strongly favored such a valuation as the only means of fixing railroad rates.

"When once the government invites the national banks of the country to invest in them for patriotic purposes of averting financial disaster these railroad bonds will become sacred paper.

"The good faith of the country will be pledged to defeat any legislation that suggests a disturbance of the four per cent dividends upon the stocks. The senator from Rhode Island will be heard in the solemn warning. He will be told that the bonds were bought by the banks not to make money, but to be held in readiness to protect the credit and commerce of the country; that bond markets are easily disturbed; that such security is delicate and sensitive—that legislation menacing dividends even upon grossly watered stock would alarm the holders of these bonds and force them upon a falling market at a great sacrifice, possibly producing panic and leaving the banks but partially prepared to take out emergency currency.

"Could any plan be devised which would be effective in blocking the way of legislation for valuation of the physical properties of railroads and defeating the final reduction of rates to a just and reasonable basis?"

MUCH CONCERN FELT.

Ordinary Methods for Treating Catarrh Prove Unsuccessful.

Written statistics show that an increase in catarrh have shaken confidence in the usual prescriptions to safeguard human health from the ravages of this disease.

When stomach dosing was proven ineffective, it was natural to look for some other treatment, and it is believed that in Hyomei an absolute cure for catarrhal troubles has at last been found. Inhaled with the air you breathe, its healing medication reaches every part of the nose and throat, and soothes the irritated mucous membrane so that relief is almost instant, while lasting cure is practically sure to follow.

The complete Hyomei outfit costs but $1.00, and is sold by Hull Drug Company under an absolute agreement to refund the money if it does not give satisfaction.

SCHOOL GIRLS

Most of our ambitious young American girls work too hard at school.

Many teachers have little or no judgment about pushing a child beyond her endurance. They ought to know that girls especially have a danger period. Often, too often, utter physical collapse is the result, and it takes years and years to recover lost vitality.

Many a young girl has been helped over this critical period, and been prepared for a healthy womanhood by
