

SCROFULA AN INHERITANCE OF DISEASE AND SUFFERING

No truth is more forcibly manifested in physical life than the old saying "like begets like;" for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause and cures the disease, but it supplies the weak, anemic blood with the healthful properties it is in need of. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge.

LONGEST PARADE EVER SEEN IN EUGENE JULY 4

Lane County people will see the longest parade next Fourth of July that ever marched through the streets of Eugene, and as well as long it will be full of interest, of clever floats, and comic features, such as the old and famed plug-uglies. Already the committee in charge has ascertained that they will have at least sixty floats, which with other features will make the column over a mile long.

From morning until night the day will be filled with events. There will be speaking by orators, though the committee are so desirous of getting the best possible speakers that they are not ready to make any announcements.

There will be races for the athletic inclined, with suitable prizes, and for those that love music the Creswell and Eugene bands will vie with each other in giving free concerts at the city plaza.

In the evening will be fireworks such as never lighted the skies of Eugene before. Rockets, shooting stars, hot air balloons, and a score of features that please the heart of the oldest inhabitant as well as the youngest will be seen to ascend into the heavens from Skinner's Butte.

Among other special features will be a drill by the \$1000 fire team of Eugene. An actual house will be burned somewhere near the depot.

Another interesting exhibition will be the pole vaulting of Kaykendall and Fred Mullen, University students, who are crack crack athletes.

For the visitors in Eugene there will be free automobile rides from which may be viewed the city's progress and the sights, while at the same time they feel the pleasure of riding forty miles an hour in a horseless wagon.

In the evening a free dance will also be given in the army which will last until morning.

But don't forget the parade. Miss Belle Van Dusen will be the Goddess of Liberty and her float will be drawn by six black horses. That alone will be worth coming ten miles to see.

CHESTER WASHBURNE'S RAPID ADVANCEMENT

In a recent bulletin issued from the government printing press in Washington, D. C., there is an article on the gas fields of Wyoming written by Chester W. Washburne of Eugene. Last summer Mr. Washburne had charge of a large party, investigating petroleum and natural gas in the Big Horn Basin of Wyoming.

This summer he will work in Colorado with headquarters at Denver.

Mr. Washburne is the youngest man in the geological survey holding so responsible a position, and he also holds the record for promotions, having three promotions, with increase of salary each time, since July 1st, 1907. Since promotions are made on merit alone, we predict for Mr. Washburne a successful career in his chosen profession. He will be recalled by many friends in Eugene as a diligent student, graduating with the class of 1905 at the University.

CASTRO IS QUARRERING WITH ALL THE WORLD

Caracas, June 22.—The members of the American Legation are awaiting the arrival of the United States gunboat Marietta at Port Cabello, the warship having been ordered there for the purpose of transferring them to the United States. Jacob Sleeper, who has been acting as Charge d'Affaires since the departure of the American minister, W. W. Russell, and Lieutenant Francis A. Ruggles, the military attaché, withdrew from the Legation at Caracas on Saturday and proceeded to Port Cabello.

The interests of the United States were placed in charge of the Brazilian Legation, as the representatives of the European nations are having considerable friction with President Castro's government. The American Consular Agent, John Brewer, remains here in charge of the archives.

Only Germany Has No Quarrel.—President Castro returned here suddenly a few days ago after a long

absence in the interior, and his arrival attracted much attention. All kinds of rumors are current and the withdrawal of the representatives of the United States is not quite understood by Venezuelans. It is probable, too, there will be an early rupture with Holland, and there are reports that a revolution against the administration is being organized in Columbia.

As matters now stand the United States, France and Columbia practically have no relations with Venezuela. Great Britain and Holland have serious questions pending with the government. Germany alone has no dispute.

TO THE PUBLIC.

Eugene, Oregon, June 22, '08. We, the undersigned physicians of Eugene, being conversant with the use of anti-toxine in the treatment of asthma, submit for the information of the public the following statement:

The use of diphtheria anti-toxine in asthma began about three years ago. The discovery of its value came about by giving the remedy to asthmatics who were also affected with diphtheria. Upon recovery from diphtheria, after injection with anti-toxine it was found that they were cured of asthma. Since that time the remedy has been used in hundreds of cases of asthma all over the world.

At the last meeting of the Oregon State Medical society, at Seaside, a prominent physician of Oregon read a paper on the treatment of asthma by anti-toxin wherein he cited 60 cases that he had treated without a fatality and with almost uniformly good results. In the discussion that followed a dozen or more cases were reported by prominent physicians of the state, with the same result and without a single fatality. Since that time many physicians all over the state have been using anti-toxin in the treatment of asthma, and usually with good results. It is now in common use by physicians everywhere for said disease, and the results seem to justify the treatment.

We feel that Dr. DeBar deserves no censure for the unfortunate result in the Yickers case, as in our opinion he used an authorized remedy in a manner sanctioned by a widespread professional experience. It should be remembered that in the use of anaesthetics and other most valuable remedies an occasional fatality results. Notwithstanding this, these remedies are in constant use by the most enlightened and most conservative physicians the world over.
