

DOCTOR ADVISED USE OF CUTICURA

After Other Treatment Failed—
Eczema in Raw Spot on Baby
Boy's Face Lasted for Months—
Cried with Pain when Washed.

**ECZEMA WAS CURED AND
HAS NEVER REAPPEARED**

"Our baby boy broke out with eczema on his face when one month old. One place on the side of his face the size of a nickel was raw like beef-steak for three months, and he would cry out when I bathed the parts that were sore and broken out. I gave him three months' treatment from a good doctor, but at the end of that time the child was no better. Then my doctor recommended Cuticura. After using a cake of Cuticura Soap, a third of a box of Cuticura Ointment, and half a bottle of Cuticura Resolvent he was well and his face was as smooth as any baby's. He is now two years and a half old and no eczema has reappeared. I am still using the Cuticura Soap; I think it is the finest toilet soap I ever used. I keep my little girl's hair and face cleaned with it too. I am so thankful for what Cuticura has done for us. Mrs. M. L. Harris, R. F. D. 1, Alton, Kan., May 14 and June 12, '07."

UNIVERSITY REGENTS MAKE AN APPEAL

SUBMIT REASONS WHY MONEY IS NECESSARY — DEFICIENCY LAST YEAR MET BY POSTPONING ALL IMPROVEMENTS AND INSTRUCTORS DID WITHOUT PORTION OF THEIR SALARY

Office of the Board of Regents of the University of Oregon, Eugene, Or., May 11, 1908.—To the People—Based upon estimates submitted to the proper committees, the last legislature by more than two-thirds vote passed an act appropriating \$125,000 annually for the support and maintenance of the University of Oregon, and for the construction and furnishing of additional buildings, purchase of equipment, etc. A referendum has been invoked on the bill, and it will be submitted to the voters at the coming election in June for approval or rejection. In view of these facts the regents have thought it best to make the following statement: Since 1901 the University has depended for its resources upon the annual appropriation of \$47,500, carried by the act of that year, together with the interest of the University fund, incidental fees and interest on the Villard fund, amounting to about \$10,000 a year, and special appropriations from time to time. The act of 1901 was intended, with the revenues from other sources, primarily to cover the necessary current expenses at the time of its adoption. It has been necessary to supplement the amount thereof from time to time by special appropriations, that of 1905 being \$65,000.

Merge All Appropriations. The purpose of the bill now pending is to merge in one act all appropriations. The amount thereof is based on careful and what is believed to be conservative estimates, and in the opinion of the regents is necessary to bring the University up to and maintain the standard of efficiency which the educational interests of the state require. The bare cost of maintenance is now approximately \$75,000 a year. Additional instructors are needed in several of the departments, which will bring the amount for maintenance up to \$85,000 or \$90,000 a year. The library, which touches all departments alike, will require an annual expenditure of at least \$10,000 for some years to bring it to the proper standard of efficiency.

Provision should be made immediately for the accommodation of the women of the University by furnishing and heating the present cottage and by the construction of additional cottages or a general dormitory. This, it is estimated, will take about \$50,000. New buildings are needed for class, laboratory and recitation purposes at a cost of approximately \$75,000. The heating, power and water plant must be enlarged, at an expense of \$10,000 or \$15,000, to meet the demands upon it for heating, irrigation and fire protection. As soon as funds are available the campus should be enlarged to meet present and future needs, by acquiring additional grounds by purchase, if a satisfactory price can be obtained, and if not, by condemnation.

These several items will cost from \$125,000 to \$150,000, and together with other developments with the growth of the University, will absorb the entire amount carried by the present bill and all additional revenues, over and above the expenses of maintenance, for a number of years to come.

This covers in a general way the needs of the University, as we see it, and the use to be made of the proposed appropriation.

There is another matter which should be alluded to. The invoking of the referendum has restricted the University since January 1, 1907, to the annual amount appropriated by act of 1901, and about \$10,000 a year from other sources, making a total of about \$60,000 a year, which has been inadequate to pay the expenses. The deficiency was met last year by the board postponing all improvements, purchase of furniture, additional apparatus and the like, and by part of the faculty voluntarily foregoing their salaries for the last quarter of the year, relying upon the approval of the pending bill or subsequent appropriation by the legislature for their payment. The salaries and incidental expenses for the present scholastic year will amount to at least \$50,000, to meet which there is an appropriation of \$47,500, interest on Villard fund, \$2200, or a total of \$54,700. At the close of the present scholastic year the University will therefore be practically without funds, and as the law absolutely forbids the regents or faculty from pledging the faith of the state for the University, in excess of the income for the current year, it is not apparent how it will be able to open its doors next fall if the pending appropriation is defeated.

We may add that the regents receive no remuneration whatever for their services, but realizing in the discharge of their duties in administration of the University they are but servants of the people, they present the facts for the consideration and final determination of the voters, without argument.

SUPPORT FOR HIGHER EDUCATION IN OREGON.

(Jacksonville Post.)

One of the beauties of the referendum as demonstrated in the experience of Oregon is the embarrassment into which that device has enabled a few narrow-minded cranks to plunge the University of the state. That institution has apparently never been treated as it ought to be treated. It has been getting only about \$47,500 a year, and with this ridiculous sum it is undertaking to care for about 400 students, practically all from families of moderate means; for those who can afford it, rather than send their sons and daughters to an institution so handicapped by stinginess and shortsightedness, naturally send them to well equipped universities and colleges in other states. The result is that Oregon sends to institutions beyond its borders in proportion to its population more of its young people than does any other state in the Union. That it retains only those who cannot afford to go elsewhere is indicated by the fact that 60 per cent of the boy students of its university and many of the young women are working their way through, supporting themselves in order to get the education they want. The only way the University can make both ends meet is by doing without really necessary equipment and by paying its faculty less than any other state pays. But it has only placed at their disposal the meager instruction and equipment which less than \$50,000 a year affords. It robs them, under false pretenses, of a certain part of the years they spend there by giving them short measures.

The last Oregon legislature and the thoughtful people in Oregon evidently recognized the folly of exciting and detaching the sympathies of these young men who desired a higher education and could afford to get it elsewhere, and of denying the best to the more earnest and ambitious but less well-to-do. For the last raised the annual appropriation to \$125,000, a niggardly sum, to be sure, but almost three times better than what had been previously allowed.

At this point, however, the referendum "got in its heels." A group of ignoramus whose conception of the value of education evidently begins and ends with the three R's, took advantage of the referendum law to demand the submission of the University bill next June, although at that time it is probable the law will be overwhelmingly approved.

This is another example of the mischief a small group of cranks can make with the referendum as their instrument. The wisest of laws and those of most pressing importance can be suspended for months and then subjected to the attack of a band of enthusiastic and organized fanatics who the sober-minded trust blindly to the common sense of others.
