WILKINS AND DUNN TO ERECT \$30,000 BLOCK

WILL PUT IN REINFORCED CONCRETE BUILDING ON WEST EIGHTH STREET THIS SUMMER.

WILL BE 100x160 FEET IN DIMENSIONS—LOWER FLOOR OF MR. DUNN'S PORTION WILL BE OCCUPIED BY AUTOMOBILE GARAGE AND UPPER FLOOR WILL CONSIST OF HOUSEKEEPING ROOMS.

Saturday evening F. E. Dunn, the dry goods merchant, and F. M. Wilkins, ex-mayor of the city and retired druggist, completed a deal whereby Mr. Dunn secured from Mr. Wilkins the west half of the property on West Eighth street, between Olive and Charnelton, which is now covered by a number of small frame buildings occupied by McClanahan's incubator factory, Gaby's plumbing shop and a number of small business houses. The consideration is not given out for publication.

Mr. Dunn left Sunday evening for Portland to make arrangements to at once begin the erection of a huge two-story reinforced concrete business block to cover his and Mr. Wilkins' lots, the two to build together, arrangements having been all completed. The building will have a frontage on West Eighth street of 106 feet and will have a depth of 160 feet. Mr. Dunn stated at the depot last evening that as soon as it is possible to arrange all the preliminary details work on the new building will commence. Arrangements are now being made to move away the old shacks now covering the property.

Mr. Dunn will lease the lower floor of his part of the big building to Williams & Van Winkle, who are doing business here under the name of the Eugene Auto Company, for a garage. He states that the report that he would build across the street from there for the firm was premature. He was considering the matter, but had made no definite decision. Mr. Wilkins has several prospective tenants for his part of the building. The entire upper floor will be divided into housekeeping rooms and as there is now a good demand for flats, they will doubtless be filled up quickly after completion.

This big block will be a big improvement for that portion of the business section of the city. It will take the place of a row of unsightly wooden buildings, and will no doubt be the means of inducing other property owners on that street to put up substantial buildings. West Eighth street is destined to be one of the best streets for business in the city. Other new blocks are contemplated for that thoroughfare, to be built either this fall or in the spring. Mr. Dunn estimates the cost of the new building at something near \$30,000.

Of course "amount of space used" is not EVERYTHING in advertising. But just in the pursuit of wisdom keep track for a time of the amounts used by the various stores in this newspaper—and see if you could not safely classify the stores accordingly.
