INSTANT RELIEF OF ITCHING HUMOR

Limbs Below the Knees Were Raw—Feet Too Swollen to Get Shoes On—Sleep Completely Broken by Intense Itching and Burning—Well in Two Days and Says That

CUTICURA IS AMONG HIS HOUSEHOLD GODS

"God bless the man who first compounded Cuticura. Some two months ago I had a humor break out on my limbs below my knees. They came to look like raw beefsteak, all red, and no one knows how they itched and burned. They were so swollen that I had to split my drawers open to get them on and could not get my shoes on for a week or more. I used five or six different remedies and got no help, only when applying them the burning was worse and the itching less. One morning I remembered that I had a bit of Cuticura and tried it. From the moment it touched me the itching was gone and I have not felt a bit of it since. The swelling went down and in two days I had my shoes on and was about as usual. I only wish I had used the Cuticura Remedies in the first of my troubles. They would have saved me two or three weeks of intense suffering. During that time I did not sleep an hour at a time, but was up applying such remedies as I had. Henceforth the Cuticura Remedies will be among my household gods, rest assured. George B. Farley, 50 South State St., Concord, N. H., May 14, 1907."

FOR BABY RASHES

Eczemas and Irritations, Cuticura is Worth its Weight in Gold. The suffering which Cuticura Soap and Cuticura Ointment have alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless for the skin and scalp. Infantile and birth humors, scalded-head, eczemas, rashes, itchings, chafings, and every form of itching, scaly, pimply skin and scalp humors, with loss of hair, are speedily, permanently and economically cured.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults, consisting of Cuticura Soap (2c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Itching, and Cuticura Tablets (25c.) (or in the form of Chocolate Coated Pills, 25c. per box) to Purify the Blood. Sold throughout the world. Foster Drug & Chem. Corp., Sole Proprietors, Boston, Mass.

SUPERINTENDENT ALDERMAN SUBMITS ANNUAL REPORT

RECOMMENDS WORKSHOP FOR PUBLIC SCHOOLS—COMMENDS ACTION OF DIRECTORS IN ESTABLISHING SEWING AND GARDENING CLASSES AND MILITARY DRILLS.

At yesterday afternoon's annual meeting of the voters of the Eugene school district Attorney S. D. Allen was elected director without opposition, only 49 votes being cast. Chairman F. W. Osburn, whose term has expired, is succeeded by Dr. W. L. Cheshire, who will preside over the board of directors for the next five years. At the meeting of the directors after the election the board authorized the purchase of 300 more seats.

Superintendent's Report

Superintendent L. R. Alderman submitted his annual report, which is as follows: Eugene, Or., June 13, 1908. To the Honorable Board of Directors of the Eugene Public Schools: Gentlemen:—As the school year is now ended I beg leave to make the following report:

We have had a total registration this year of 1835 pupils, as against a total of 1445 for last year, an increase of 390. Of the 1835 registered 875 were boys and 961 girls. There has been 215,914 days' attendance as against 192,235 for last year. We have had 7323 days absence, as against 7595 for last year. This falling off in the days' absence is accounted for in some degree at least by the fact that he has a truant officer and a compulsory attendance law.

During the year three grade teachers and two high school teachers have been added to the teaching force. It seems probable that two more grade teachers will have to be added at the opening of the schools in the fall.

We have introduced sewing for all the girls in grades above the third. This has been brought to pass by the accomplished and self-sacrificing ladies of Eugene, who, without pay, have gone into the schools and taught the sewing, after first receiving instruction from Mrs. A. C. Terrill. The sewing has not only been highly appreciated by the girls and their parents, but has also given them a better idea of the importance of practical things.

While the girls were taking the sewing on Mondays after recess in the afternoon, the boys were given military drill under the direction of Mr. Robert Huston, Mr. Neal and Mr. Kerr. Mr. Huston has served without pay and deserves the thanks of the district for his interest and labor. This drill work has given the boys an incentive for standing straight, and has taught them the importance of obeying commands when given by the proper authority.

The seventh and eighth grades have been organized into agricultural societies and have gardens which are run on a commercial basis. I invite the board of education and the citizens of Eugene to visit the gardens and note the work of the pupils. This work has been enjoyed by the pupils and teachers alike at the same time. It has given the pupils a truer idea of the dignity of labor. It has also demonstrated by the pupils that they can convert their time into money.

All the children, save the smallest, have been encouraged to do carpentering work at home. This work to a large degree took the form of bird houses. The interest taken in this work by the pupils convinced me that wood working shops should be put into each of the school buildings.

I wish to commend the principal and teachers of the high school for introducing self government for the control of the students of that school. This has worked well, and in my opinion can be extended even more. This has a strong tendency to make the pupil realize that he is responsible for his own acts and thus make him a better citizen.

The hearty co-operation of the school board, the people of Eugene, the teachers and pupils, has made the school work very enjoyable and profitable. As a consequence, a large per cent of those who have taken the state examinations and the grade tests have passed successfully, which proves to my mind that it is interest and not time only that counts in school work.

I wish to call your attention to the fact that we need larger school grounds for the grade buildings and a gymnasium for the high school. The gymnasium might well be a Y. M. C. A. and a Y. W. C. A. building, if the same were placed near the high school. There has been some talk of placing such a building on Willamette street, between the Methodist and Christian churches. I hope the school board will encourage this enterprise as much as possible.

Very respectfully,
L. R. ALDERMAN.

IF YOU KNEW The merits of the Texas Wonder you would never suffer from kidney, bladder or rheumatic trouble. \$1 a bottle (two months' treatment) sold by O. J. Hull, or by mail. Send for testimonials. Dr. E. W. Hall, 2926 Olive street, St. Louis.

DIED

In Eugene, at 7:20 p. m. June 15, 1908, Rev. A. M. Sweeney, aged 66 years, 7 months and 8 days. He leaves a wife, six sons and one daughter.

A CORRECTION

The fact that Miss Mary Belshaw's name was inadvertently published in the list of this year's graduating class of the high school has again given rise to the thought that she has just completed her course. As a matter of fact Miss Belshaw received all her credits in 1907, and has this year taken the freshman year at the University.

L. R. ALDERMAN,
City Superintendent.

Thinks It Saved His Life.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery for years for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung troubles, and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has been at the head of throat and lung remedies. As a preventative of pneumonia and healer of weak lungs it has no equal. Sold under guarantee at W. A. Kuykendall's drug store, 50c and \$1. Trial bottle free.

For ice savers and the only sanitary refrigerator made, the White Frog has no competition. This refrigerator is made of steel, tubular in construction, shelves turn so every dish can be handled without reaching over another dish; does not warp like the wooden kind. Campbell-Fellman Company, the housefurnishers, are exclusive agents for these refrigerators.

OSTEOPATHS DESERVE CONFIDENCE

Make Certain That Your Doctor is A Real Osteopath, Holding the Diploma of a Reputable Osteopathic College and a License to Practice in Your State, and Then Go Ahead.—Results Prove the Worth of the Treatment.

The sufferer who contemplates taking Osteopathic treatment should begin by making sure that the physician, in whose hands he places his case, is a real Osteopath; for unfortunately, there are rank pretenders who have no knowledge of the science worthy of consideration. In most cases these are men who have never had any training at all worthy the name. But here and there is also found an old school physician who, without ever having been within the portals of an Osteopathic college at all, pretends to a knowledge of the subject which it has taken the real Osteopath three hard years of schooling and practice to master. It is gratifying to note that this latter is a rare exception, as most good medical men admit ignorance of the subject, and frequently send their patients to qualified Osteopaths when it seems advisable in their judgment to do so. Every patient should, to begin with, make certain that his Osteopath holds the diploma of a reputable Osteopathic college, and a license to practice in your state; and this, having been ascertained, treatment may be accepted with perfect confidence.

There is every reason in the world why the confidence of sufferers should be given to qualified Osteopaths without reserve. Osteopathy is no longer an experiment. It constitutes the regular means of treating disease that is in use by 4,000 physicians, practicing in all states and territories, in Great Britain, Hawaii, China and Japan. The course of training through which an Osteopath now has to pass before receiving his diploma is an arduous and extended one, covering three year's personal attendance with nine month's solid work in each year—a total expenditure of time and attention, fully equal to that required by the best medical colleges. The Osteopath is fully and thoroughly equipped in every study that is involved in healing work with the single exception of materia medica, which he does not use at all. In anatomy he has a training that is not equalled by any other physician; and his special system of treatment, conforming as it does, entirely to Nature's laws, simply endeavoring to help Nature with her work, is so simple, rational and manifestly incapable of harm in competent hands, that it should commend itself to all. It can only be added that the system has been recognized by legislative enactment in the great majority of the states of the Union, that it is proving itself anew every day, and that those who endorse it are those who have received the treatment and who know whereof they speak. A man or woman who suffers from bodily ailments has no occasion to despair if an Osteopathic doctor has not been consulted; for Osteopaths not only are scoring great success with all kinds of curable diseases, but are even recording complete recoveries in cases described by other schools as incurable. Any good Osteopath will tell the patient exactly what he finds and give him a definite idea at once as to whether cure is possible or not.

Notes:—The Osteopath mentioned below has thoroughly qualified in every respect.

PARK STREETS ORDERED PAVED BY CITY COUNCIL

ORDINANCE PASSED LAST NIGHT FOR THE IMPROVEMENT—VARIOUS OTHER MATTERS OF MORE OR LESS IMPORTANCE ATTENDED TO BY CITY FATHERS.

At last night's meeting of the city council more paving was ordered, an ordinance being passed to improve all the park streets in that manner.

The street committee reported on the grading and graveled of the streets ordered improved in East Eugene. The street committee and city attorney were given power to act in the matter of preventing contractors from injuring the streets by mixing concrete and dumping gravel on them and the attorney was instructed to prepare an ordinance regulating this manner.

In the matter of sprinkling the streets a proposition was made by the Eugene Transfer Company, which owns the sprinklers, to sell them to the city. The offer was taken under advisement. It was moved and carried that the city buy a team to be used exclusively for street sweeping, and other street work.

The sewer committee reported the completion of a short sewer between Oak and Pearl streets, and the bill was paid, less the usual retainer.

The council passed a sidewalk ordinance providing for the obtaining of a permit and the proper grades from the city engineer.

The assistant driver, C. Fletcher, was allowed \$10 for extra work in sprinkling the streets.

The city engineer and street committee were ordered to hand in a report on the plans for draining and paving the park streets, with the width of the sidewalks on either side, and the placing of hitching posts, at the next meeting.

Warrants for \$16,910 were ordered drawn for 80 per cent of the work done on Eleventh street, payable to the Warren Construction Company.

Councilman Williams, in order to head off any injunction proceedings on account of the city having exceeded its charter limit for street improvements, introduced an ordinance appropriating the sum collected from the county on road tax to the payment of street intersections, as specified in Ordinance 747. It was read twice and laid over to the next meeting.

The city attorney was given authority to take such action as proper in the matter of the road tax levied by the county.

The city attorney reported on revenue, poll tax, dog tax, old liens for delinquent sewer and street improvements. The finance committee was given power to act in the collection of these matters.

The street committee was instructed to investigate the matter of opening up a street running north and south in the western part of the city, and report on same.

The Fourth of July committee was allowed to issue concessions for stands on the streets and use the celebration.

The street commissioner was authorized to employ extra help to clean up the city streets and alleys.

Thursday, June 18th, was designated as cleanup-day, and proper notice in the papers was ordered.

The invitation for the mayor and council to ride in the procession on the Fourth of July was by a vote accepted.

A protest against the North High street sewer, a petition for an arc light and requiring the leading of cattle through the streets were all referred. Some protests against paving were held over for action at the next meeting.

The Worlds' Pleasures

We all know what a blank, dull place this world would be if it were not for some of the pleasures we have intermingled with our work and worry.

Some women find no pleasure or comfort at all in their shoes; that is simply because they have not found the right kind.

In the "Quaker" shoe for \$3.00 there is a stylish, nobly shoe for every foot, and as "Quaker" shoes are made by experts, in a Specialty factory, over foot-conforming lasts, and out of the best and most popular leathers, they are sure to fit well and give satisfaction, which means pleasure.

"Quaker" shoes are made by the Goodyear welt process, doing away with the tacks, wax and thread found on the inside of so many shoes that hurt, burn and blister the feet. This means, too, that they are soft and pliable.

All in all, with every item, summed up, you will find that the "Quaker" shoe is the best shoe that can be bought for \$3.00.

Remember to ask for "Quaker"—"The shoe that does not hurt."

Critical Men Demand the PARTIOT

There is but one line of shoes that have a Star on the heel and there is but on "Patriot" line. Each "Patriot" has the name "Patriot" on the sole and the star on the heel. Let these emblems of quality act as your guide when buying, if the shoes you see haven't these marks let them alone and call for the "Patriot." "The shoe that does not hurt." They cost no more than ordinary kinds, we sell them for

\$3.50 and \$4.00
