NORTHERN VIEW OF SOUTHERN RACE PROBLEM

Can the negro come up to Harvard. contributes an article to the July number of the North American Review on "The Outcome of the Southern Race Question."

At the beginning of the fiscal year...

At the beginning of the fiscal year July 1st, the Department of Agriculture had \$15,000,000 available for carrying on its work during the ensuing year.

which the members of the race in the South incontestably own."

And now the editor of the Springfield News has moved Eugene four miles away from Springfield, but in the same editorial says his town is nearer the State University than the western part of this city is, and that the electric road construction work is already helping Springfield.

With Taft's oft reiterated ideas regarding predatory wealth and the declaration of Bryan regarding them, it is not likely that the two presidential campaign committees will be overburdened with campaign funds this year.

Eugene is growing faster than ever before—more rapidly, in fact, than any other town in Oregon. This condition is due largely to the pull-together spirit that has been manifested during the past year.

tern—has contracted to pay \$11,000,000 for constructing a cut-off line to reduce the running time between New York and Buffalo one-half hour.

Under Washington's new primary law candidates in that state must accompany their petition, when presented to the county clerk for filing, with a fee equal to one per cent of the salary of the office sought.

Japan is going to pay 8 per cent on a \$200,000,000 loan, while investors fall all over each other trying to get Uncle Sam's two per cent bonds.

This chap who says he hopes to see every man the owner of an automobile must be the advance agent of universal bankruptcy.

At any rate, it can do no harm for the spellbinders to hope for better treatment from campaign audiences than most of the talkers got from the national conventions.

Henry Watterson throws doubt to the winds and is absolutely sure that Bryan and Kern will get the bag of gold at the end of the rainbow this time.

Everybody knows that "Teddy" won't take the stump for Taft, unless he takes a notion to. And, anyway, he's busy getting ready to carry the war into Africa.

Sam Gompers has been doing a lot of bluffing, and it is now up to him to deliver the goods.

If the politicians are all as glad as they say they are over this publicity thing, it's a little queer why they did not put it in force long ago.

If he lives to manhood the six-year-old Elwood (Ind.) kid who coughed up a brass key should be able to unlock all of life's problems.

Mexican authorities must have the idea that revolutionists make good fertilizer, as they plant them as fast as they catch them.

Heart to Heart Talks.

By EDWIN A. NYE.

"MAGGIE"—AMERICAN QUEEN. A recent cable dispatch tells about the wardrobe of Queen Marguerite, said to be the greatest in Europe.

Queen Margie wore her dresses more than five times. Indeed, she did not have more than five dresses all told, if she had that many.

Those calico dresses! She wore one to school. The other was worn to church. You might ponder long as to which was most becoming.

None of them cost \$3,000, perhaps none of them so much as 30 cents—dainty white linen mostly, a bandanna or two.

And she is a queen today—an American queen. She still wears her scepter over her subjects.

And she is a queen today—an American queen. She still wears her scepter over her subjects.

And she is a queen today—an American queen. She still wears her scepter over her subjects.
