BIG BASEBALL GAME TOMORROW AFTERNOON

The Campbell-Fellman and Halsey baseball teams of the upper valley league will cross bats at Recreation Park at 3 p. m. tomorrow. The game promises to be one of the best of the season, as the Halsey team is one of the best in the league. A comparison of the teams may be had from the fact that the Campbell-Fellman team lost to Springfield on July 4 by the score of 7 to 6, and on the following day won by the score of 9 to 0 from the same team. Last Sunday Halsey lost to Springfield by the close score of 3 to 2.

The home team has been strengthened by several new players who will appear in Eugene uniforms for the first time. Springer, a big six-foot southpaw, will be on the slab for Eugene, and he has goods that will surprise the Halsey stickers. On first base will be Cliff, formerly of the California league, who will receive his share of applause from the fans. Moon is well known to Eugene fans and will play in the outfield. The game promises to be one of the best of the season and should be well attended. It is reported that nearly 100 fans from Halsey will accompany the team from that place to this city.

The Chicago ladies' baseball team will play the locals two games at Recreation Park within a few days, the exact dates to be announced later. The line-up for Sunday's game: Springer, pitcher; Weed, catcher; Murphy, shortstop; Mead, first base; Clifford, second base; O'Brien, third base; Leabo, right field; Moon, center field; Johnson, left field. Harper, substitute.

Colonel Mercer has succeeded in inducing the Studebaker company to send one of their 30-ton touring cars to Eugene, in charge of Mr. Kerby, one of their most expert chauffeurs and salesmen. The colonel was forced to invoke the aid of the Commercial Clubs of Eugene and Portland in order to secure this concession from the big concern manufacturing these cars, and is naturally pleased with the success of his efforts. The car is one of the smoothest running machines that ever skimmed over Eugene's paved streets and it will be kept here for the benefit of Colonel Mercer's personal friends, who are legion, as well as for the purpose of demonstrating the superiority of the Studebaker make. A mate for this car won the 100-mile race at the Portland Rose Festival.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

Sometimes when a man has no ground for divorce he endeavors to rent his neighbor's.

When you smile at trouble, it sometimes takes that as an invitation.

The wrinkles in our faces are rarely caused by the hard work we do.

An ounce of prevention may be worth a pound of cure, but a pound of cure is worth a small fortune.

Some people would rather be contrary than right any day.

A girl's idea of a good time is all play and a dish of ice cream.

There is no question that the citizen who sleeps out loud is an undesirable associate.

It is a good thing to work hard, but a hard thing to work good.

Some people are dissatisfied the moment they find themselves completely satisfied.

There would be no fun in it if we were all on the same side of the question.

Some people are such good material that they just can't help making fools of themselves.

A June Spasm.
'Tis good to be alive in June,
When all the world is new,
When fields are in their emerald garb
And shales above are blue.
The threshold of the harvest time,
When, with her cheeks a glow,
Old Mother Earth expectant waits
Her bounty to bestow.

The cherry trees inviting stand,
With ripened fruit aflame,
And in their summer setting bright
Look good enough to frame.
The soil is soft as velvet way
And yielding to the tread,
While modest little yellow flowers
Look from their lowly bed.

The air is fragrant with the breath
From fields of never bloom,
And every gentle breeze is rich
With nature's sweet perfume.
The bees their simple measure hum
Around the sheltered hive,
And, singing up the case all round,
'Tis well to be alive.

Day of the Airship.
When the airship arrives and every family has a neat, serviceable family car, a universal migration to the tropics during the winter months.

What is to hinder the man who only needs a stout heart and 15 cents' worth of gasoline to travel where he will from probing up his family at the first approach of winter and going where things to be had for the picking?

There is no reason why man should not migrate as the birds do as soon as the airship takes to the air.

It's Heated This Way.
I wish that May
In garb of green
Would ever stay

For then might we
With lips that smile
So gladsome be

Is bound to pass;
She will not stay,
The winsome lass.

It makes us sigh—
