of transferring land to a fraction of what it is under the old method. But it is a departure, and any departure—especially in a matter of such vital importance as to the title to land—must arouse dark apprehension in conservative minds.

PLAN TO IMPROVE TASTE FOR ART. A movement which may be of more practical utility than appears on the surface of it is now in progress at Washington to promote the general study of art in its broadest sense and to cultivate public taste in the United States for artistic improvements of all kinds.

Judge Becker, special government prosecutor in the Booth-Singleton conspiracy case, makes the allegation in his opening statement to the jury that while only 160 acres is involved in the particular case on trial it is important because the Booth-Kelly Company used the same methods in acquiring a great deal of their holdings. This opening statement would be all right if it was not much in the nature of the average newspaper agent's advance notices, few of which the actually killed when the curtain rises on a show. It was so in the prosecution against J. Henry Booth for alleged bribery, and we happen to know enough about the pending case to predict another fiasco on the part of the prosecution.

All snobdom on this side of the line has been in a flutter of anxious excitement since the Prince of Wales landed in Canada. He is expected to visit Bar Harbor and Newport, and self-respecting Americans can only hope for the best, while fearing he'll be gagged with the carrying on of the bunch of toadies.

Mr. Bryan is a much handsomer man than Mr. Taft. Think of handling out a controversial lemon like that in hot weather. Yes, of course, it was a lady; the president of a woman's democratic club in New York City, who said it.

THE REMEDY THAT DOES. "Dr. King's New Discovery is the remedy that does the healing others promise, but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health."
