

RAILROADS MUST TREAT NEGROES SAME AS WHITE PEOPLE

Washington, April 8.—President Roosevelt has made public his letter to the attorney general, directing the latter to proceed by injunction to compel certain railroads of the South to furnish equal accommodations to white and negro passengers. The president's letter refers to the failure of certain railroad companies to obey the order of the interstate commerce commission to furnish the same facilities for colored passengers paying first-class fare that is furnished to white passengers paying first-class fare. He says the commission has taken what unquestionably is the right ground; that where special accommodations are provided for white and colored passengers the accommodations for colored passengers shall be as good as those furnished the white passengers for the same money, but that the law does not forbid separate accommodations.

The principal offender is the Nashville, Chattanooga & St. Louis railroad, and the president suggests that the attorney general proceed to enforce the order by injunction proceedings, "unless in your judgment some other course is preferable."
