I have the faith to feel that the people of the country will rise above the fallibility of judicial tribunals and assert and preserve their own rights. Throughout the world, wherever democracy is advancing, its progress is marked by a greater measure of self-government to each community. Will the American people turn to the setting rather than the rising sun? Shall we now, because some laws are called irksome by a class and interfere with their selfish aims, commence to deprive our sovereign states
