Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who *content themselves with doctoring the effects*, while the original disease undermines the system.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

LUMBER DECISION TO BE APPEALED

Chicago, June 25.—The trade [illegible] interested in the decision recently issued by the Interstate Commerce Commission regarding transcontinental lumber rates are preparing arguments in an appeal to the courts for relief from what they regard as the injustice of the order. Sweeping reductions in lumber rates from the Pacific Coast were ordered at a time when the roads everywhere are of opinion that there ought to be a general advance of all railroad rates.

The roads most affected are the Northern Pacific, the Great Northern and the Union Pacific. The reduction practically reduces the rate 15 to 25 per cent. Shipments to all sections of the country west of the Mississippi river are subject to this reduction. A cut of 5 cents has been ordered by the commission in the territory east of the river.

The reductions in rates ordered by the commission would make a difference of millions of dollars annually in gross earnings of the roads and this, they say, they are not in position to stand.

NEWS NOTES.

Albany may have a sweet pea show next month.

According to unofficial advices received at Marshfield, Ware & Leland, a big commission firm of Chicago, have practically concluded a deal for the purchase of the property of the Oregon Coal & Navigation Company. The property includes large tracts of land in Coos county, the Libby coal mine and the steamer, M. F. Plant, which plies between this place and San Francisco. It is said that the consideration was approximately $500,000 and that the new owners will greatly develop the coal interests.

Roseburg Review: About one-half of the employes of the S. P. roundhouse and shops in this city, who were laid off during the dull season last January, are to return to work on July 1, according to reports in local railroad circles. The remaining half will return to their jobs gradually as business picks up. About 25 men in all were laid off.

BRIDGES TESTIFIED HE WAS BRIBED BY FREDERICK KRIBS

Portland, Or., June 26.—That Frederick A. Kribs wanted information which claims were held for cancellation by the government and was willing to pay for the information, was brought out on the direct examination of J. T. Bridges, ex-register of the Roseburg land office, in the trial of James Henry Booth, ex-receiver of the same office, charged with accepting a bribe from Kribs.

The proposition was made to Bridges and Booth by Kribs, he testified. Kribs offered recompense for the information at the rate of $25 a section.

"Did you agree to the proposition?" queried Bridges.

"And Booth?"

"Well, he didn't object," answered the witness. This was all that Bridges was asked by the prosecution, but later, toward the close of the cross-examination, this matter will be gone into by the defense. There are several subjects which the defense will ask Bridges to throw light on.

Bridges was not indicted by the federal grand jury, it being understood that he was given immunity by a number of very shady officials in return for testimony against others who were accused.

ANOTHER DIVORCE SUIT FILED IN COURT TODAY

John D. Adams this afternoon filed with the county clerk, a complaint against his wife, Mrs. Theresia Adams, asking for divorce. He alleges that they were married at St. Louis, Mo., on Jan. 9, 1903, and have one minor child, Esel, aged three years. The plaintiff alleges as ground for the legal separation that his wife, without cause or provocation, deserted him on April 30, 1906, and has since continued to live separate and apart from him. He asks for the care and custody of the child. Wm. G. Martin is his attorney.

ALBANY GETS NEXT CONVENTION OF TEACHERS

(Continued from Page One.)

of the work in Portland, in other cities, and the problems.

In the afternoon the department work was again taken up. In these departments the teachers get something like a normal training—more specific lectures and ideas. The general assemblies are for more broader outlines of improvement and knowledge.

At three o'clock Dr. Hart addressed the convention on one of his favorite subjects, "Application of American Historiacl Geography."

This Evening.

This evening luncheon will be served in the gymnasium at 6 o'clock to the visitors, during which the band concert will be played. At eight o'clock President Campbell will deliver in his own inimittable way, an address on "The Scenic Resources of Oregon." The address will be illustrated by stereoptican views.

The Association.

In the teachers' association of Western Oregon, there are nine hundred members, two-thrds of which are present. In the portion of Oregon west of the Cascades there are something like 2,200 teachers.

At the present convention one sees the men and women, largely young, for they all appear unworried in their interest, who are making the future of Oregon, more than most people give them credit for doing. While most of the lecturers are men, the audience is composed of women more than three to one.

DR. CHRISTIE HAS GOOD MINING PROSPECTS

Dr. J. Christie and Charles Severson returned to Eugene last night from their mining properties on the Little North Fork of the Willamette river, in the fastnesses of the Cascade mountains east of Eugene. They have done a lot of work on the properties and are now nearly ready for machinery with which to reduce the ore. Dr. Christie today stated that they have very good prospects there, in fact the best he has seen in years, and he has been in many mining camps.

WOMEN DELEGATES ARE BADLY HURT

Newport, R. I., June 26.—A tallyho, in which a number of delegates to the women's club convention in Boston, were riding, collapsed near here today, dangerously injuring two and slightly injuring ten others. The front wheel of the vehicle came off the axle.

The identity of the injured is withheld by the authorities of Newport hospital to which they were removed.
