

POLITICAL MANAGERS PREPARE FOR CAMPAIGN

published, and no money will be received after November 1.

Official Notification

Bryan will be officially notified of his nomination on August 12, at his home. Kern will be notified at Indianapolis, the date yet to be set.

William E. Gonzales, editor of the State of Columbia, S. C., one of Bryan's lieutenants, after a visit with Bryan and Kern today said:

"The statement that Bryan will not make a canvass is incorrect. It is his present intention, however, to deliver no rear platform speeches, but ten or a dozen political addresses, dealing with the more vital issues presented in the platform. Kern will make a more continuous campaign, and I was assured at Denver that C. A. Towne will be no less active than if he had been the vice presidential nominee."

MURDER MYSTERY AT TROY, NEW YORK

Troy, N. Y., July 13.—Showing evidences of a brutal murder, the result

of fiendish motives, the body of Hazel Drow, a beautiful 15-year-old girl of Troy, was found today floating on the surface of Teal pond, 10 miles from the city. The whole community is shocked and astounded at the discovery of the revolting crime, which recalls the drowning of Grace Brown by Chester Gillette in Big Moose lake.

She had been missing from home since July 4 and a persistent search led to no trace until the discovery of the body.

The skull is crushed and physicians, who made an examination of the body, say there is no doubt that the girl was assaulted and horribly maltreated before her death.

Excitement has been increased by the testimony of several persons living on the road which leads from the city to the pond, that on the evening of the Fourth they saw a big automobile, with no lights, pass out toward the pond with two men and two women. When it returned later it carried two men, but only one woman. This story is substantiated also by several persons who live at a hotel not far from the pond.

The police are following the automobile clue, and by putting several of the girl's friends in the "sweat-box," they expect to learn today whether she might have been the occupant of the car who did not return.

The body of the girl was in bad condition after eight days in the water of the pond.

SENATOR MILLER REACHED HOME BEFORE WIFE DIED

Albany, Or., July 14.—M. A. Miller, national Democratic committeeman for Oregon, arrived at his home in Lebanon from the Denver convention last night in time to reach the deathbed of his wife, who died this morning. She was unable to speak to her husband after he arrived.

GREEK CONFESSES HE WAS PAID TO BLOW UP GALLAGHER

San Francisco, July 14.—John Claudianos, a Greek, aged 25, is in the city prison, having confessed to District Attorney Langdon that he dynamited the Oakland residence of James L. Gallagher, the prosecution's star witness against Abraham Ruef and other defendants in the bribery and graft cases. The police are now searching for Peter Chridianes, brother of the man in custody, who, according to the latter, was paid \$1000 for the crime. Claudianos also confessed to having dynamited two unoccupied houses owned by Gallagher.

Claudianos is alleged to have admitted that he intended to blow up Gallagher, but was unable to do so, and decided to destroy his property. The Greek is said to have declared that he had promises of \$5000, of which amount his brother received \$1000, and because none of it was turned over to him he decided to confess. Thus far Claudianos stubbornly refused to tell whether he was hired by any one or who promised him money to dynamite Gallagher's home. Search is being made for Peter.

WESTERN MINERS OPEN SESSIONS TO ENTIRE PUBLIC

PRESIDENT MOYER'S ADDRESS PRINCIPAL FEATURE OF SESSION — THINKS DEMOCRATIC ANTI-INJUNCTION PLANK WILL BE OF NO BENEFIT TO WORKINGMEN BECAUSE LAWS ARE NOT ENFORCED BY COURTS

Denver, July 14.—For the first time in the history of the organization the convention of the Western Federation of Miners will throw open its entire meeting to the public today, and all sessions until final adjournment will be public.

President Moyer read his annual report and address. Moyer, in the report, expressed the hope that discussions would cease, and that the minority in the organization would bow to the will of the majority.

Eight strikes were held in the past year, the miners gaining better conditions in several instances. The sending of troops into the Goldfield district by President Roosevelt was condemned in strong language. Special attention was called to the trouble that has arisen between the Federation and Industrial Workers of the World, and Moyer expressed the belief that industrial unionism will by no means be popular, and is not wanted by the working class of the United States.

The trial of Steve Adams was spoken of and the hope expressed of his speedy acquittal.

Credit is given in the report of the educational work in which the Federation has been engaged and the good results achieved.

The death of John H. Murphy, counsel for the Federation for a number of years, is regretfully mentioned and a tribute paid to his memory.

Still Not Satisfied.

In concluding the report President Moyer uses this significant language in referring to the political situation:

"There has just adjourned in this city a national convention of one of the old parties. Before the committee of this convention there appeared labor's representatives, praying that there might be inserted in the Democratic platform an anti-injunction plank. Their prayer, as I am informed, was granted, and it is now for the voters of the United States to decide this party should be placed in power. Far be it from me to say anything or do anything that might interfere with labor's efforts, organized or unorganized, to temporarily better its condition, but have we any assurance or reason to expect an interpretation of these laws favorable to labor, if they be enacted?"

"Mr. Mitchell is quoted as being particularly gratified at having included in this plank the right of the workers to organize. When we remember the federal judges by their interpretation of the laws have vested supreme powers in the executive of a state, and that no court may inquire into its acts, and when, as Mr. Mitchell says, the supreme court of the land has so construed the laws as to make it a crime for labor to organize, what have we to hope for by placing further laws on the statutes?"

Kirk is in a critical condition. The body of Fred Groess, half brother of August, was also found in the house by the officers, but it is not known whether he was killed by the shots of the posse or by his brother, or whether he committed suicide.

PRINT PAPER TRUST RETARDS PROSPERITY

New York, July 13.—"Not only are the paper makers keeping their own employes in idleness, but they are enforcing idleness upon thousands of workers in printing and publishing plants throughout the country."

This is the conclusion Herman Rider, president of the American Newspaper Publishers' Association, expressed in a letter addressed to the president about paper combinations.

The letter states that the promise that the courts would provide an adequate and prompt remedy, after an appeal to congress for relief had failed, that after 24 paper companies acting together in the Hirs and marcia association had been subjected to investigation by the federal grand jury, the paper makers admitted that they had placed their records beyond their reach; but subsequently all but two of the participants pleaded guilty, and that immunity was ostensibly granted to every individual who participated in the pool.

The treasurer and originator of the pool, John H. Parks, is now the letter says, a fugitive in Europe. He was included in the indictment. "Such a fish to the procedure," the letter adds, "is a miscarriage of justice."

The situation, the letter concludes, requires drastic treatment and the appeal is made that steps be taken "to bring the law-breakers to their senses, and to end a lawless condi-

PORTLAND THIEF MAY BE INSANE SAY HIS FRIENDS

Portland, July 14.—Fred Hamilton, arrested early today for the robbery of three jewelry stores, is well-known in the Northwest, and it is believed he is temporarily insane as the result of domestic troubles. Hamilton is an athlete of considerable ability, and two years ago was quarterback on the Multnomah Athletic Club's football team. He was also a member of Skamania county Washington, for two terms.

Friends say he has shown signs of insanity for several weeks, and has a mania for diamonds, it is said. Recently he inherited a considerable fortune.

FARMER MENTALLY DERANGED SLASHES HIS THROAT

Salem, Or., July 13.—Schuyler Ruble, a well-known farmer residing two miles west of Salem, committed suicide this morning by cutting his throat with a pocketknife. Ruble had been suffering from mental derangement for some time and had been taking treatment at a sanatorium in Portland. About a week ago he came to the home of his mother in Polk county and he has been taken care of by his brothers.

This morning he was left alone for a moment, and when his brother returned he had secured possession of a pocketknife. The brother tried to take it away from him, but the deranged man slashed with the knife and viciously kicked until he had overpowered his guardian, and then cut his own throat.

He was 42 years old and leaves a
