WEATHER OF OREGON DURING THE PAST WEEK

The past week was the hottest of the season and maximum temperature of 100 degrees occurred frequently in the eastern counties along the Columbia river. The winds, however, were light and consequently evaporation was not excessive. In the western counties the 11th and 12th were very sultry and oppressive days, although the maximum temperatures were not unusually high, being less than 90 degrees in most localities. On the afternoon of the 12th cloudiness increased, a few showers occurred, and the temperature on the 13th was much lower in the Willamette valley and in the southern counties west of the Cascade mountains. Rain is now badly needed in all districts, as none of consequence has fallen in the western counties since June 26th, and in the eastern counties since June 20th. The sunshine has averaged above the normal and in consequence of the protracted period of dry weather forest fires are beginning to be troublesome in a few localities in the Cascade and Coast ranges of mountains.

Coast District.

Toledo, Lincoln County, Otto O. Krogstad—The week has been dry, with clear skies and high temperature reaching a maximum of 87 degrees on Monday.

Fairview, Coos County, Wm. Bettys—Clear, dry weather prevailed during the entire week.

Willamette Valley

Portland, Multnomah County, Local Office, Weather Bureau—The week was warm, with no precipitation. The fore part was bright and clear, but the latter part was cloudy and very sultry on Saturday and Sunday.

Corvallis, Benton County, E. P. Erwin—Bright sunshine prevailed throughout the week, with very warm days and unusually warm nights. Westerly winds prevailed. The week closed very sultry, with considerable cloudiness.

Salem, Marion County, M. P. Baldwin—The weather has been clear and warm, with no rain.

Southern Oregon.

Glendale, Douglas County, B. J. Simpson—The week has been clear and warm, except that a heavy thunderstorm of short duration occurred on Saturday evening.

Columbia River Valley.

Mikkalo, Gilliam County, J. F. Chandler—Clear skies and hot weather prevailed during the entire week. The wind was light northeasterly and easterly. No rain fell.

Condon, Gilliam County, S. C. Dodson—The weather for the week was warm and dry, with westerly winds prevailing.

Heppner, Morrow County, Geo. Whitely—The week has been very warm and dry, with clear weather.

[illegible] Umatilla County [illegible] Baker—This has been a week of continuously hot, dusty weather. Light northerly winds prevailed.

Pendleton, Umatilla County, H. F. Johnson—The maximum temperatures were 100 degrees or higher on five days of the week. Light, variable winds, mostly northerly, prevailed. No rain fell. The weather was clear all the week.

Hermiston, Umatilla County, Helen T. Duncan—The week has been very dry and hot, the average daily maximum temperature being a little over 101 degrees. On Saturday the temperature was 108, dropping to 90 at 9:30 p. m. and to 77 during the night, but rising to 91 at 7 a. m. Sunday morning.

EDWARD A. BEALS,
Section Director, Portland, Ore.

BIG FRUIT FIGURES FROM ROGUE RIVER

In the Rogue River valley, in Southern Oregon, F. H. Hopkins, in 1907, made a profit of $19,000 off 16 acres of Winter Nellis pears—$1137.50 per acre. In the same valley G. H. Hoover bought 10 acres of pear orchard at $560 per acre. Fifteen months later the crop brought him $9600. Eight years ago J. L. Dumass set out 50 acres of apples near Dayton, Southeastern Washington. In the summer of 1907 he bought 50 acres of apple orchard adjoining his property, at an investment of $18,000. The apples he picked from these 50 acres that season sold for $16,000, and the total crop from the 100 acres realized $52,000, a return to the owner of $40,000.

Straight Front Corsets—Fat—and Heat

The first two stretch wretched minutes into hours of misery for the modish fat woman these days. Her daily program is slow strangulation from 3 p. m. to bedtime.

But this (to others) comical anguish of the well-dressed fat woman in hot weather may be avoided. Let her reduce ten or fifteen pounds and she can wear her stylish garb with comfort at 90 in the shade.

All she needs to do is to ask her druggist for ½ ounce of Marmola, ½ ounce Fluid Extract Cascara Aromatic and 3½ ounces Syrup Simplex. Take a teaspoonful after meals and at bedtime, and in a little while she should be losing from one-half to a pound of fat a day. At that rate she can soon get down into the comfort belt, and do it without exertion, disturbance of her habits, or injury of any sort. For, understand, this is a harmless home mixture that does not cause wrinkles, cost much, or require any assistance from exercising or starvation methods to help it get results.

PIES IN NEW YORK FROM OREGON CHERRIES

Salem, Or., July 14.—Two new canneries, and a large pie factory in New York is buying tons of Salem cherries for its use. The entry of the Holmes Canning Co. into this field discredits the old story that Oregon canneries agreed not to invade each other's territory. The New York pie factory is said to be the largest institution of its kind in the world. It makes nothing but pies, and supplies this staple article of American trade to all cities within reach of the metropolis. Thousands of pies are made every day. The company has arranged with Tillson & Company, of this city, to pack Royal Ann cherries in barrels. The cherries are stemmed and pitted, an automatic pitting machine being used for that purpose. A ton and a half of cherries can be pitted by one machine in ten hours.

The pitted cherries are packed in syrup in 50-gallon barrels and will be shipped to the pie factory in carload lots. As the pie manufacturers use immense quantities of fruit they can use a barrel of cherries before the fruit will spoil after the barrel is opened. The factory could use several barrels of cherries a day if the fruit were to be had. Next year arrangements will be made to supply the New York pie factory with larger quantities of the Oregon fruit, and an effort will be made to induce the manufacturers to prick into the cover of the pie the words "Oregon Cherry Pie."

HOMER WATTS SUES FOR $4,600 DAMAGES

Homer J. Watts, a well-known graduate of the University of Oregon, has sued a man at Athena for damages for alleged defamation of character. A press correspondent at Athena tells of the suit as follows:

"Claiming that Jerry Stone has wrongfully damaged his reputation as a school teacher and also as a lawyer, Homer I. Watts, formerly principal of the schools at Athena, has started a damage suit in the circuit court of Umatilla county asking damages against Stone in the sum of $4,600.

"The particular offense charged against him is that on December 1, 1907, while Watts was serving as principal of the Athena schools he, Stone, caused to be published and circulated a slanderous, scandalous and libelous story concerning the plaintiff. In effect, this story was that Watts had disregarded the instructions of the Athena school board and that he had also used profane language on the streets of Athena, and had called pupils by various offensive names.

"Because of this alleged libel the plaintiff complains that he is unable to secure further employment as a teacher, and on this ground he is damaged to the extent of $1600. He then asks for the sum of $3000 additional because he alleges that the defendant acted against him for the purpose of annoying and injuring him."

A Missouri editor says he has two subscribers who frequently get full and every time they are in that condition they come in and pay a year in advance. One of them is already credited to 1941 and the fraternity throughout the state is crazy to find out what brand he drinks. They want to offer it as a premium.

"One thousand gallons of "near beer" were sold by an enterprising Albany individual during the recent celebration in that city, and nobody got drunk.

Prize night tonight at the Grand.

IT CAN'T BE BEAT.

The best of all teachers is experience. C. M. Harden of Silver City, North Carolina, says: "I find Electric Bitters does all that's claimed for it. For Stomach, Liver and Kidney trouble, it can't be beat. I have tried it and find it a most excellent medicine." Mr. Harden is right; it's the best of all medicines also for weakness, lame back, and all run down conditions. Best, too, for chills and malaria. Sold under guarantee at W. A. Kuykendall's drug store.

Prize night tonight at the Grand.

GOOD COUGH CURE.

TEXTILE TOWN ON COLUMBIA NEAR PORTLAND

Portland, July 15.—Between a rail road and a river, with an unlimited water power latent in precipitous falls immediately at hand, and with ideal weather and geographical conditions, the first textile town on the Pacific coast and west of the Mississipi river is to be established at a point 28½ miles east of Portland, a short distance from Bridal Veil falls.

The town will be established and the immense manufacturing plant will be operated by the Gordon Falls Electric & Manufacturing Company, recently organized with a capital stock of $225,000. The capital stock, however, does not indicate the total cost of this huge manufacturing enterprise.

Employes to Share Profits

An Utopian idea is to be followed in connection with the numerous employes who will be required in the big manufacturing settlement. Plans are to be worked out which will permit all deserving employes to acquire an interest in the company, so that each may participate in the profits accruing from his own labor. Each family will be provided with a home and sufficient lands for gardens. The company will donate a suitable plat of land for park and recreation purposes, also for a gymnasium.

Another feature of unique and modern interest is the prohibition of the sale of liquor in the town.

"The company has determined," according to its official statements, "to prohibit the sale of intoxicating liquors upon its premises, or the use of such premises for immoral purposes, and all realty transfers or leases will be made subject to such restrictions, it being a fact beyond controversy that social and business conditions will be greatly benefited thereby."

Will Remove Big Plant.

The company has arranged to purchase the Pendleton Woolen Mills as an initial step. After removing the entire plant to Gordon Falls the company will enlarge it to a three-stand mill and equip it with the latest machinery capable of making most kind of woolen goods. Besides continuing to make the famous Indian robes, the company will make several lines of staple goods with registered trademarks.

Prize night tonight at the Grand.

Heating furnace, brick and foundation stone for sale cheap by First National Bank.

UNCLE SAM PAINTED THE TOWN RED

on July 4th in honor of his birthday, and there will be many soiled gowns and garments to show evidence of the paint. Whether it be red paint, stain or soil from any cause whatever you will have your garments renovated so they will look good as new when cleaned at the Eugene Dye Works.
