COULD NOT WALK FOR FOUR MONTHS

Mass of Itching, Burning Humor on Ankles—Feet Fearfully Swollen—Opiates Alone Brought Sleep—Many Treatments Failed but

TORTURES OF ECZEMA YIELDED TO CUTICURA

"Cuticura Remedies are all you claim them to be. I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were one mass of sores. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times, I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema.

"I had a small lump in the corner of my eye for over a year which was very painful and got larger all the time. I thought I would try Cuticura Soap and Ointment on it, and now it is gone. I am seventy-three years old and have lived on the farm I now occupy for twenty-seven years. Cuticura Remedies are the safest and most reliable I have ever used for all skin humors. Mrs. David Brown, Locke, Crawford Co., Ark., May 18 and July 13, 1907."

DISFIGURED

For Life Is the Despairing Cry of Thousands

Of skin-tortured and disfigured victims of humors, eczemas, tetters, and rashes, who have tried and found wanting many remedies, and who have lost faith in all. To such Cuticura Soap, Ointment, and Pills appeal with irresistible force. They are absolutely pure, sweet, gentle, and wholesome. They afford immediate relief in the most distressing cases, and point to a speedy cure when all else fails.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass. Mailed Free, Cuticura Book on Skin Diseases.

LAW REGULATING CONSTRUCTION OF NEW BUILDINGS

ALL PERSONS INTENDING TO BUILD ARE REQUIRED TO SECURE PERMITS FROM BUILDING INSPECTOR—MANNER OF CONSTRUCTION SPECIFIED

By request of a number of persons and for the benefit of builders and those who are contemplating erecting buildings in Eugene, The Guard herewith publishes several sections of the new ordinance regulating the construction of business blocks:

Section 1. It shall be unlawful hereafter within the city of Eugene, without having first secured the permit hereinafter provided for, to erect or repair any building or part thereof, the cost of which within the fire limits amounts to $30.00, or if without said limits amounts to $100.00, or to maintain any building or part thereof, or any repairs thereto, constructed without such permit. Any person who as principal or agent, desires to erect such building or part thereof or make such repairs, shall present to the building inspector hereinafter provided for, a plan or other sufficient description in writing, showing the proposed building or part thereof, or repairs, and the location thereof, and shall pay the fee hereinafter provided. If the repairs sought to be made are within the fire limits of the city of Eugene, said applicant shall also present the permission provided in section 17 of ordinance 274, found on page 82 of the printed charter and ordinances of the city.

If the proposed building or repairs, or part of building in its material and plan of construction conforms to the ordinances of the city, and is fit and safe for the purposes intended, the said building inspector shall issue his permit for the erection thereof.

Sec. 4. All buildings hereafter constructed within the fire limits of Walls: All outside walls, front, rear, party and division walls, shall be solidly built of brick, stone, concrete or other non-combustible material, and all such outside and party division walls shall extend at least one foot above the roof of the building of which they are a part. The term division wall as above used shall not be held to include ordinary partition walls, but to designate a fire wall designed to separate different parts of the same building.

Dimensions of Walls: The walls above mentioned shall have at least the following thickness:

One story walls, 8 inches.

Two story walls: first story 12 inches, second story, 8 inches.

Three story walls: first story 16 inches, all upper stories 12 inches.

Four and five story walls: first story 20 inches, second story 16 inches, all upper stories at least 12 inches.

Basement Walls: If the above walls stand upon a basement, the walls of such basement shall be at least 4 inches thicker than the first story of the wall standing upon it.

Re-inforced concrete walls of 2-3 of the thickness above specified may be substituted for any of the above mentioned walls.

Footings: All the above specified walls shall stand upon a footing course built of weld laid stone extending through such course, or of concrete, such footing course shall be at least two feet thick and at the bottom at least one foot wider on each side than the wall that is to stand upon it; provided that if by reason of adjacent buildings or dif- can not be had, it may be omitted.

The foregoing requirement as to footing is intended only as a minimum requirement, and all building walls shall have footings in size and material adequate to support the building that is to stand upon it, due regard being had to the size and character of the building and the ground on which it is to stand, and the building inspector shall in all cases see that the footings are adequate.

HEIGHT OF STORIES—Height of stories for the above specified thickness of walls must not exceed

For first stories, 18 feet in the clear.

For second stories, 15 feet in the clear.

Third and above, 12 feet in the clear.

Provided, that no 8-inch wall shall be used on a story above the first exceeding 12 feet in height, and if the length of any 8-inch wall exceeds fifty feet without cross walls, solid buttresses at least 12 inches thick sholl be built into said wall every 25 feet. Top or other stories may exceed 12 feet in height, but the walls of such higher stories must be strengthened accordingly.

Theatres, halls and assembly rooms—Theatres, halls and other large rooms built separately shall have enclosing walls as folows:

If the walls are more than 15 and less than 25 feet in height, they shall be at least 16 inches thick; if 25 feet or over in height, at least 20 inches in thickness. There shall be an increase in the thickness of said walls of four inches over that above specified where the walls exceed 100 feet in length.

FIRE WALLS—No building shall be so built hereafter that a larger section of constructed contiguous buildings without fire walls shall exist than 60 feet in width, reckoned along the main street on which the buildings front. If desired there may be on each story an opening through such firewalls, but the same must be provided with fire-proof doors, so arranged as to be easily and securely closed in case of fire.

Provided, that larger widths of floors or rooms than 60 feet may be had if the buildings in which they are separated from adjacent buildings by fire proof walls of the dimensions herein provided for, and if the buildried thro said larger rooms or floors with iron columns and beams properly fire-proofed, or mill construction covered with steel lath and plaster for class B buildings.

LINTALS, COLUMNS AND SUPPORTS—None of the walls herein required shall be supported in any place on wood, but all store fronts and other openings in such walls where the wall above cannot be carried on an arch, must have iron lintals or beams supported from below, where necessary, by iron columns, inside supports may be wood protected as above stated for class B buildings.

LIGHT SHAFTS—Light shafts may be constructed in the buildings hereinbefore mentioned, but the sides and floors thereof shall be covered with tin, iron, copper or other incombustible material unless said floors and sides are themselves composed of incombustible materials. Windows opening from party or fire walls into such light shafts must be protected with fire proof shutters; provided that the building inspector may allow instead of said shutters windows made of wired glass set in metal frames.

ANCHOR IRONS AND JOIST HANGERS—Each tier of floor joist shall be securely anchored to brick, stone, or other incombustible walls, by joist hangers, anchor irons, or other device, sufficient to prevent the spread of the building, wherever conditions made such use practicable, but no anchor iron or other device shall be used that will not permit the joists to incline, if interior support is burned away, without pulling the wall.

ROOFS—All roofs of buildings within the fire limits of the city shall be of the kinds in common use known as tin, zinc, copper, slate, tiling, gravel or other fire proof composition roofing material.

INTENT OF FOREGOING—By the foregoing provisions it is intended to require within the fire limits of the city buildings as good or better than the buildings designated by insurance men as class B buildings, but not to forbid within said limits or elsewhere within the city construction of what is known among insurance men as class A buildings.

Section 6. Any person violating any of the provisions of this ordinance shall upon conviction thereof be subject to a fine of not less than $20, nor more than $200, and in default of the payment of such fine shall be imprisoned in the city jail one day for each $2 of such fine and cost, not exceeding in all one hundred days. Each day that any building or part therof, the same having been wrongfully constructed, or made, shall remain after reasonable notice to change, remove or correct the same the change, removal or correction not having been made, shall be an additional and continuing offense, subjecting the person making or maintaining it to an additional punishment of the amount first in this section provided.

PHONE SYSTEM IMPROVEMENTS HAVE BEGUN

The extensive improvements in the Pacific States Telephone Company's system in Eugene, as mentioned exclusively by The Guard a short time ago, the company having set aside $20,000 for the work here this year, have begun. A force of men is at work digging trenches in the alleys for the underground conduits for the telephone wires in the business section of the city. A carload of the conduits arrived from Portland yesterday and were hauled down town this morning. They are wooden pipes about six inches in diameter and are chemically treated so they will last well beneath the ground. From now on the company will maintain a larger force of men making the improvements mapped out for the summer.

BORN

In Eugene, April 20, 1908, to John H. Klemm and wife, twin girls.

CARD OF THANKS

We desire to take this means of thanking our friends and neighbors for their assistance and sympathy in our sad bereavement.

W. E. SUMNERS AND WIFE.

DeWitt's Kidney and Bladder Pills are prompt and thorough and will in a short time strengthen weakened kidneys and allay troubles arising from inflammation of the bladder. Sold by all druggists.

Notice of Final Settlement.

Notice is hereby given that Charles Leiter, executor of the estate of Augustine Leiter, deceased, has filed his account for final settlement of said estate, and Monday, the 4th day of May, 1908, has been set for said hearing by the county court for Lane county, Oregon.

CHARLES LEITER, Executor.

WALTON & NESS, Attorneys.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF LANE.

Clara Sumner, plaintiff, vs. Thomas Sumner, defendant.

To Thomas Sumner, the above named defendant:

IN THE NAME OF THE STATE OF OREGON:—You the hereby required to appear and answer the complaint of the above named plaintiff in the above entitled court, now on file with the clerk of said court on or before the 26th day of March, 1908, and you are hereby notified, that if you fail to appear and answer said complaint as hereby required the plaintiff will ask the court for the relief demanded in her said complaint filed with said clerk of said court, for the dissolution of the marriage contract now existing between the plaintiff and defendant and the plaintiff be given the care, custody and control of the minor son of plaintiff and defendant, to-wit: Howard W. Sumner, and for such other relief as to the court may seem just and equitable.

This summons is served upon you by order of the Honorable G. R. Chrisman, county judge in and for said Lane County, Oregon, duly made at Chambers on the 10th day of February, 1908, requiring the first publication thereof to be made on February 11th, 1908, and the last publication on the 24th day of March, 1908, and that you appear on or before the 26th day of March, 1908. 1908.

L. BILYEU, Attorney for Plaintiff.

STATEMENTS FROM PROMINENT PEOPLE IN VARIOUS CITIES

A number of statements from prominent people located in various cities where the widespread discussion over L. T. Cooper's new theory regarding the human stomach has recently waged, give an idea of the intense interest the young man has aroused during the past year. The statements are as follows:

Mr. C. D. Mitchell of 2412 Avenue C., Birmingham, Ala., has this to say with regard to his belief in Cooper's medicine: "I have been troubled with indigestion and stomach trouble for the past year. I had heartburn, bloating after eating, gas on stomach and bowels, palpitation of the heart, pain the lower part of my back and various other symptoms, and was a victim of much distress. I tried many remedies but received little or no benefit from them. I was advised to try the Cooper preparations, and did so. In one week's time I was improved wonderfully—the first relief I had been able to obtain. Mr. Cooper's medicine does all he claims for it."

Mr. J. O. Spreading of 766 South Tejon street, Colorado Springs, Colo., says: "I was troubled with indigestion for two years. It caused me a great deal of suffering and misery. I did not dare to eat meat at all, and everything I did eat soured on my stomach. I tried various remedies but found no relief. Three months ago I started taking Cooper's New Discovery, and after using the contents of three bottles I was entirely cured. I can now eat and relish anything that my appetite craves. The New Discovery is truly a great stomach medicine."

Mr. Wm. Codier of 498 Graves St., Syracuse, N. Y., is very strong in his expression of belief in the new medicine and has the following to say on the subject: "I have suffered from catarrh of the nose and throat for four years. It must have been communicated to my stomach, for all this time my stomach has given me a great deal of trouble, and caused me much pain and suffering. My stomach was often sour and my food did not digest. I was bothered by a continual desire to spit, and there was a constant dropping of mucus into the throat.

"The first relief I have been able to obtain is from Cooper's New Discovery, which I have been taking for about a week. My catarrhal condition has been greatly improved and my stomach is almost well. Mr. Cooper's medicine has benefited me more than anything I have ever used."

These statements are from reliable citizens in various communities who have tried these celebrated medicines. We sell them and will gladly explain their nature to any one interested.

METHODIST CHURCH ENJOYS PROSPERITY

In the general prosperity of Eugene the Methodist church is sharing. On Easter Sunday the 18th month expired since Rev Trimble came to the city, and the 500 mark in accessions to the church was passed at the morning service.

Easter was a great day. The audiences packed the church all day. At the morning service the choir excelled itself in the musical numbers and Rev. Trimble delivered a most convincing argument on immortality. The Sunday school gave their Easter missionary offering both at the regular session of the school and at the Easter concert in the evening—to over $100.

The Easter concert was unusually fine. The children were drilled to perfect execution. The thought of Easter lillies as prominent in the decoration and so symbolic of the day was the central theme of song and recitation.

Easter lillies, gleaming white against the glossy green background of the Oregon grape, were banked from platform to choir rail across the front of the church. On either side of the pipe organ alcove Professor Glass' masterly Easter paintings again gladdened the eyes. On the left the Easter lillies rivaled in beauty nature's own below them. On the right Easter morning became real to us—the three crosses on Calvary's hill, the dark clouds breaking away before the first gleam of the sun rising on Easter morning.

The pastor announced a special service for praise and thanksgiving for the great prosperity and advance of the church during the last year and a half, for Sunday morning, May 3, at 10:30 o'clock, at which time a baptismal service will be held and a special address given. Subject, "A Retrospect and a Prospect."
