

THEORY GENERALLY AC-CEPTED, SUCCESS UNIVERSAL

L. T. Cooper, whose theory that the human stomach is the cause of ill health and who created a medicine in Chicago, St. Louis and other cities, is coming with the remarkable success with his medicine throughout the east. Cooper has convinced an immense number of people that his theory is correct and this medicine will do what he claims.

The most interesting feature of the discussion this young man is making are the statements by responsible people who have used his medicine and have been persuaded converts to his belief.

Following statements of this character, by Mr. August Cooper, 1849 Rockwell Court, Chicago, is characteristic of the wide faith in Cooper, which has grown up in a comparatively short time. Mr. Wirtzner says: "I couldn't sleep up to these weeks ago. I was practically invalid for fourteen years. I think I had about all the diseases known. My stomach was weak, and at times I would have an enormous appetite, and then again none at all. Pie and cake made me sick, and I almost had a sickening feeling in my stomach. I was nervous and for weeks at a time could not sleep, and then again could sleep eighteen hours at a stretch. Sleep, however, seemed to do me no good, and I would awake tired and more exhausted than when I went to bed.

"I was constipated, had pains in my back, and flutterings and pains in my heart. I was unable to take with any regularity any of the medicines I had no ambition, and had about concluded to give up when Cooper medicine was recommended. Thanks to it, my health seems completely restored and I feel like a new man."

Cooper medicine has created the greatest sensation of anything of the kind ever before introduced.

We sell them and will be glad to explain the nature of them to our callers. Hull's Red Cross Drug Store.
