

CATARRH BLOOD UNHEALTHY SYSTEM DERANGED

The entire inner portion of the body is covered with mucous membrane. This membranous tissue is abundantly supplied with blood vessels, veins, arteries, and capillaries. Each of these is constantly supplying to this tissue or lining, blood to nourish and strengthen it and keep the system healthy. When the blood becomes infected with catarrhal matter it is not able to furnish the required amount of healthful properties, but feeds the parts with impurities which disease the membranes and tissues so that they become irritated and inflamed, and Catarrh, with all its disagreeable and dangerous symptoms, is established in the system. There is a constant ringing in the ears, a thin, watery discharge from the nostrils, the breath has an offensive odor, slight fever often accompanies the disease, and gradually the entire health becomes affected and the system upset and deranged. In its earlier stages, when Catarrh is confined to the nose and throat, sprays, washes, inhalations, etc., are soothing and in a way beneficial, because they are clearly and usually antiseptic, but such treatment has no curative effect, because it does not reach the blood. To cure Catarrh the blood must be purified, and this is just what S. S. S. does. It goes down into the circulation and attacks the disease at its foundation; it removes the cause and makes the blood pure and healthy. Then the blood vessels are filled with fresh, reinvigorated blood, which is carried to all the mucous surfaces and linings, the inflammation and irritation are corrected, the symptoms all disappear, the health is improved and Catarrh is permanently cured. NO JUNE WEDDING FOR THE STENOGRAPHER

MARRY IN THE WINTER AND SOLVE THE FIRE-BUILDING PROBLEM, SHE SAYS

"No June bride for me, thank you. That is nothing but an old chestnut, and modern folks have forgotten it. Of course, if the climate was conducive June might do, but ordinarily the only months for weddings are the cold winter months. Why? I am surprised. Why, any one should figure that out. It is simply this. The average young couple who wed are not sufficiently equipped with this world's goods to move into furnished houses and therefore there are fires to build. Take a bridegroom in the early part of married career and he will break his neck to build the fires, and if this is started in the cold months one stands a better chance to have him form the habit which will last longer than if the summer season with its lazy mornings is chosen."

"These spring millinery bills, my goodness," she continued. "They are simply dreadful, and I did not buy a Merry Widow hat either. There is only one redeeming feature about them and that is there is enough straw in one for a square breakfast for the cow. Every one has them and there is nothing individual about them. I dote on individual things. Here she thrust her hand in a dish of chocolates that was on the table, and munching one of the dainties she said: "There is so little romance in this stale life. How I wish the days would return when men were like Napoleon or George Washington. Men of today are such insipid things at best, and they think they are so men."

Just then the telephone rang and the last that was heard of the young lady who makes the typewriter carriage travel at breakneck speed when she is in good humor was: "Hello, no; Mr. _____ is out of town just now. Will you leave your number please?"

WITHIN SIX INCHES OF FATAL STREET CAR ACCIDENT

A fatal street car accident was narrowly avoided at Salem when Motorman George Pawk stopped his car within six inches of the three-year-old daughter of Mrs. I. M. Ackley, who had caught her foot between a rail and a guard rail. The girl's shoe caught between the rails. Mrs. Ackley tried to extricate the child's foot; but the motorman supposed she was trying a shoe lace and gave no heed. When within 30 feet, and going at considerable speed, he realized what the trouble was, reversed his power and avoided taking the life of the child. It was necessary to remove the child's foot from the shoe in order to free her.

OLSEN IS SENT TO STATE PRISON

Oregon City, May 5.—Otto P. Olsen this morning entered a plea of guilty to the charge of forging the name of Rudolph Koerner to a promissory note in favor of H. C. Stevens for \$250, and was given an indeterminate sentence by Judge McBride. Under the statute upon which the indictment was based the penalty is not less than two years in the state penitentiary nor more than 20 years, and it is usual for the governor to pardon a criminal serving an indeterminate sentence at the expiration of the minimum time. In case Olsen proves a model prisoner he will probably be released in two years. Olsen's attorney, George C. Brownell, presented a lengthy statement from Dr. House, a Portland alienist, in which it was stated that Olsen's mind was such that he could not distinguish between right and wrong. In passing sentence Judge McBride reviewed the case briefly, expressing sympathy for Olsen's family. Olsen will be taken to Salem this afternoon.

HETTY GREEN JOINS THE NEW YORK ARISTOCRACY

New York, May 5.—No more of the simple life for Hetty Green, the richest woman in the world. From a \$19 a month flat, she has moved into a \$30 a day apartment in the New Plaza hotel, recently completed at a cost of \$12,000,000, and henceforth she will be surrounded by all the luxuries that are enjoyed in New York's magnificent hostelry. Rumor has it that she is ambitious to enter the "400" and shine with the elite. It is further reported that Mrs. Green has bought her first silk dress and that she is contemplating the purchase of an automobile. Instead of continuing her custom of eating meals that cost a few cents a day, she will now pay big prices for dishes with funny names, as guests of the New Plaza are wont to do.
