Death Was on His Heels.

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and that death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung diseases in the world." Sold under guarantee at W. A. Kuykendall's drug store. 50c and \$1. Trial bottles free.

**COTTAGE GROVE
CREAMERY IS
BEING ENLARGED**

A Western Oregon reporter on a visit to the Cottage Grove creamery on Monday morning, found Mr. F. G. Stiller, the proprietor, daily employed in superintending the new improvements he is having made.

Nothing of the building which he purchased in January except the outside walls remains. The inside has been entirely remodeled for his business, so that there is not a neater or more convenient creamery in the West. A cement floor has been laid, and he is now enlarging the capacity of the plant, by adding a larger boiler and engine and an immense churn of 1000 pounds capacity per day. Half of his product is shipped to Portland, while the other half finds its way to Cottage Grove and the various logging camps in the vicinity.

The main building is 24x56 feet in size, but he is contemplating adding at least 30 feet to it, in which will be located a refrigerator and an ice machine. The water he uses is taken from a well that he has sunk to the depth of 32 feet and contains about 27 feet of water, a steady supply of water however for a number of miles. The ice cold and Mr. Stiller thinks himself very fortunate in being able to strike such a supply. Besides this supply he also takes the city water, but more as a protection from fire and for outside use. He has 100 feet of fire hose always ready for use attached to a hydrant, and in case of an incipient blaze on the premises, or an outbreak of fire in an adjoining building is in a position to fight it with good prospects of success of extinguishing it.

The business is not confined to turning out 1000 pounds of a prime article per day, but he also manufactures, in season, over 500 gallons of ice cream a week, all of which finds a ready market in this city. Mr. Stiller is a rustling, energetic man, and will continue to make such improvements and additions as quickly as the demand for his products make it necessary, and Cottage Grove is to be congratulated that one of its industries is presided over by a man who evidently has faith in the future of the city.

**DRAIN NORMAL SCHOOL
VS. HIGH SCHOOL**

Unless the weather interferes seriously there will be a baseball game tomorrow between the Drain Normal School and local high school teams. The unpropitious weather has not permitted much practice this week, nevertheless the local team is in good shape and hopes to win from the Normal School bunch.

Despite the frequent rains of the last few days the grounds are in fairly good shape and with a moderate amount of sunshine between now and tomorrow afternoon there should be no inconvenience caused by a wet field or slippery ball.

The game will be called promptly at 3 o'clock. Admission will be 25c and grandstand 10c extra.

**PHYSICIANS NOTE VIEWS OF
COOPER ON HUMAN STOMACH**

The following article, taken from the Pittsburg Press, describes the results of T. L. Cooper's visit to that city, and the effect of his new preparation as told by people who had become convinced of the soundness of Cooper's stomach.

Cooper believes that the human stomach in civilized races has become greatly weakened. He claims that most ill health of the present generation is due to this fact. The article is as follows:

L. T. Cooper is meeting with the same astonishing success in Pittsburg as in other cities. For the past few days many thousands of Pittsburg people have called at his headquarters to talk with him.

Cooper's prophecy, made upon his arrival to the effect that before he left Pittsburg thousands would realize that his theory is correct and would come and thank him for what his medicine had done, is rapidly being borne out.

"On Monday an astonishing number of people called to express their gratitude to Mr. Cooper. Judging from what some of these people have to say to a Press reporter, when in-

terviewed, Cooper's claim that the human stomach is degenerating is distinctly verified.

"One of the most unusual statements was made by C. W. Woods, 103 South Hyland street. He said: "For four years my wife was in very poor health. She was weak and thin with a hectic flush and a cough. Physicians said she had consumption and I was inclined to believe her. It certainly looked as though her days were numbered, and there appeared to be very little ground for hope."

Shortly after Mr. Cooper's visit Pittsburg I began to hear of wonderful results that had been obtained by persons who had tried his medicine, so I got some for my wife. She had taken it only two days when she was relieved of a late worse cough. She began to improve immediately—she gained seven pounds since she began taking the medicine. She feels splendid and looks very much better. If any one doubts my statement I would be pleased to have them call at my house and verify it."

The Cooper remedies are becoming justly famous. We sell them. Hall's Red Cross Drug Store.
