 Cascara—(chittim bark)—3 1-2 @ 4 1-2c pound.

**PORTLAND MARKET REPORT.**  
 Portland, July 8.—Those who are figuring on a very heavy production of hops in Oregon this season will likely be astonished when the final reports of the coming harvest come in.

The yards never before showed the backward appearance they do at this time. While in some sections and in a few isolated spots the yards look as well as ever, but the average condition is not very good. The cultivation has been too lax in most quarters to bring forth a heavy yield.

This has been an unusual season. During the winter and spring the rainfall was much below the average and it is quite likely that even the best cultivated yards will suffer for lack of moisture before the harvest removes all danger. It is a certainty that the uncultivated and the slightly cultivated yards will suffer—in fact some of them are already showing signs of drought.

It would be idle talk to give an estimate of what the coming crops is going to be in bales and the most prominent growers are not giving out their views—in fact they have none to give, because the condition of the crop is too badly mixed to give an accurate estimate.

**Queer Situation in Contracts.**  
 It is stated that Carmichael of Salem has taken a number of small contracts on the growing crop for English account at 10c a pound and on receipt of this rumor many growers are said to be invading the office of the supposed buyer in an effort to sell their 1908 growth. Mr. Carmichael neither denies nor affirms the report and there may and may not be anything in it as far as new business is concerned. Some interests are of the opinion that the contracts which are reported, each year. A year ago a number of term contracts were made around 8, 9 and 10c a pound and these contracts which are now attracting so much attention from the trade may be the ones made at this time.

**Egg Situation.**  
 Oregon ranch eggs are in light receipt, and quotations advanced this morning to 10c and 20c for candied with a firm tendency. Uncandied are valued at 19c.

Dealers in eggs consider the laying season drawing to a close and that receipts of fresh eggs will be lighter from this on. The warm weather helps in the tendency toward scarcity, as they will not keep for any length of time out of cold storage.

The egg season begins in the Northwest in January, and the supply increases from week to week until April 1, which is considered the best time for placing in cold storage for the following winter. The stock on such storage is not considered up to the average this year, as prices did not go below 18 or 17 cents, and at this figure it does not pay to place many away and run the risk of Eastern eggs being shipped in from the great packing centers at 20 cents a dozen, to compete with the home storage. This year a great many eggs have been put away in Chicago and Omaha, and it is expected that this stock will be drawn on after the price of Oregon ranch has reached 25 cents in Portland.

**Outlook for Potatoes.**  
 Portland potato exporters are expecting a busy season this year, as the crop of the Northwest gives promise of abundant yield, and the dry season in California, coupled with the late frosts, has caused a shortage in the crop in the Sacramento and other valleys to the south. Already the Oregon product is crowding the new potato of California out of the Portland market, although the shipping season for potatoes will not begin until the middle of October or first of November.

Potato shippers are not doing much in buying yet, but are preparing to enter the field about the first of September, when the potato supply of the Coast will be definitely estimated. Farmers who have been watching the conditions constantly expect remain-

erative prices for first-class stock the ensuing Fall and Winter.

**Market Notes.**  
 Poultry is in light supply, but dealers report demand light also, on account of the abundance of fruits and vegetables and the prevalence of warm weather. Good veal sells well, however.

Royal Anne and Bing cherries are on the market in larger supply. The former are quoted at a cent and the latter at 9 to 10.

Three cars of bananas arrived from New Orleans this morning, in good condition, though the weather tends to ripen the fruit rapidly.

A carload of California onions is expected in this afternoon and a car of watermelons tomorrow.

Large quantities of fresh cream are being used for summer refreshments and the quotations on butter are firm, as a result of this drain on the supply.

**Portland Livestock Market.**  
 Firmness prevails in livestock quotations of all kinds, and stock dealers are predicting a continuance of present conditions for the season. Most of the fat cattle and sheep arriving this week are from the southern part of the state, it being considered rather early for prime conditions.

In Eastern Oregon and Idaho, with the growth of population, the demand for beef, mutton and pork is really in excess of the supply, of the three states of the Northwest, and farmers must pay more attention to the raising of cattle, sheep and hogs in order to furnish the local abattoirs of this city and of Puget Sound. While the stock is thus in a measure replenished, the raiser of livestock is pretty sure of good prices for all he furnishes.

Quotations ruling the livestock market today are:  
 Hogs—Best \$6.25 @ 6.50; medium \$5.75 @ 6.00; feeders, no demand.  
 Cattle—Best steers \$4.00 @ 4.25; medium \$3.75 @ 4.00; common \$3.25 @ 3.50; cows, best \$3.50 @ 3.75; medium, \$2.50 @ 2.75; calves \$4.50 @ 5.25.  
 Sheep—Best shorn wethers, \$3.75; mixed \$3.25 @ 3.50; Spring lambs, \$4.50 @ 4.75.

### THROUGH STAGE TO KITSON SPRINGS.

Arrangements have lately been made so that persons wanting to go to Kitson Springs can take the mail stage at Eugene, Goshen or Springfield and connect with the stage at Lowell for the springs by way of Hazel Dell, on Tuesdays, Thursdays, and Saturdays. Sept 6

**CASTORIA.**  
 "It will do for you what it has done for millions of others."  
 Sold by all druggists.

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

Have a sample bottle sent to you by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghantou, N. Y. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghantou, N. Y., on every bottle.

**MUST CUT GRASS AND WEEDS.**  
 Notice is hereby given that all property owners must cut the grass and weeds in the streets and alleys abutting on their property within the city limits within ten days from this notice or work will be done and the costs assessed against the property. By order of the Chief of Police.
