TWICE CURED OF SKIN TROUBLES

First Case a Rash Which Itched and Stung—Threatened Ten Years Later With Blood-Poison in Leg—But Both Times the Sufferer's

RELIANCE IN CUTICURA PROVED WELL-FOUNDED

"About twelve or fifteen years ago, while living in West Virginia, I had a breaking-out, and it itched and stung so badly that I could not have any peace because of it. I saw three doctors and they did not agree on what it was, so one of them gave me something that he called medicine, but I called it soda water. I might just as well have washed in rain-water. Then I got some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything. About two years ago I had a grippe and pneumonia which left me with a pain in my side. Treatment ran it into my leg, which then swelled and began to break out. It got in pretty bad shape, so I went to a doctor. He was afraid it would turn to blood-poison. I used his medicine but it did no good. So I sent for another set of the Cuticura Remedies. I used them three times and cured the breaking-out on my leg. Now I won't be without Cuticura. J. F. Hennen, R. F. D. 3, Milan, Mo., May 13, 1907."

OREGON EASTERN WILL BE BUILT WITHOUT DELAY

On the authority of E. H. Harriman himself it is said that the financing of the Union Pacific system's needs for extensions and improvements will not require the sale of more than \$50,000,000 of its proposed bond issue at the present time. Of that amount approximately \$44,000,000 will be needed for work in Oregon, California, Idaho and Washington, says the Oregon Daily Journal. The stockholders have favored these expenditures, and there is no further doubt that the extensions will be made as soon as the bonds can be marketed.

The company wants to put its men to work and keep up with the phenomenal growth and progress of the Pacific states, says Mr. Harriman. He declares that the financial requirements of the lines he represents have been exaggerated, and that there will be no need for more than half of the proposed \$100,000,000 bonds authorized.

The extension of the Oregon Short Line from Huntington along the route of the Snake river to Lewiston is already financed as far as Homestead by the trust company that controls the Iron Dyke mines. The Short Line will have to furnish money only for the building of the road north from that point to Lewiston. Construction work is now being pushed on this route north of Huntington, and tunneling is in progress at Ox Bow mountain, a short distance south of Homestead.

Retaliates on Hill
The Puget Sound line, which will be built among the first projects started, as a natural measure of retaliation against Hill's invasion of Oregon, as well as because practical business requirements make this line a necessity to maintain the prestige of the O. R. & N. Company.

There has been enough money already spent on the Coos Bay extension to make it a certainty that this road will sooner or later be built by the southern Pacific. Materials have been stored at Drain for the construction of the first division, and there has been a lot of work done on two or three tunnels through the

AUTO TRIP UP FROM PORTLAND

G. J. Rees and wife, of Portland, arrived in Eugene this forenoon in their automobile, having started two days ago from the metropolis. Owing to the muddy roads they made rather slow time, but the trip was rather pleasant, very little rain falling on them en route. Mr. Rees is a real estate dealer in Portland and made this trip to look for a number of suitable tracts of land for fruit. He and his wife went to Cottage Grove on the train this afternoon to visit relatives there a day or so and will be back to Eugene to start on their return trip from here.
