PET CITY IN SHAPE FOR COMING OF VISITORS ON JUNE 24

Residents of this city should devote all next week to cleaning up their premises, mowing the lawns and cutting the grass along the streets. Everything should be put in the best possible shape before commencement week, which is to be a great event in the history of Eugene this year.

Commencement day proper at the University this year will be signaled by an excursion from Portland, the party being made up of the most prominent men of the metropolis. There will be also the usual crowd of commencement visitors, and in addition several hundred school teachers from every part of Oregon, gathered here for their state association.

Probably never in her history has Eugene entertained so many strangers as will be here next week, and the city should be thoroughly cleaned and made to look as attractive as possible, through the combined efforts of the city officials and the citizens in general. It is essential, therefore, that the work should not be put off until the last moment, or that an attempt should be made to accomplish it in a single day. Begin next Monday and keep it up every day until not a street, alley or lot has been overlooked, and show our visitors the cleanest and prettiest city on the Pacific coast.

MAIN TALK FOR THE CIGARETTE FIEND

Our readers will pardon us if we use a little slang in expressing our views of the victims of cigarettes. Say, you young kid, you're a nice little fellow with that cigarette under your nose, ain't you? You're the kind of a snit, snit, snit, snit piece of a boy, all weakness and moral imbecility, which the toughs take as an opportunity to educate in the deep, dark mysteries of how to be bad. You are marked as a little fool by every decent man who sees you, and every time you indulge in the foolish and harmful habit you are lessening your opportunity of being smart respectable. You want to be smart but you know it isn't smart, nobody thinks it is smart. If you go into a strange town your cigarette spots you as a little hoodlum and you will have to do a lot of good things before you can convince any one that you are worth having. It impairs your health and ruins your reputation and makes a contemptible monkey out of what might be a respectable boy. Your friends are ashamed of you if you are far enough along in your habit you glory in your shame and stick to it through pure cowardice. You ought to be transformed, but your mother hasn't given you no job and wants you near her as you are. Nobody respects you, nobody admires you. You are the blossoms that yield the fruit of idleness and shame; you are the sprout from which a worthless man will grow in time. You ought to quit it and you know and you ought. Why don't you?

REASONS WHY EUGENE SHOULD HAVE DIRECTOR

The citizens of Eugene and Hamilton county have an opportunity now to receive the benefit and distinction of being a "directory city." B. L. Park & Co. are now working on a directory to be named this year in September and thereafter a new edition will be issued in January of each year, beginning with 1910. The citizens give it the encouragement and recognition it deserves. The benefits to be derived from a directory are many. In a city like Eugene and Hamilton county it is not only a necessity to direct business in locating our people, but it is also a great convenience for everybody to be able to find others referring to the directory. The business or professional man is most valuable from the fact that scarcely a day passes that he does not need to refer to it for the address of some customer or agent. The directory also contains the names and addresses of every business in the city, and with the receipt of your subscription, which is valuable as a reference in all business transactions. By having an annual directory it will give us the satisfaction of having an annual volume, and to be known as a "directory city" should be a source of satisfaction to every resident of Eugene. Believing it to be a good thing for the city, the Commercial Club, at its last meeting, endorsed the directory proposition and urged upon the community the necessity of aiding it in every way possible.

At last a matter of gold has been discovered in a veiniform deposit, but judging from the usual way it is not necessary for the physician to find gold there, but this need not be taken as an indication that the veiniform deposits will become popular as a receptacle for money, nor that the doctors will peddle their lives on the chance of getting their pay on opening up the veins, which has all along been considered by the medical profession as absolutely worthless.

They are manufacturing an article for the temperance people of Georgia called near-beer, and it is understood that the stuff produces a sensation something very like a near-drunk. But what's the difference between the real article and an imitation of this sort, we'd like to know? Perhaps we may be able to find out in the near future, since the Roseburg brewery intends to manufacture the Georgia product and place it in the market in the "dry" counties of Oregon.

The last wonder story from Texas is to the effect that a man down there has a front yard with 600 acres in it. It may be assumed that he doesn't get the lawn mower out and cut the grass before breakfast, and that fellow had better be careful or Henry will go down there and get after him for stealing the public domain.

By marrying his first wife's mother, an Oakland, Cal., man has become his own son-in-law, which causes a fascinating exchange to remark that he can now strike the paternal head of the family for money without the fear of being turned down.

David H. Hill says Texas has killed the Democratic party, but most persons will differ with him in his conclusion. The party is no longer dead, although the leadership of such as Hill has been nearly entirely lost. As things now look it seems reasonably certain that the next president will weigh more than any other points, and in our mind are already being worn down by the persistent referring to him as "the imbecility."

The way to build up the industries is to give preference to when buying to Eugene-made goods. For example, don't buy anything but a Eugene-brown, this factory being the latest to begin business here.

To demand the use of more civility in the making of millionaires is only another way of demanding lower millionaires, and in that all those who have got there will heartily concur.

With all the sentiment for anti-machine laws our statesman has made a great mistake by introducing a bill to stretch one of the greatest

THE YOUNG ASTRONOMER

Said Dick, "To this Astronomy is something very queer; It says a day on Jupiter is as long as our whole year. I'd like to spend my school days here, And then, on Saturday, go flying off to Jupiter, And have a year to play!" C.F.L.

GAMBLERS ON EARTH—THE MATRIMONIAL LOTTERY.

More diplomacy and fewer threats on the part of Sam Gompers would doubtless largely increase the chance organized labor has to get the congressional legislation it has asked for.

Lady prohibitionists now have a new problem confronting them—to ascertain how, in the absence of booze, trolley cars get intoxicated while at "the lodge" or sitting up with a friend.

Naturally, Ohio Michigan Judge who handed down a decision in which he decided a whiskey to be one of the necessities of life last week, for other purposes or votes from the people.

It's dollars to Johnson buttons that "Toby" could make a good guess at the wording of every important plank in the Chicago platform.

On the whole it's much better, either for a country or an individual, to be busy dodging trouble than to be busy borrowing it.

SHOE SHOP IN COBURG

E. P. Shinn has opened up a first-class shoe shop in Coburg. All work guaranteed. Bring in your job work. d&wt

Wallace, Idaho, is the first town west of Omaha to see one of the new "disciplined" zones. A lady walked down the streets of one of the zones Sunday dressed in one of the zones that has not the world talking. No one knew her and no one found out who she was according to reports.
