

# OBSTINATE ULCERS MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.

## S.S.S. PURELY VEGETABLE

THE SWIFT SPECIFIC CO., ATLANTA, GA.

# Oregon's OPPORTUNITY

COLONIST RATES from all parts of the United States and Canada to all parts of Oregon and the Northwest will be put in effect by

The Oregon Railroad & Navigation Co.

Southern Pacific Company  
(Lines in Oregon.)

Daily During March and April, 1908

FROM THE PRINCIPAL CITIES OF THE MIDDLE WEST  
THE RATES WILL BE AS FOLLOWS:

From	From
CHICAGO.....\$38.00	COUNCIL BLUFFS.....\$30.00
ST. LOUIS.....\$35.00	OMAHA.....\$30.00
KANSAS CITY.....\$30.00	ST. PAUL.....\$30.00

Corresponding rates from all other Eastern points. Stopovers at pleasure at all points in Oregon.

The Colonist Rate is the greatest of all homebuilders. Oregon has unlimited resources and needs more people who desire homes and larger opportunities.

Oregon people can accomplish splendid results by heralding this opportunity to all the world. Send Oregon literature giving good reliable information about the state, far and wide. Call on the above railroads for it if necessary.

### Fare Can Be Prepaid

Here at home if desired. Any agent is authorized to accept the required deposit and telegraph ticket to any point. Call on

A. J. GILLETTE,

Local Agent or address,

WM. McMURRAY,

General Passenger Portland, Or.

## THE BEE HIVE GROCERY

Has a new and up-to-date stock of Groceries, selected from the best brands obtainable

Our Coffees and Teas are selected with great care, and our cracker list is confined to the best the market affords.

As for flour, we carry the leading brands. A share of your patronage solicited.

Geo. O'B. DeBar, M. D.  
L. E. McDougal, M. D.

For the care and treatment of Medical and Surgical Cases  
Modern operating room and equipment.  
Appliances for X ray work.  
Sputum and blood examinations  
Full corps of trained nurses.  
Rates on application.

..Training School for Nurses..

Regular course of lectures by the faculty and practical training in the hospital. The medical and surgical staff of the hospital constitutes the faculty. For rates or information address **W. KUYKENDALL, M.D., Supt.**

## PIANO LECTURE--RECITAL EDWARD BAXTER PERRY

Two thousand concerts in the United States. Only American pianist who ever played at the Imperial Court of Germany--will bring with him Knabe Concert Grand Piano.

M. E. Church, Friday Evening, April 15th, at 8 o'clock

Auspices Eugene Music Club; Admission 50 cents. Tickets at

Linn's Drug Store and The Stevens & Hulin Piano House

## University of Oregon News

Dan Kelly will train under "Mike" Murphy, of the University of Pennsylvania, to re-establish his reputation in the sports. The sporting world in the East seems doubtful as to Dan's ability, or that he never ran the hundred yards in the world's record time. It is absolutely necessary for him to show that he is a 10-second man to be generally accepted throughout the United States as the foremost sprinter of America.

"Mike" Murphy is perhaps the greatest trainer in the United States. Pennsylvania students hold him above any on the Atlantic coast. An ex-Pennsylvania student at the University said that Murphy would put Kelly in shape if any man could. Murphy's strong point is training.

**Bertsch Better.**  
Ernest Bertsch, the senior who was hurt in the ammonia explosion in the chemistry laboratory, is improving very rapidly. The accident threatened to injure on eye, but Dr. DeBar, who is attending him, ward off the impending harm. Bertsch was experimenting with ammonia in a tube, which exploded, striking him in the face.

**Y. W. C. A. Lecture.**  
Mrs. Kristensen, a missionary home from China on a furlough, addressed the Y. W. C. A. April 7 on the subject "The Chinese Woman from the Cradle to the Grave."

Mrs. Kristensen left her home in Norway when nineteen years of age, and after several years of training in hospitals took up the work in China. She has been there nearly sixteen years. She and her husband are the only whites among a half million Chinese, and although they have had many narrow escapes, are very proud of their position.

**Class of 1908 Next Year.**  
Register Friday states that the freshman class for next year will probably reach 250 or over. This year one-fourth of all the high school graduates in the state came to Oregon, and next year there will be nearly 900 in the state, which should occasion the increase easily.

**McEwen Wins**  
Ralph McEwen won the novice track meet Wednesday over a horde of close competitors. Some surprises were sprung by entirely new men. True, a junior, who was an unknown athlete, winning the broad jump by a leap of 19 feet 7 inches. The meet was not conducted as first announced by Trainer Hayward, for many of the participants were far from being novices in track work. Considerable complaint was heard on this ground.

**Officers for Dorm Teams.**  
Wednesday night officers for the "Dorm" baseball and track teams were elected as follows: Baseball captain, third floor, Walter Berry; second floor, A. J. Elton. Track

**LUCIA H. YOUNG**  
Lucia H. Preston-Young was born in Pittsfield, Vermont, May 23, 1824, to Lucius and Rebecca Holt Preston. On January 14, 1856, she was married to Dr. H. J. Young, and two years later moved to Wisconsin, where two children, Carl H. and John C., were born. In 1865 they moved to Minnesota. Since she was paralyzed in 1896 she had lived with her son, Carl H. Young, and in 1898 moved with him to Oregon.

Dr. Young died at Lebanon, Oregon, in April, 1906. Her only surviving relatives are one brother and granddaughter in Minnesota, one sister in California, and Carl H. Young and family, of this city. Mrs. Young was a member of the Congregational church of Waseca, Minn.  
Funeral services will be held at 10 o'clock Friday morning at the house, 479 Pearl street.

**HARRISBURG LOCALS**  
Ed. Whitaker was at Eugene on a short visit the first of the week. Mr. and Mrs. W. N. Bucknam, of Coburg, were here Sunday last, visiting with relatives and friends for a short while.  
H. S. Norwood was down from Eugene the latter part of last week on a short business trip. He is doing quite well up there, where he has a large stock ranch rented, and his many friends will be pleased to learn that he is succeeding. He was on his way down the river, where he has a small farm.—Bulletin.

**WOOD! WOOD!**  
Maple, body and second growth fir and ties.  
**WILLIAMS TRANSFER CO.**  
Phone Black 1141.

**R. RAE, FLORIST**  
I am now ready to furnish cut flowers, also designs in any form. Also house plants and shrubbery.  
595 Willamette St.  
a11

**NOTICE**  
The "Willing Workers" will give an ice cream social at the Christian church at Marcola Saturday evening, April 18, the proceeds to be used toward buying an organ. Every one cordially invited to attend.

**MERRY WIDOW SAILORS**  
A new line of Merry Widow sailors just received at Colvin & Russell's, 61 East Ninth street.

**STOP AT THE RIVER BRIDGE**  
Bring your work to Sotherman's wagon and carriage shop. Mr. Wilkinson, the well-known blacksmith, is with him, also a first-class painter and upholsterer from the East. All work guaranteed. New rigs made to order.  
a16

**CASTORIA**  
The Kind You Have Always Used  
Beware the Signature  
L. A. DUKE & LEFFLER,  
959 Willard Boulevard,  
Phone Red 6121. Eugene.

captain, third floor, Floyd Remy; second floor, A. S. True. Managers, third floor, Chauncey Cannon; second floor, "Ted" Cooper. Meets and games will be held in May.

**Local and Personal.**  
Professor Schmidt returned from a trip to Wisconsin Tuesday, where he addressed a German convention on the University question.

S. Hamilton, Mr. and Mrs. W. S. Hamilton, Mrs. J. F. Barker, Mrs. J. E. Snyers and Mrs. A. L. Kidder, of Roseburg, visited Miss Bessie Kidder and attended the musical festival this week.

Miss Josie Moorehead, of Junction, visited the Klose Thillcum house Wednesday night, and also attended the "Golden Legend."

Professor Carl McClain returned from Portland this week.

Miss Grace Parker, matron of the dormitory, returned from a short visit in Portland Tuesday.

R. Bond, of Florence, visited his sons, Jesse and Paul, last week. Miss Hazel Bond was a visitor in Portland this week.  
Miss Schuecker visited in Portland Saturday and Sunday.

George I. M. White, of Portland, was elected manager of the freshman track team this week. It is very likely that the University of Washington freshmen will be brought here for a contest.

During the April vacation the library will be open between 8 and 12 each morning.

No rates are given by the railway company to students during the vacation.

Mr. and Mrs. Herbert T. Condon visited relative here this week. Mr. Condon is registrar at the University of Washington.

L. L. Stelwer is ill at the dormitory. He has been confined to his bed for several days, but is now better.

Miss Mada Drain, '11, is prevented by illness from attending college during the rest of the semester. Her home is in Drain.

Miss Pearl Wilbur left last week for Union, where she will visit until after the spring vacation.

Miss Blanche Huston left Sunday morning for her home in Portland. The Misses Effie and Una Smith, of Pendleton, visited their brother, Edgar, during the past week.

Sam Davidson, '11, went to Portland Friday night, returning Sunday evening.

Stephen F. Seibird, '11, has decided to leave college for the rest of the semester to take an interest in the Union Republican, of which his father is editor.

Each student who goes home during the vacation is expected to do work for the University cause. Last Wednesday a meeting of the student body was held at which plans were formed.

**LONDON SPRINGS ITEMS**  
(Special Correspondence.)  
London, April 16.—Spring with all her beauty is here and every one is busy. The farmers are finishing their late seeding and early gardening.

All nature has put on new life and every one is happy, or at least ought to be.

Grandma and Grandpa Carmichael, who have been very sick with the grippe and pneumonia, are gradually gaining.

The Shortridge sawmill has shut down and W. C. Shortridge, who has now been running it, is now running his ties to Latham, and now has 15,000 in the river.

The London Springs Association has been very busy for the last few months remodeling the hotel and bath house, and they are now in fine condition. They have just put in a new large hotel range and complete hot water system. It looks as though they mean to cook for all Lane county this summer. And they are surely prepared in their new bath house to clean them up, with steam, shower, tub and mud baths. Their bottling works are running at full capacity, and are a long ways behind with their orders, but we think they will soon catch up. Still, it is hard to tell. It looks as though the whole state may go dry.

The Black Butte mine is now doing good work and the furnace is red hot all the time, and we hope to see the quicksilver running out in big streams.

The Coast Fork grange at London Springs has been doing some good work the past winter, nearly all questions of local importance, and even woman suffrage has been and when the election comes around you will find them up to go, especially to Statement No. 1. Look out, all you fellows who are running for office.

Well, we don't hear much about hard times up here. We don't have time to grow! much, still wool and mohair have hit the bottom, or we hope it has, for we don't want to see it go any lower. Yet our goats and sheep are healthy and we will hang onto them until after election, and then if we cannot sell we can eat some of them and maybe go fishing, so we don't care much anyway, because it is leap year, and you may expect some changes. We all hope for the better. (Hurray!)

Girls, now is your time. We cannot see very far, but I will bet a dollar everything will come out all right around London anyway.

**LONDON TIMES.**  
**PURE WATER**  
For pure bed rock water see G. W. Taylor. All surface water cased off by casing into the bed rock, thus insuring nothing but pure bed rock water. G. W. Taylor, 828 Patterson street, Eugene. Phone Red 3277.

**WATER! WATER!**  
For pure bed rock water see La Duke & Leffler. We case off all surface water by casing into the bed rock, insuring nothing but pure bed rock water.

**WOOD SAWING**  
John M. F. Dix, successor to W. E. Boday. All wood sawed to gauge. For prompt service, phone Black 2312. Residence 324 High street. If gasoline wood saw.

Have your team shod at the river bridge and save 50 cents. a27

Warner tunes pianos. Leave orders at Morris' Music Store. a1

## CITY ENGINEER'S REPORT ON WATER SYSTEM

Eugene, Or., March 28, 1908. To the Hon. Mayor and the Common Council of the City of Eugene:

Gentlemen—Pursuant to request I submit the following statement of the present water works system of the city of Eugene.

An up-to-date water works system such as the people of the city demand, should have plenty of fire protection, with a pressure economical in the consumption of power, and cost of repairs, if a gravity system is employed, also an abundant supply of pure water for domestic and commercial purposes. The present plant is supplied with filters, which if provided with coagulation tanks and the proper settling basins, should deliver water to the consumer that is practically free from bacteria and sedimentation. It is stated by good authority that to be effective for filters of this type to be effective it is necessary through them to be used as a back flow in cleaning or washing the filters, when the water is free from sediment as are the waters of the Willamette river during the summer months. In time of freshets, when the water is muddy or very turbid, a back flow of 30 per cent is required to keep the filters clean and allow them to do effective work.

Filtering without coagulation and settling is not effective and does not remove the impurities from the water. The filters, under the present construction, could not be expected to do effective work, and frequently sedimentation is found in the water drawn from the service cocks, and in time of freshets the water is so badly discolored as to indicate that the filters have not been used at all, and under present construction could not be used.

The ground plan is unfavorable to the construction of settling and coagulation basins, if these were constructed it would cost \$15,000 and necessitate the relocation of the plant.

The cost of filtering water by the use of mechanical filters is variously estimated in the different cities of the United States at from \$3.50 to \$7 per million gallons. Striking an average of say \$5 per million gallons, and estimating the city to use 1,000,000 gallons per day, the cost of filtering alone amounts to \$1625 per year. It is not probable that at the present location the suction pipe across the river can be made to remain uninjured in the bed of the stream, during the winter season, the gravely bed of the river being constantly shifted by the current and will undermine any construction of pipe lines across the river; hence the only available source of supply is the river, and the present well is unavailable. It seems to have been the design of the engineer in placing the new reservoir on the highest point of Skinner's butte to get adequate fire protection with the smallest diameter of pipes now in use in the present system. This can only be accomplished by an enormous increase of friction in the pipes to get the increased velocity of flow necessary to give the city good fire protection.

When such high pressure is used at the expense of pumps and the increased cost of power or the greater expense of high pressure pipe, in a gravity system, the expense is too great to be squandered on friction in the pipes, and such frictional loss entails a daily expense as long as the system is in use, the extra expense will in a comparatively short time pay for larger pipes and the cost of a low reservoir, if it is poor economy to continue the use of so high a pressure system, not to reckon the cost for repairs. If the present intention of the city are carried out and a gravity system put in, the extra cost of pipe for so high a pressure would exceed the cost of the present reservoirs and the cost of repairs would be correspondingly greater. With a pressure such as could be maintained economically in a gravity system the pipe lines in the present system are too small for adequate fire protection, and new reservoirs and a reconstruction of the pipe lines would be necessary. The present plant has not given good satisfaction to the people. The company has employed experts in the manipulation of its plant and there is no likelihood of the city being able to get more competent men to manage the plant more satisfactorily than the present management.

The present system can only be regarded as a makeshift to be used until the city could put in a new and up-to-date gravity system.

Not mentioning the value of the real estate belonging to the company and estimating the total replacement cost to be \$112,305, and deducting \$20,650, depreciation of material and machinery by reason of age and use, and making a further deduction of \$37,000, the estimated present value of the pumping plant, reservoirs and well, would leave \$54,645, value of material which the city could use, though at a great disadvantage, in the construction of a gravity system.

G. H. WAGGONER,  
City Engineer.

**FURNITURE FACTORY**  
Having purchased the Day & Henderson furniture factory, I am now prepared to manufacture furniture upon special orders, and am prepared to fill orders for the retail or wholesale trade. Repairing work also solicited and prompt attention given same.

My prices will be found reasonable and satisfaction guaranteed in every respect.  
R. C. MORGAN.

## REMARKABLE RECORD MADE BY COOPER IN MINNEAPOLIS

The remarkable success that has attended L. O. Cooper during the past year has not been confined to any one locality, but is so widespread that the young man is now a well-known figure in most of the leading cities of the country.

Mr. Cooper believes that the stomach is the foundation for most illness, and claims that his preparation, by regulating the stomach, is a true specific for most diseases. The following extract from the Tribune of Minneapolis gives an idea of the surprising number of people who are accepting Cooper's theory. The article was one of many that appeared during Cooper's stay in Minneapolis, and is as follows:

"The sale of Cooper's preparation is now phenomenal in this city, and an estimate made today seems to indicate beyond all doubt that it will equal the large figures reported."

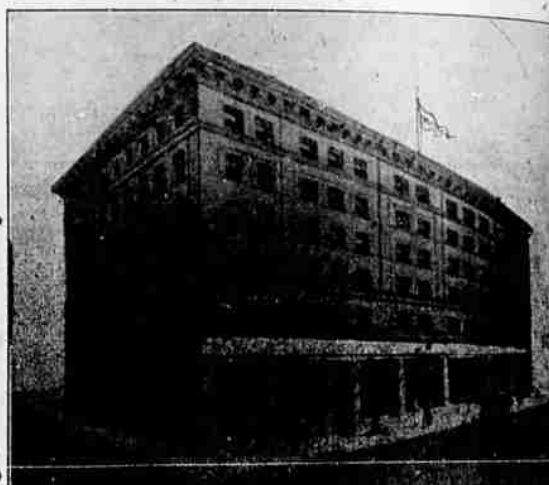

Mr. Cooper spent in that city. During the past twenty-two days he has been in Minneapolis, and the sale of his preparation has averaged about two thousand bottles a day. When the amount of bottles disposed of throughout the year is added to this, the amount is doubled. Therefore, the year has sold in twenty-two days the state of Minnesota alone, and is a truly remarkable record.

"During the past week I have been calling to thank Cooper for the good he has accomplished with his medicine, and it is safe to say that his visit will long be remembered by the sick of the city."

We sell the famous Cooper preparation which has made a record in the above wherever it is introduced—Hall's Red Cross Drug Store.
