## SCHOOL GIRLS

Most of our ambitious young American girls work too hard at school.

Many teachers have little or no judgment about pushing a child beyond her endurance. They ought to know that girls especially have a danger period. Often, too often, utter physical collapse is the result, and it takes years and years to recover lost vitality.

Many a young girl has been helped over this critical period, and been prepared for a healthy womanhood by **LYDIA E. PINKHAM'S VEGETABLE COMPOUND**

Miss Elsie L. Hook, of Chelsea, Vt., writes to Mrs. Pinkham: "I am only sixteen years old, but I want to tell you that Lydia E. Pinkham's Vegetable Compound and your advice cured me of sideache, periodic pains and sleeplessness, also of a nervous, irritable condition after everything else had failed, and I want to thank you for it."

**FACTS FOR SICK WOMEN.** For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it? Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

## HARTOG TELLS OF FIESTA AT FLORENCE

(Continued From Page One.)

her pink costume and green velvet robe, while her maids were all in white.

"With the opposite bank and sparkling Siuslaw for a background, the barge and the gaily decorated launch and rowboats made a picture well worth coming miles to see.

"The crowning ceremonies over, the boats went on parade and the committee on awards gave the first prize to the boat of the Florence high school.

"The queen and party then marched to the Odd Fellows' hall, which, though packed to suffocation, could not hold one-half of the people.

"After a song on gentle spring (which made me smile, thinking of the all but gentle springs of the stage), I was introduced, that is, what there was left of me, and did my little stunt.

"The accident to the stage naturally gave me a clue to emphasizing the needs of a decent road and as I was told that there were a good many present who were not favorable to the U. of O. appropriation, I had a splendid chance to call the audience's attention to the absurdity of booming the Siuslaw country with a splendid flower fiesta and then knocking it all into a cocked hat by going on record as opposed to higher education and the support of a state's institution of learning.

"Some more music and then off to the queen's dinner, each of the guests of honor escorting a fair maiden, the Poet of the Sierras leading with the beautiful young queen.

"In the afternoon a couple of hours were devoted to very interesting exercises by the pupils of the schools, the scarf dance by a dozen young women, the butterfly dance by a bevy of little tots, and the recitation by Ruth Knowles standing out particularly as deserving of great praise.

"After the hall was cleared, the political nominees gave a joint debate to another audience.

"All in all, the carnival was a decided success and leaves pleasant memories, and Miss Hamble, principal of the F. H. S., has reason to be proud of the way in which her program went off like clock work, without a hitch."

**"A HOLD UP."** (Weston Leader.) In The Leader's view the enemies of the University of Oregon who held up its appropriation by means of the referendum, have not a leg to stand on. Therefore their wobbly efforts to stand without a leg, would merely arouse a laugh were it not for the serious harm they have already done the university cutting off its resources, and the state by advertising it abroad as a benighted commonwealth. The appropriation is not excessive. It is less per student than other states appropriate without a murmur from the populace. The school costs the man who pays taxes on \$4000 just \$1.00 annually, and others in proportion. Can Oregon afford to do without it when universities have become established factors in the educational system of the sisterhood of states? Should we turn back the clock a century or so? Only the man who is opposed to all state schools may logically answer "aye." We trust there are few such in the state and none in the community of Weston.

**TAKING NEWCOMERS FROM OREGON.** (Oregonian).

It is easy to see the force of the argument being used by Washington immigration boosters for the purpose of turning homeseekers from Oregon to Washington. They remind the newcomers that Washington has appropriated \$475,000 for its Agricultural College for the present biennial period, while Oregon has held up an appropriation of \$125,000 for its State University. The idea conveyed is that better educational facilities are offered in Washington than in Oregon, and that the former state is therefore a better one in which to locate.

Without waiting to see whether the people of Oregon shall approve or reject the appropriation, the mere fact that the bill has been held up under the referendum is made the basis of a comparison in favor of the sister state on the north. As a large majority of the newcomers are people with families, the educational argument is one which appeals to them with peculiar force.

It has been remarked heretofore in these columns that a city can scarcely hold out a more attractive inducement to homeseekers than the maintenance of a free high school. Every man with a family of children desires to locate within reach of good public schools, and, in fact, most men will refuse to locate where such schools cannot be had.

While the local school facilities are of the greatest influence in determining the choice of a home, the advantages offered in the way of state institutions for higher education are also effective considerations. The institutions reflect, in a large measure, the attitude of the people toward education, and, while extravagance is not to be advised merely for the purpose of making a showing, in the present instance, when the question is whether the appropriation shall be approved or rejected, there should be no hesitancy in deciding what should be done. Even if it were

admitted, for the sake of argument, that the appropriation is a little too large, there still remains the fact that to vote down the appropriation will create an erroneous impression as to the attitude of the people of Oregon toward higher education. Action of this kind would afford immigration agents of adjoining states an opportunity to make comparisons adverse to the interests of Oregon—

an opportunity of which they will be expected to take advantage.
